

described below. In accordance with the Paperwork Reduction Act, HUD is requesting comment from all interested parties on the proposed collection of information. The purpose of this notice is to allow for 60 days of public comment.

DATES: *Comments Due Date:* June 27, 2016.

ADDRESSES: Interested persons are invited to submit comments regarding this proposal. Comments should refer to the proposal by name and/or OMB Control Number and should be sent to: Colette Pollard, Reports Management Officer, QDAM, Department of Housing and Urban Development, 451 7th Street SW., Room 4176, Washington, DC 20410–5000; telephone 202–402–3400 (this is not a toll-free number) or email at Colette.Pollard@hud.gov for a copy of the proposed forms or other available information. Persons with hearing or speech impairments may access this number through TTY by calling the toll-free Federal Relay Service at (800) 877–8339.

FOR FURTHER INFORMATION CONTACT: Colette Pollard, Reports Management Officer, QDAM, Department of Housing

and Urban Development, 451 7th Street SW., Washington, DC 20410; email Colette Pollard at Colette.Pollard@hud.gov or telephone 202–402–3400. This is not a toll-free number. Persons with hearing or speech impairments may access this number through TTY by calling the toll-free Federal Relay Service at (800) 877–8339.

Copies of available documents submitted to OMB may be obtained from Ms. Pollard.

SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A.

A. Overview of Information Collection

Title of Information Collection: 25 CFR 125, Fair Housing Initiatives Program.

OMB Approval Number: 2529–0033.

Type of Request: Extension of currently approved collection.

Form Number: HUD 904 A, B and C, SF–425, SF–424, SF–LLL, HUD–2880, HUD–2990, HUD–2993, HUD–424CB, HUD–424–CBW, HUD–2994–A, HUD–96010, and HUD–27061.

Description of the need for the information and proposed use: The collection is needed to allow the Fair Housing Initiatives Program (FHIP) to request applicant information necessary to complete a grant application package during the Notice of Funding Availability (NOFA) grant application process. The collection is used to assist the Department in effectively evaluating grant application packages to select the highest ranked applications for funding to carry out fair housing enforcement and/or education and outreach activities under the following FHIP initiatives: Private Enforcement, Education and Outreach, and Fair Housing Organization. The collection is also needed for the collection of post-award report and other information used to monitor grants and grant funds. Information collected from quarterly and final progress reports and enforcement logs will enable the Department to evaluate the performance of agencies that receive funding and determine the impact of the program on preventing and eliminating discriminatory housing practices.

Respondents (i.e. affected public): 400.

Information collection	Number of respondents	Frequency of response	Responses per annum	Burden hour per response	Annual burden hours	Hourly cost per response	Annual cost
Application Development	400	1	400	76.50	30,600	00	00
Quarterly Report	104	4	416	19	7904	00	00
Supplemental Outcome Report ...	104	1	104	19	1976	00	00
Enforcement Log	59	4	236	7	1652	00	00
Final Report	104	1	104	20	2040	00	00
Recordkeeping	104	1	104	21	2184	00	00
Total	876	14	1366	187.50	46356	00	00

B. Solicitation of Public Comment

This notice is soliciting comments from members of the public and affected parties concerning the collection of information described in Section A on the following:

(1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) The accuracy of the agency's estimate of the burden of the proposed collection of information;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) Ways to minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

HUD encourages interested parties to submit comment in response to these questions.

Authority: Section 3507 of the Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35.

Dated: April 21, 2016.

Bryan Greene,

General Deputy Assistant Secretary for the Office of Fair Housing and Equal Opportunity.

MidAmerican Wind Energy Habitat Conservation Plan; Draft Environmental Impact Statement

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of intent to prepare an environmental impact statement; notice of scoping meetings; and request for comments.

SUMMARY: Pursuant to the National Environmental Policy Act of 1969, as amended (NEPA), we are advising the public that we intend to prepare an environmental impact statement (EIS) on a proposed Endangered Species Act (ESA) incidental take permit (ITP) application from MidAmerican Energy

Company (MEC) for the federally endangered Indiana bat, the federally threatened northern long-eared bat, the little brown bat, and the bald eagle. We are also announcing the initiation of a public scoping process to engage Federal, Tribal, State, and local governments; special interest groups; and the public in the identification of issues and concerns, potential impacts, and possible alternatives to the proposed action.

