ENVIRONMENTAL PROTECTION AGENCY

[EPA–HQ–OPPT–2015–0841; FRL–9941–93]

Request for Applications; Third-Party Chemical/Product Profilers for the Safer Choice Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Safer Choice Program reduces pollution and potential risk at its source by setting criteria that product manufacturers must meet to qualify to use the Safer Choice label. The Safer Choice label helps consumers, businesses, and purchasers find products with ingredients that perform well and are safer for human health and the environment. To earn the Safer Choice label, products and their ingredients must meet the established Safer Choice Standard and safer chemical criteria. Third-party profilers (TPP) review the candidate's products against Safer Choice standards and criteria, collect performance information, and develop chemical profiles. EPA is seeking additional third-party profilers to help the Safer Choice Program meet the growing consumer demand for safer products carrying the Safer Choice label. Entities that are interested in serving as Safer Choice third-party profilers should submit an application for EPA consideration. Qualified applicants will be asked to sign a memorandum of understanding (MOU), formalizing their commitment to support the Safer Choice Program's human and environmental health protection mission.

DATES: Applications may be submitted at any time; however, to be considered for qualification as a third-party profiler in 2016, applications must be received by May 16, 2016.

For a candidate to qualify and fully participate in the Safer Choice Program, Safer Choice expects and TPPs should address how they would approach or undertake each of the following activities:

1. *Supporting the Safer Choice Program.* Safeguard and uphold the integrity, quality, and trustworthiness of the Safer Choice product and chemical-evaluation processes, program, and label, including development of strong and effective working relationships with the Safer Choice staff.
