

the NOSB Policy and Procedures Manual and Technical Review Process will be addressed through separate actions. The changes affecting the National List petition guidelines include the following: (1) Requesting the petitioners indicate the OFPA category for substances used in organic production; (2) abbreviated requirements for petitions that request a change to annotations for substances already listed; (3) elimination of references to Confidential Business Information; (4) clarification of requirements for petitions requesting the addition, removal, or amendment of an annotation for a listed substance; and (5) other language changes for clarity. As part of the revision to the petition guidelines, NOP has also included within NOP 3011 answers to common questions about the petition process, such as the role of the NOP, role of the NOSB, and the criteria used to evaluate petitions.

III. Availability of National List Petition Guidelines

The procedure document titled "National List Petition Guidelines" (NOP 3011) is now available from the NOP through "The Program Handbook: Guidance and Instructions for Certifying Agents and Certified Operations." This Handbook provides those who own, manage, or certify organic operations with guidance and instructions that can assist them in complying with the USDA organic regulations. The current edition of the Program Handbook is available online at <http://www.ams.usda.gov/>.

IV. Electronic Access

Persons with access to Internet may obtain the petition guidelines at the NOP's Web site at <http://www.ams.usda.gov/nop>. Requests for hard copies of the petition guidelines can be obtained by submitting a written request to the person listed in the ADDRESSES section of this Notice.

Authority: 7 U.S.C. 6501–6522.

Dated: March 3, 2016.

Elanor Starmar,

Acting Administrator, Agricultural Marketing Service.

[Docket No. APHIS–2015–0106]

Notice of Request for Revision to and Extension of Approval of an Information Collection; Importation of Sand Pears From China

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Revision to and extension of approval of an information collection; comment request.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Animal and Plant Health Inspection Service's intention to request a revision to and extension of approval of an information collection associated with the regulations for the importation of sand pears from China into the United States.

DATES: We will consider all comments that we receive on or before May 9, 2016.

ADDRESSES: You may submit comments by either of the following methods:

- **Federal eRulemaking Portal:** Go to <http://www.regulations.gov/#!docketDetail;D=APHIS-2015-0106>.
- **Postal Mail/Commercial Delivery:** Send your comment to Docket No. APHIS–2015–0106, Regulatory Analysis and Development, PPD, APHIS, Station 3A–03.8, 4700 River Road Unit 118, Riverdale, MD 20737–1238.

Supporting documents and any comments we receive on this docket may be viewed at <http://www.regulations.gov/#!docketDetail;D=APHIS-2015-0106> or in our reading room, which is located in room 1141 of the USDA South Building, 14th Street and Independence Avenue SW., Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 799–7039 before coming.

FOR FURTHER INFORMATION CONTACT: For information on the regulations for the importation of sand pears from China, contact Mr. Marc Philips, Senior Regulatory Policy Specialist, RCC, IRM, PHP, PPQ, APHIS, 4700 River Road Unit 133, Riverdale, MD 20737; (301) 851–2114. For copies of more detailed information on the information collection, contact Ms. Kimberly Hardy, APHIS' Information Collection Coordinator, at (301) 851–2727.

SUPPLEMENTARY INFORMATION:

Title: Importation of Sand Pears From China.

OMB Control Number: 0579–0390.

Type of Request: Revision to and extension of approval of an information collection.

Abstract: The Plant Protection Act (PPA, 7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to restrict the importation, entry, or interstate movement of plants, plant products, and other articles to prevent the introduction of plant pests into the United States or their dissemination within the United States. Regulations authorized by the PPA concerning the importation of fruits and vegetables into the United States from certain parts of the world are contained in "Subpart—Fruits and Vegetables" (7 CFR 319.56–1 through 319.56–74).

Section 319.56–57 of the regulations provides the requirements for the importation of sand pears from China into the United States. The regulations require the use of information collection activities, including test and certification of propagative material, trapping system, operational workplan, recordkeeping, production site registration, inspection of registered production sites, investigation for recertification of production sites, packinghouse registration and inspection, packinghouse tracking system, certification of treatment and review of treatment records, handling procedures, notification of detections by registered production sites and packinghouses, audits, monitoring of treatment, mitigation measures at production sites and packinghouses, labeling, numbered seals, and phytosanitary certificates with an additional declaration.

When comparing the regulations to the information collection activities that were previously approved, we found that several of the information collection activities above were not included. We have adjusted the overall estimates of burden accordingly.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities, as described, for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

- (1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of our estimate of the burden of the collection

of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.006 hours per response.

Respondents: Producers and importers of sand pears from China and national plant protection organization officials of China.

Estimated annual number of respondents: 29.

Estimated annual number of responses per respondent: 2,083.

Estimated annual number of responses: 60,411.

Estimated total annual burden on respondents: 384 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 4th day of March 2016.

Kevin Shea,

Administrator, Animal and Plant Health Inspection Service.

SUPPLEMENTARY INFORMATION:

Title: Importation of Fresh Bananas From the Philippines Into the Continental United States.

OMB Control Number: 0579-0394.

Type of Request: Revision to and extension of approval of an information collection.

Abstract: The Plant Protection Act (PPA, 7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to restrict the importation, entry, or interstate movement of plants, plant products, and other articles to prevent the introduction of plant pests into the United States or their dissemination within the United States. Regulations authorized by the PPA concerning the importation of fruits and vegetables into the United States from certain parts of the world are contained in "Subpart—Fruits and Vegetables" (7 CFR 319.56–1 through 319.56–74).

Section 319.56–58 of the regulations provides the requirements for the importation of bananas from the Philippines into the continental United States. The regulations require the use of information collection activities, including operational workplans, recordkeeping, production site registration, monitoring and oversight of registered production sites, fruit fly trapping to establish places of production with low pest prevalence, investigations, certification of harvest stage, carton markings, shipping documents, and phytosanitary certificates with an additional declaration.

When comparing the regulations to the information collection activities that were previously approved, we found that several of the information collection activities above were not included. We have adjusted the overall estimates of burden accordingly.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities, as described, for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.0076 hours per response.

Respondents: Producers and importers of bananas from the Philippines and national plant protection organization officials of the Philippines.

Estimated annual number of respondents: 41.

Estimated annual number of responses per respondent: 3,924.

Estimated annual number of responses: 160,891.
