FOR FURTHER INFORMATION CONTACT: Vielka Garibaldi, 202-606-6886, or by email at PeerReviewers@cns.gov.

SUPPLEMENTARY INFORMATION: CNCS is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of CNCS, including whether the information will have practical utility;

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

- Enhance the quality, utility, and clarity of the information to be collected; and

- Minimize the burden of the collection of information on those who are expected to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g., permitting electronic submissions of responses).

Background

The External Reviewer Application is used by individuals who wish to serve as External Reviewers or External Panel Coordinators for CNCS when external reviewers are needed to review grant applications. The information collected will be used by CNCS to select review participants for each grant competition. The information is collected electronically using "Grants and Member Management" (GMM), CNCS's web-based system.

Current Action

CNCS seeks to renew the current information collection. The application and instructions have been updated in order to capture the required information in a more streamlined fashion within the GMM system. The information collection will otherwise be used in the same manner as the existing application. CNCS also seeks to continue using the current application until the revised application is approved by OMB. The current application is due to expire on September 30, 2016.

Policy Justification*Australia—GBU-39 (Small Diameter Bomb Increment I)*

The Government of Australia has requested a possible sale of:

Major Defense Equipment (MDE):
Up to 2,950 GBU-39/B Small Diameter Bomb I (SDB I)

Up to 50 Guided Test Vehicles (GTV) with GBU-39 (T-1)/B (Inert Fuze)

This request also includes the following Non-MDE: containers, weapons system support equipment, support and test equipment, site survey, transportation, repair and return warranties, spare and repair parts, publications and technical data, maintenance, personnel training, and training equipment, U.S. Government and contractor representative engineering, logistics, and technical support services, and other related elements of logistics support.

The total estimated value of MDE is \$172 million. The total overall estimated value is \$386 million.

Australia is one of our most important allies in the Western Pacific. The strategic location of this political and economic power contributes significantly to ensuring peace and economic stability in the region. This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a major contributor to political stability, security, and economic development in the Pacific region and globally.

The sale of SDB I supports and complements the on-going sale of the F-35 to the Royal Australian Air Force (RAAF). This capability will strengthen combined operations and increase interoperability between the U.S. Air Force and the RAAF. Australia will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment will not alter the basic military balance in the region.

The principal contractor for production is Boeing in St. Louis, Missouri. The principal contractor for integration is unknown and will be determined during contract negotiations. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. or contractor representatives to Australia.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 16-23

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. Sensitive and/or classified (up to SECRET) elements of the proposed acquisition include hardware, accessories, components, and associated software: GBU-39/B Small Diameter Bomb Increment I (SDB I). Additional sensitive areas include operating manuals and maintenance technical orders containing performance information, operating and test procedures, and other information related to the support operations and repair. The hardware, software, and data identified are classified to protect vulnerabilities, design and performance parameters, and other similar critical information.

2. The GBU-39/B Small Diameter Bomb Increment I (SDB I) is a 250-pound class weapon designed as a small, all-weather, autonomous, conventional, air-to-ground, precision glide weapon able to strike fixed and stationary re-locatable targets from standoff range. The SDB I weapon system consists of the weapons, the BRU-61/A (4-place pneumatic carriage system), shipping and handling containers for a single weapon and the BRU-61/A either empty or loaded, and a weapon planning module. It has integrated diamond-back type wings that deploy after releases, which increases the glide time and therefore maximum range. The SDB I Anti-Jam Global Positioning System aided Inertial Navigation System (AJGPS/INS) provides guidance to the coordinates of a stationary target. The payload/warhead is a very effective multipurpose penetrating and blast fragmentation warhead coupled with a cockpit selectable electronic fuze. Its size and accuracy allow for an effective munition with less collateral damage. A proximity sensor provides height of burst capability.

3. A determination has been made that the recipient country can provide substantially the same degree of protection for the sensitive technology associated with this system as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

4. All defense articles and services listed in this transmittal have been

authorized for release and export to the Government of Australia.