MEC is currently operating (20) and constructing (2) wind energy facilities in the State of Iowa capable of generating more than 4,040 megawatts (MW) of wind generation capacity, and expects to construct additional wind energy projects over the next 30 years. MEC is preparing a habitat conservation plan (HCP) in support of its ITP application for both MEC's existing facilities and facilities presently under construction.

Construction, operation, maintenance, decommissioning, reclamation, and repowering of wind energy facilities, as well as activities associated with the management of mitigation land, have the potential to impact certain bat and bird species. Species to be covered in the MEC HCP include the federally listed endangered Indiana bat, the federally listed threatened northern long-eared bat, the unlisted little brown bat and the bald eagle, which is protected under the Eagle Act. As allowed under the Eagle Act, we anticipate extending Eagle Act take authorization for bald eagle through an ESA Section 10(a)(1)(B) permit associated with the HCP, provided MEC is in full compliance with the terms and conditions of the permit and Eagle Act.

DATES: Public scoping will begin with the publication of this NOI in the **Federal Register** and will continue through May 31, 2016. We will consider all comments on the scope of the EIS analysis that are received or postmarked by this date. Comments received or postmarked after this date will be considered to the extent practicable. We will conduct two public scoping meetings during the scoping period. The scoping meetings will provide the public with an opportunity to ask questions, discuss issues with Service and State staff regarding the EIS, and provide written comments.

- May 17, 2016—Council Bluffs Public Library, 400 Willow Avenue Council Bluffs, Iowa, 5:30 to 7 p.m.
- May 18, 2016—FFA Enrichment Center, 1055 SW Prairie Trail Parkway, Ankeny, Iowa, 5:30 to 7 p.m.

In addition, we will host an online webinar on April 20, 2016 at 1:00 p.m. Central Time. Additional information

on the proposed action, including how to participate in the webinar, is provided on the Internet at: <http://www.fws.gov/midwest/rockisland/te/index.html>.

ADDRESSES: Send written comments via U.S. mail to the Field Supervisor, U.S. Fish and Wildlife Service, Rock Island Field Office, 1511 47th Avenue, Moline, Illinois 61265; by facsimile at 309-757-5807; or by electronic mail to RockIsland@fws.gov.

FOR FURTHER INFORMATION CONTACT: Amber Schorg at 309-757-5800, extension 222 (telephone) or amber_schorg@fws.gov (email). If you use a telecommunications device for the deaf, please call the Federal Information Relay Service at (800) 877-8339.

SUPPLEMENTARY INFORMATION:

Introduction

Pursuant to the NEPA, 42 U.S.C. 4321 *et seq.*, we advise the public that we intend to prepare an environmental impact statement (EIS) to evaluate impacts associated with several alternatives related to the potential issuance of ITPs to MEC (Service's proposed action). ITPs would be expected to cover the federally endangered Indiana bat (*Myotis sodalis*), the federally threatened northern long-eared bat (*Myotis septentrionalis*), the little brown bat (*Myotis lucifugus*), and the bald eagle (*Haliaeetus leucocephalus*). We are also announcing the initiation of a public scoping process to engage Federal, Tribal, State, and local governments, special interest groups, and the public in the identification of issues and concerns, potential impacts, and possible alternatives to our proposed action.

Section 9 of the ESA prohibits "take" of fish and wildlife species listed as endangered under section 4 (16 U.S.C. 1538, and 1533, respectively). The ESA implementing regulations extend, under certain circumstances, the prohibition of take to threatened species (50 CFR 17.31). Under section 3 of the ESA, the term "take" means to harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or attempt to engage in any such conduct (16 U.S.C. 1532(19)). The term "harm" is defined by regulation as an act which actually kills or injures wildlife. Such act may include significant habitat modification or degradation where it actually kills or injures wildlife by significantly impairing essential behavioral patterns, including breeding, feeding, or sheltering (50 CFR 17.3). The term "harass" is defined in the regulations as an intentional or negligent act or omission which creates the likelihood of

injury to wildlife by annoying it to such an extent as to significantly disrupt normal behavioral patterns which include, but are not limited to, breeding, feeding, or sheltering (50 CFR 17.3).

