

likewise help the Commission enforce the prohibition on covered parties in the BIA, further assuring incentive auction participants that the auction process will be fair and competitive. The prohibited communication reporting requirement required of covered parties will enable the Commission to ensure that no bidder gains an unfair advantage over other bidders in its auctions and thus enhances the competitiveness and fairness of Commission's auctions. The information collected will be reviewed and, if warranted, referred to the Commission's Enforcement Bureau for possible investigation and administrative action. The Commission may also refer allegations of anticompetitive auction conduct to the Department of Justice for investigation.

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-0895]

Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501-3520), the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

DATES: Written PRA comments should be submitted on or before May 31, 2016. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicole Ongele, FCC, via email PRA@fcc.gov and to Nicole.Ongele@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Nicole Ongele at (202) 418-2991.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0895.

Title: Numbering Resource

Optimization, CC Docket No. 99-200.

Form Number: FCC Form 502.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit entities and state, local or tribal government.

Number of Respondents and

Responses: 2,793 respondents; 10,165 responses.

Estimated Time per Response: 1 hour-44.4 hours.

Frequency of Response: On occasion and semi-annual reporting requirements and recordkeeping requirement.

Obligation to Respond: Mandatory. Statutory authority for this information collection is contained in 47 U.S.C. 151, 153, 154, 201-205 and 251 of the Communications Act of 1934.

Total Annual Burden: 132,384 hours.

Total Annual Cost: \$3,465,570.20.

Privacy Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: Disaggregated, carrier specific forecast and utilization data will be treated as confidential and will be exempt from public disclosure under 5 U.S.C. 552(b)(4).

Needs and Uses: The data collected on FCC Form 502 helps the Commission manage the ten-digit North American Numbering Plan (NANP), which is currently being used by the United States and 19 other countries. Under the Communications Act of 1934, as amended, the Commission was given "exclusive jurisdictions over those portions of the North American Numbering Plan that pertains to the

United States." Pursuant to that authority, the Commission conducted a rulemaking in March 2000 that the Commission found that mandatory data collection is necessary to efficiently monitor and manage numbering use. The Commission is revising this information collection to implement its newly adopted rules that allow interconnected Voice over Internet Protocol (VoIP) providers to obtain numbering resources directly from the Numbering Administrators. The following information collection requirements will be contained in this collection:

- (1) Utilization/Forecast Report;
- (2) Application for initial numbering resource;
- (3) Application for growth numbering resources;
- (4) Recordkeeping requirement;
- (5) Notifications by state commissions;
- (6) Demonstration to state commission; and
- (7) Petitions for additional delegation of numbering authority.

The data from this information collection is used by the FCC, state regulatory commissions, and the NANPA to monitor numbering resource utilization by all carriers using the resource and to project the dates of area code and NANP exhaust.

On August 11, 2015 the Federal Communications Commission released a Report and Order, *Amendment of Part 15 of the Commission's Rules for Unlicensed Operations in the Television Bands, Repurposed 600 MHz Band, 600 MHz Guard Bands and Duplex Gap, and Channel 37, and Amendment of Part 74 of the Commission's Rules for Low Power Auxiliary Stations in the Repurposed 600 MHz Band and 600 MHz Duplex Gap*, ET Docket No 14–165, GN Docket No. 12–268, FCC 15–99, which modifies Commission rules for unlicensed wireless devices and wireless microphones in the reconstituted TV bands and the new 600 MHz band.

On June 12, 2000, the Commission released a Report and Order, ET Docket No. 99–255, FCC 00–211, which allocated spectrum and established rules for a “Wireless Medical Telemetry Service” (WMTS) that allows potentially life-critical equipment to operate in an interference-protected basis. Medical telemetry equipment is used in hospitals and health care facilities to transmit patient measurement data such as pulse and respiration rate to a nearby receiver, permitting greater patient mobility and increased comfort. The Commission designated a frequency coordinator, who maintains a database of all WMTS equipment. All parties using equipment in the WMTS are required to coordinate/register their operating frequency and other relevant technical operating parameters with the designated coordinator. The database provides a record of the frequencies used by each facility or device to assist parties in selecting frequencies to avoid interference. Without a database, there would be no record of WMTS usage because WMTS transmitters will not be individually licensed. The designated frequency coordinator has the responsibility to maintain an accurate engineering database of all WMTS transmitters, identified by location (coordinates, street address, and building), operating frequency, emission type and output power, frequency range(s) used, modulation scheme used, effective radiated power, number of transmitters in use at the health care facility at the time of registration, legal name of the authorized health care provider, and point of contact for

authorized health care provider. The frequency coordinator will make the database available to WMTS users, equipment manufacturers and the public. The coordinator will also notify users of potential frequency conflicts. In addition, in order to receive interference protection, parties operating WMTS networks on channel 37 shall notify one of the white space database administrators of their operating location pursuant to §§ 15.713(j)(11) and 15.715(p) of that chapter.
