

proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to the Defense Finance and Accounting Service; Office of Financial Operations; Retired and Annuity Pay Quality Product Assurance Division ATTN: Chuck Moss, Cleveland, OH 44199-2001, or call at (216) 204-4426.

SUPPLEMENTARY INFORMATION: *Title; Associated Form; and OMB Number:* Survivor Benefit Plan (SBP)—Automatic Coverage Fact Sheet; DD Form 2656-8; OMB Control Number 0730-TBD.

Needs and Uses: The information collection requirement is necessary to identify and determine the marital status of the retiree in order to correctly establish the retired pay account.

Affected Public: Individuals or households.

Annual Burden Hours: 60.

Number of Respondents: 240.

Responses per Respondent: 1.

Annual Responses: 240.

Average Burden per Response: 15 minutes.

Frequency: On occasion.

If no SBP election is made at retirement time this form is mailed to the retiree. Automatic spouse coverage is established and the completion of this form provides Retired Pay with information about the spouse. In some instances, the retiree is unmarried and the coverage will be changed to reflect that.

Dated: March 21, 2016.

Aaron Siegel,

Alternate OSD Federal Register, Liaison Officer, Department of Defense.

BILLING CODE 5001-06-P

DEPARTMENT OF DEFENSE

Office of the Secretary

[Docket ID: DoD-2016-OS-0027]

Proposed Collection; Comment Request

AGENCY: Defense Finance and Accounting Service (DFAS), DoD.

ACTION: Notice.

SUMMARY: In compliance with the *Paperwork Reduction Act of 1995*, the Defense Finance and Accounting Service announces a proposed public information collection and seeks public comment on the provisions thereof. Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have

practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed information collection; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Consideration will be given to all comments received by May 24, 2016.

ADDRESSES: You may submit comments, identified by docket number and title, by any of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.

- *Mail:* Department of Defense, Office of the Deputy Chief Management Officer, Directorate of Oversight and Compliance, Regulatory and Audit Matters Office, 9010 Defense Pentagon, Washington, DC 20301-9010.

Instructions: All submissions received must include the agency name, docket number and title for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the Internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information. Any associated form(s) for this collection may be located within this same electronic docket and downloaded for review/testing. Follow the instructions at <http://www.regulations.gov> for submitting comments. Please submit comments on any given form identified by docket number, form number, and title.

FOR FURTHER INFORMATION CONTACT: To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to Defense Finance and Accounting Service; Office of Financial Operations; Retired and Annuity Pay Quality Product Assurance Division ATTN: Chuck Moss, Cleveland, OH 44199-2001, or call at (216) 204-4426.

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Request for Withholding State Tax; DD Form 2868; OMB Control Number 0730-TBD.

Needs and Uses: The information collection requirement is necessary to start state tax withholding from a retiree's pay account or to change the amount currently withheld. The retiree's SSN is a required entry as it is necessary to positively identify the retiree in order to send the correct

payroll tax withholding information to the appropriate state taxing authority as directed by the retiree.

Affected Public: Individuals or households.

Annual Burden Hours: 50.

Number of Respondents: 200.

Responses per Respondent: 1.

Annual Responses: 200.

Average Burden per Response: 15 minutes.

Frequency: On occasion.

The form is completed whenever a retiree determines that it is necessary for them to begin or change state tax withholding from their retired pay account.

Dated: March 21, 2016.

Aaron Siegel,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

DEPARTMENT OF DEFENSE

Department of the Army, Corps of Engineers

One-Time Deauthorization of Water Resources Projects

AGENCY: Army Corps of Engineers, DoD.

ACTION: Notice of Final Deauthorization Report.

SUMMARY: The U.S. Army Corps of Engineers is publishing a Final Deauthorization Report of water resources development projects and separable elements that have been identified for deauthorization in accordance with section 6001(d) of the Water Resources Reform and Development Act of 2014, Public Law 113-121, 128 STAT. 1346-1347 (WRRDA 2014). The Assistant Secretary of the Army for Civil Works transmitted the Final Deauthorization Report to Congress on February 26, 2016. An electronic copy of the complete report is available at: http://www.usace.army.mil/Portals/2/docs/civilworks/budget/final_deauth_report_23feb2016.pdf.

FOR FURTHER INFORMATION CONTACT OR TO PROVIDE COMMENTS: Mr. Joseph W. Aldridge, Headquarters, U.S. Army Corps of Engineers, Attention: CECW-IP, Washington, DC 20314-1000. Tel. (202) 761-4130 or joseph.w.aldrige@usace.army.mil.

SUPPLEMENTARY INFORMATION: Final Deauthorization Report required by § 6001(d).