Under section 10 of the ESA, the Service may issue permits to authorize incidental take of federally listed fish and wildlife species. "Incidental take" is defined by the ESA as "take that is incidental to, and not the purpose of, carrying out an otherwise lawful activity". To obtain an ITP, an applicant must submit an HCP that specifies (1) the impact that will likely result from the taking; (2) what steps the applicant will take to monitor, minimize and mitigate the impacts, and the funding that will be available to implement such steps; (3) what alternative actions to the taking the applicant considered and the reasons why the alternatives are not being utilized; and (4) how the applicant will carry out any other measures that we may require as being necessary or appropriate for purposes of the HCP. 50 CFR 17.22(b)(1)(iii); 50 CFR 17.32(b)(1)(iii)(C). If we find, after opportunity for public comment, with respect to the permit application and the related HCP that (1) the taking will be incidental; (2) the applicant will, to the maximum extent practicable, minimize and mitigate the impacts of such taking; (3) the applicant will ensure that adequate funding for the HCP will be provided, as well as procedures to deal with unforeseen circumstances; (4) the taking will not appreciably reduce the likelihood of the survival and recovery of the species in the wild; and (5) the measures, if any, required by us will be carried out; and we have received assurances that the plan will be implemented, then we will issue MEC the requested permit(s). 50 CFR 17.22, 17.32(b)(2)(i).

Eagles are protected under the Eagle Act, which prohibits take and disturbance of individuals and nests. "Take" under the Eagle Act includes any actions that pursue, shoot, shoot at, poison, wound, kill, capture, trap, collect, destroy, molest, and disturb eagles. 16 U.S.C. 668c. "Disturb" is further defined in 50 CFR 22.3 as to agitate or bother a bald or golden eagle to a degree that causes, or is likely to cause, based on the best scientific information available, (1) injury to an eagle, (2) a decrease in its productivity, by substantially interfering with normal breeding, feeding, or sheltering behavior, or (3) nest abandonment, by substantially interfering with normal breeding, feeding, or sheltering behavior. Our regulations at 50 CFR 22.11 allow Eagle Act take authorization to be extended to permittees authorized

to take eagles by an ITP issued pursuant to section 10(a)(1)(B) of the ESA. Take coverage for bald eagles provided through an ITP applies for the duration of the permit, or until the amount or level of take authorized has been met, provided the permittee complies with all terms and conditions provided in the ITP.

Proposed MEC HCP

The purpose of the HCP process and subsequent issuance of an ITP is to authorize the incidental take of threatened or endangered species and eagles, not to authorize the underlying activities that result in take. This process ensures that the effects of the authorized incidental take will be adequately minimized and mitigated to the maximum extent practicable.

The MEC HCP will encompass land within the State of Iowa where MEC facilities currently exist, are presently under construction, and where MEC may develop future facilities. MEC currently has approximately 4,050 megawatts (MW) of wind generation capacity installed or under construction and anticipates developing additional wind generation capacity over the requested 30-year term of their ITPs. Activities to be covered by the proposed HCP include those necessary to construct, operate, maintain and repair, decommission and reclaim, and repower utility-scale, multi-turbine wind energy projects within the State of Iowa. Covered activities also include development and management of mitigation lands and monitoring.

The MEC HCP would potentially cover four species that are subject to injury or mortality at wind generation facilities, including two federally listed species and two unlisted species. The two federally listed species are the Indiana bat and the northern long-eared bat. The two unlisted species are the little brown bat and the bald eagle. Species may also be added or deleted as the MEC HCP is developed, based on further analysis, new information, agency consultation, and public involvement.

