

kit is understood to mean a packaged combination of component parts that contains, at the time of importation, all of the necessary component parts to fully assemble final, finished scaffolding;

(d) tube and pipe hollows for redrawing;  
(e) oil country tubular goods produced to API specifications;

(f) line pipe produced to only API specifications, such as API 5L, and not multi-stenciled; and

(g) mechanical tubing, whether or not cold-drawn, other than what is included in the above paragraphs.

The products subject to this investigation are currently classifiable in Harmonized Tariff Schedule of the United States (HTSUS) statistical reporting numbers 7306.19.1010, 7306.19.1050, 7306.19.5110, 7306.19.5150, 7306.30.1000, 7306.30.5015, 7306.30.5020, 7306.30.5025, 7306.30.5032, 7306.30.5040, 7306.30.5055, 7306.30.5085, 7306.30.5090, 7306.50.1000, 7306.50.5030, 7306.50.5050, and 7306.50.5070. The HTSUS subheadings above are provided for convenience and U.S. Customs purposes only. The written description of the scope of the investigation is dispositive.

## Appendix II—

List of Topics Discussed in the Preliminary Decision Memorandum

- I. Summary
- II. Background
- III. Alignment
- IV. Scope Comments
- V. Scope of the Investigation
- VI. Respondent Selection
- VII. Injury Test
- VIII. Use of Facts Otherwise Available and Adverse Inferences
- IX. Calculation of the All-Others Rate
- X. ITC Notification
- XI. Disclosure and Public Comment
- XII. Conclusion

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

#### Mid-Atlantic Fishery Management Council (MAFMC); Public Meetings

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of a public meeting.

**SUMMARY:** The Mid-Atlantic Fishery Management Council's (Council) Surfclam and Ocean Quahog Advisory Panel will hold a public meeting.

**DATES:** The meeting will be held on Monday, May 2, 2016, from 1:30 p.m. until 4 p.m.

**ADDRESSES:** The meeting will be held via Internet Webinar. Detailed connection details are available at

<http://www.mafmc.org>. To join the Webinar, follow this link and enter the online meeting room: <http://mafmc.adobeconnect.com/april2016scoq/>.

**Council address:** Mid-Atlantic Fishery Management Council, 800 North State Street, Suite 201, Dover, DE 19901; telephone: (302) 674–2331.

#### FOR FURTHER INFORMATION CONTACT:

Christopher M. Moore Ph.D., Executive Director, Mid-Atlantic Fishery Management Council, 800 N. State Street, Suite 201, Dover, DE 19901; telephone: (302) 526–5255.

**SUPPLEMENTARY INFORMATION:** The purpose of the meeting is to develop a fishery performance report by the Council's Surfclam and Ocean Quahog Advisory Panel. The intent of this report is to facilitate structured input from the Surfclam and Ocean Quahog Advisory Panel members to the Council and its Scientific and Statistical Committee (SSC) on setting catch and landings limits for 2017–18, changes that may be occurring in the fisheries, and other fishery-related issues.

#### Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to M. Jan Saunders at the Mid-Atlantic Council Office, (302) 526–5251, at least 5 days prior to the meeting date.

Dated: April 5, 2016.

**Tracey L. Thompson,**

*Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.*

### National Oceanic and Atmospheric Administration

[Docket No. 151014950–5950–01]

RIN 0648–XE260

#### Notice of Availability of a Draft NOAA/NESDIS Commercial Space Activities Assessment Process

**AGENCY:** National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of availability of a Draft NOAA/NESDIS Commercial Space Activities Assessment Process; request for comments.

**SUMMARY:** On January 8, 2016, NOAA released the NOAA Commercial Space Policy. Consistent with that policy, the Draft National Environmental Satellite, Data, and Information Service (NESDIS)

Commercial Space Activities Assessment Process identifies the NESDIS process for engagement with the commercial sector by which NESDIS will assess and pursue commercial opportunities to support NOAA's space-based observational information requirements. In order to ensure consideration of a broad range of ideas for optimal methods of engaging with the commercial sector, NESDIS seeks comments on the Draft NESDIS Commercial Space Activities Assessment Process. Through <http://www.regulations.gov/#!docketDetail;D=NOAA-NESDIS-2015-0132>, the public can view the Draft NESDIS Commercial Space Activities Assessment Process, submit ideas, review submissions from other parties, and make comments.

All comments are welcome. In particular, NOAA would like comments on the following areas:

What contractual or other mechanisms could NOAA use to work with commercial sector data providers beyond traditional acquisition approaches?

What steps should NOAA take to consider the long-term viability of a commercial data provider prior to an operational data purchase?

What are the key aspects of demonstration projects that allow the commercial sector to gain necessary insights?

What are the key aspects of demonstration projects that would allow NOAA to perform the necessary data validation for the continued success of NOAA's public safety mission?

**DATES:** Comments must be received by 5 p.m. on May 9, 2016.

**ADDRESSES:** You may submit comments on this document, identified by NOAA–NESDIS–2015–0132, by either of the following methods:

**Electronic Submission:** Submit all electronic public comments via the Federal e-Rulemaking Portal. Go to <http://www.regulations.gov/#!docketDetail;D=NOAA-NESDIS-2015-0132>, click the “Comment Now!” icon, complete the required fields, and enter or attach your comments.

**Mail:** Submit written comments to: NOAA NESDIS, c/o Ms. Kate Becker, U.S. Department of Commerce, National Oceanic and Atmospheric Administration, National Environmental Satellite, Data, and Information Service, Room 8229, 1335 East West Highway, Silver Spring, MD 20910.