Section 6001(d) provides that the Secretary shall develop a Final Deauthorization Report. This report includes a list of each water resources

development project, or separable element of a project, described in Section 6001(c) and the other provisions of Section 6001(d), as well as an appendix (Appendix A) that lists any project, or separable element of a project, included as part of the Interim Deauthorization List but not included in the Final Deauthorization Report and the reasons why they are not included in the report. Appendix B of the Final Deauthorization Report (available on the U.S. Army Corps of Engineers Web site referenced below) contains copies of the comments received during the public comment period. The Final Deauthorization Report with Appendix A follows below in Table 1. An electronic copy of the Final Deauthorization Report with appendices can be found at: http://www.usace.army.mil/Portals/2/docs/civilworks/budget/final_deauth_report_23feb2016.pdf.

The Interim Deauthorization List was developed in accordance with Section 6001(c) of WRRDA 2014 and was published for public comment in the **Federal Register** on October 7, 2015. Per Section 6001(d), not later than 120 days following the 90-day public comment period of the Interim Deauthorization List, that ended on January 4, 2016, the Assistant Secretary of the Army for Civil Works (ASA(CW)) will transmit the Final Deauthorization Report to the Environment & Public Works Committee of the Senate and the Transportation and Infrastructure Committee of the House of Representatives. Additionally, the ASA(CW) will publish the Final Deauthorization Report in the **Federal Register**. The ASA(CW) transmitted the Final Deauthorization Report to the Committees on February 26, 2016.

Section 6001(d)(2)(A) of WRRDA 2014 requires that the Secretary shall include on the Final Deauthorization Report, projects and separable elements of projects that have, in the aggregate, an estimated Federal cost to complete that is at least \$18 billion. The ASA(CW) has

strived to meet the requirements of Section 6001, but was not able to identify projects that totaled \$18 billion based upon the criteria provided in Section 6001. The projects and elements on the Final Deauthorization Report will be deauthorized automatically after 180 days following the date that the ASA(CW) submits the Final Deauthorization List to the Committees, unless the Congress passes a joint resolution disapproving the Final Deauthorization Report or the non-Federal interest for the project or separable element of a project provides sufficient funds to complete the construction of the project or separable element. The amount shown as the Federal Balance to complete is a working estimate generally based on the authorization and as such any non-Federal interests considering providing sufficient funds to complete a project or separable element should contact the appropriate District Commander to discuss the process necessary to develop a final cost to complete a project or separable element.

The Final Deauthorization Report identifies water resources development projects, or separable elements of a project, that meet the following criteria. Projects and separable elements eligible for deauthorization are those uncompleted construction projects and separable elements meeting all of the following criteria: (1) They were authorized for construction before November 8, 2007, or their most recent modification of the construction authorization predates November 8, 2007; (2) their construction has not been initiated, or, if construction has been initiated, there have been no obligations of Federal or non-Federal funds for construction in the current fiscal year or any of the past 6 fiscal years; and, (3) there has been no funding for a post-authorization study in the current fiscal year or any of the past 6 fiscal years. As specifically provided in section

6001(f)(1)(B) of WRRDA 2014, water resources development projects include environmental infrastructure assistance projects and programs of the U.S. Army Corps of Engineers. In accordance with section 103(f) of the Water Resources Development Act of 1986, separable elements is defined as “a portion of a project—

(1) which is physically separable from other portions of the project; and

(2) which—

(A) achieves hydrologic effects, or

(B) produces physical or economic benefits, which are separately identifiable from those produced by other portions of the project.”

The following elements of an authorized water resources development project also qualify as separable elements: an element for which there is an executed design agreement or project partnership agreement specific to that element; an element that has received funding specified for that element; an element that was authorized separately from or as an amendment to the authorization for the remainder of the water resources development project, that was separately identified in the authorization for the water resources development project, or for which a statute specifies an authorized cost, estimated cost, or amount authorized to be appropriated; an element that has been placed in service or for which the Government or the non-Federal partner has assumed operation and maintenance; an element that has been deauthorized; or the remaining portion of the water resources development project apart from other separable elements.

Authority: This notice is required by § 6001(d) of the Water Resources Reform and Development Act of 2014, Public Law 113–121, 128 STAT 1346–1347.

Jo-Ellen Darcy,
Assistant Secretary of the Army (Civil Works).

TABLE 1 (FINAL DEAUTHORIZATION REPORT)

| State | Project/Element name | Public law of authorization or latest amendment | Section of public law | Latest fiscal year of Federal or non-Federal obligations for construction | Federal balance to complete (subject to section 902 where applicable) (\$) |
