The NRC staff seeks to identify, among other things, all review and consultation requirements related to the proposed action, and agencies with jurisdiction by law or special expertise with respect to any environmental impact involved or which is authorized to develop and enforce relevant environmental standards. The NRC invites such agencies to participate in the scoping

process and, as appropriate, cooperate in the preparation of the SEIS.

The BLM has accepted the NRC's request to participate as a cooperating agency in the preparation of the SEIS. The BLM has expertise in mineral management and was a cooperating agency for the Ross SEIS. The agencies will cooperate according to the process set forth in the memorandum of understanding signed by the NRC and BLM and published in the **Federal Register** on April 01, 2013 (78 FR 19540).

The NRC will continue its environmental review of Strata's license amendment application and, as soon as practicable, the NRC and its contractor

will prepare and publish a draft SEIS. The NRC currently plans to have a 45-day public comment period for the draft SEIS. Availability of the draft SEIS and the dates of the public comment period will be announced in a future **Federal Register** notice. The final SEIS will include responses to public comments received on the draft SEIS.