**Instructions:** Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered by NOAA. All comments

received are a part of the public record and will generally be posted for public viewing on [www.regulations.gov](http://www.regulations.gov) without change. All personal identifying information (e.g., name, address, etc.), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NOAA will accept anonymous comments (enter "N/A" in the required fields if you wish to remain anonymous). Additional information as well as instructions on how to submit comments can be found at the following Web site: <http://www.regulations.gov/#!docketDetail;D=NOAA-NESDIS-2015-0132>. The Draft NESDIS Commercial Space Activities Assessment Process can also be viewed here.

**FOR FURTHER INFORMATION CONTACT:** Ms. Kate Becker, NESDIS Office of the Chief of Staff, U.S. Department of Commerce, National Oceanic and Atmospheric Administration, National Environmental Satellite, Data, and Information Service, Room 8229, 1335 East West Highway, Silver Spring, MD 20910. (Phone: 301-713-7049, [kate.becker@noaa.gov](mailto:kate.becker@noaa.gov)).

**SUPPLEMENTARY INFORMATION:** NOAA is a science-based services agency charged with understanding and predicting changes in Earth systems in order to provide critical environmental intelligence to the American public, decision makers, and our partners. NOAA's environmental intelligence depends on observations obtained via a variety of systems, including satellites, ships, ground, and in situ networks.

The NOAA Commercial Space Policy and the NESDIS Commercial Space Activities Assessment Process are two steps of NOAA's multi-step approach to engaging the commercial sector to ensure best use of commercial sector capabilities. NOAA has developed these documents as timeless guidance to provide a foundation for a long-term endeavor. Both documents formally establish core principles that will guide NOAA's engagement with the commercial sector. In January, NOAA released the Commercial Space Policy to establish the broad principles for the use of commercial space-based approaches to meet NOAA's observational requirements. Now, to supplement the principles established in the policy, NESDIS has released the draft NESDIS Commercial Space Activities Assessment Process.

The NESDIS Process lays out the phases of the process that NESDIS will follow leading to any potential commercial data acquisition. First, NESDIS will release one or more Requests for Information (RFIs) to gather

a sense of commercial capabilities and convey our interest in a new dataset. Based on assessment of the RFI responses, NESDIS will then release one or more Requests for Proposals (RFPs) to acquire and evaluate commercial data, which will include the data specifications we require. Based on RFP responses, NOAA may purchase data from one or more vendors for analysis and evaluation through a demonstration project.

Because specifications are unique to each individual dataset, RFPs are an appropriate vehicle for sharing data specifications rather than through the policy or the process. The RFPs will focus on individual systems and allow for an in-depth, detailed description of requirements.

Following the demonstration project and the pending results, NESDIS may issue one or more RFPs to purchase on-orbit observations from commercial sources for operational use by NOAA.

These steps are formally outlined in the draft NESDIS Commercial Space Activities Assessment Process, which can be found at: <http://www.regulations.gov/#!docketDetail;D=NOAA-NESDIS-2015-0132>.

Both the NOAA Commercial Space Policy and the NESDIS Commercial Space Activities Assessment Process firmly establish the principles that will guide NOAA's engagement with the commercial sector and the practices for how NOAA will assess, pursue, and determine the viability of using commercial data. We are actively implementing the activities identified in the two documents toward this end. In the near future, we plan to share more specific information on individual datasets and steps involved in our process. NOAA will use multiple platforms to share important information, including RFIs, RFPs, the Office of Space Commerce Web site, and ongoing engagement events to promote dialogue and transparency.

Dated: April 1, 2016.

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

**RIN 0648-XE549**

### Pacific Fishery Management Council; Public Meeting

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of a public meeting.

**SUMMARY:** The Pacific Fishery Management Council (Pacific Council) and the NOAA's Southwest Fisheries Science Center (SWFSC) will convene a workshop to develop methods for conducting stock assessments of short-lived coastal pelagic species (CPS) on the U.S. West Coast. The meeting is open to the public.

**DATES:** The meeting will be held Monday, May 2, 2016 through Thursday, May 5, 2016. The meeting will begin at 10 a.m. the first day, and at 8 a.m. each subsequent day, Pacific Standard Time. The meeting will conclude at 5 p.m. each day, or when business for the day has been completed.

**ADDRESSES:** The meeting will be held at the Southwest Fisheries Science Center Pacific Room, 8901 La Jolla Shores Drive, La Jolla, CA 92037.

*Council address:* Pacific Fishery Management Council, 7700 NE Ambassador Place, Suite 101, Portland, OR 97220; telephone: (503) 820-2280.

**FOR FURTHER INFORMATION CONTACT:** Kerry Griffin, Staff Officer; telephone: (503) 820-2409.

**SUPPLEMENTARY INFORMATION:** The primary purpose of the workshop is to develop methods for conducting stock assessments of short-lived CPS on the U.S. West Coast, with an emphasis on the central subpopulation of northern anchovy. The workshop will include a discussion of how stock assessments and/or single point biomass estimates can be used in management. The intent is to provide recommendations to the SWFSC for use in conducting CPS stock assessments, especially for data-limited stocks.

### Special Accommodations

Note: All foreign nationals must complete the Foreign National Registration form at [https://docs.google.com/a/noaa.gov/forms/d/13wQaOZ\\_YcMV21b7aLYnh-WWkmpNYrYJhmDjDIbnNOA/viewform?c=0&w=1](https://docs.google.com/a/noaa.gov/forms/d/13wQaOZ_YcMV21b7aLYnh-WWkmpNYrYJhmDjDIbnNOA/viewform?c=0&w=1) no later than two weeks prior to the meeting. Forms are