Environmental Impact Statement

NEPA (42 U.S.C. 4321 *et seq.*) requires that Federal agencies conduct an environmental analysis of their proposed actions to determine if the actions may significantly affect the human environment. Based on 40 CFR 1508.27 and 40 CFR 1508.2, we have determined that implementation of the proposed MEC HCP may have significant impacts on the human environment. Therefore, before deciding whether to issue ITPs to MEC, we will

prepare an EIS to analyze the environmental impacts associated with those actions. The EIS will also include an analysis of a reasonable range of alternatives to the proposed action. Alternatives considered in the EIS may include, but are not limited to, variations in the permit term or permit structure; the level of take allowed; the level, location, or type of conservation, monitoring, or mitigation provided in the MEC HCP; the scope of covered activities; the list of covered species; or a combination of these factors. Additionally, a no action alternative will be included.

The EIS is intended to analyze and disclose potential environmental impacts that could result from the issuance of ITPs to MEC for its existing and future facilities in the State of Iowa, including subsequent implementation of its proposed HCP. For permitting decisions on existing facilities (20) and facilities presently under construction (2), the EIS will address potential environmental impacts at specific temporal and spatial scales. For permitting decisions on future facilities with uncertain temporal and/or spatial scales, the EIS will evaluate environmental impacts programmatically, and include a process for assessing the need for subsequent NEPA review on future permitting decisions. If we find that our initial NEPA review has sufficiently analyzed potential environmental impacts, we will rely upon the analysis provided in our initial NEPA review. On the other hand, if there is significant new information of relevance to the proposed action or its impacts, we may choose to supplement our NEPA review by developing separate, stand-alone environmental documents that make use of tiering and incorporation by reference.

Request for Information

We request data, comments, new information, or suggestions from the public, other concerned governmental agencies, the scientific community, Tribes, industry, or any other interested party on this notice. We will consider these comments in developing the draft EIS. We also seek specific comments on:

1. Biological information and relevant data concerning covered species;
2. Additional information concerning the range, distribution, population size, and population trends of covered species;
3. Direct, indirect, and cumulative impacts that implementation of the proposed covered activities could have on endangered, threatened, and other

covered species, and their communities or habitats;

4. Other possible alternatives to the proposed action that the Service should consider;

5. Other current or planned activities in the subject area and their possible cumulative impacts on covered species;

6. The presence of archaeological sites, buildings and structures, historic events, sacred and traditional areas, and other historic preservation concerns, which are required to be considered in project planning by the National Historic Preservation Act;

7. Issues, questions, or concerns with developing an EIS which may be supplemented in the future to support additional ITP applications from MEC; and

8. Identification of any other environmental issues that should be considered with regard to the proposed MEC HCP and permit action.

Public Availability of Comments

You may submit your comments and materials by one of the methods listed above in the **ADDRESSES** section. Before including your address, phone number, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—might be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Comments and materials we receive, as well as supporting documentation we use in preparing the EIS, will be available for public inspection by appointment, during normal business hours, at the Services' Rock Island Field Office in Moline, Illinois. (see **FOR FURTHER INFORMATION CONTACT**).

Scoping Meetings

See **DATES** for the date/s and time/s of our public scoping meetings. The primary purpose of these meetings and public comment period is to provide the public with a general understanding of the background of the proposed action and to solicit suggestions and information on the scope of issues and alternatives we should consider when drafting the EIS. Written comments will be accepted at the meetings. Comments can also be submitted by methods listed in the **ADDRESSES** section. Once the draft EIS and proposed MEC HCP are complete and made available for review, there will be additional opportunity for public comment on the content of those documents.

Persons needing reasonable accommodations in order to attend and participate in the public meetings should contact the Service using one of the methods listed above in **ADDRESSES** no later than one week before the public meeting. Information regarding this proposed action is available in alternative formats, upon request.

Authority

We provide this notice under section 10 of the ESA (16 U.S.C. 1531 *et seq.*), section 668a of the Eagle Act (16 U.S.C. 668a–668d), NEPA (42 U.S.C. 4321 *et seq.*), and NEPA regulations (40 CFR 1501.7, 1506.5, 1506.6 and 1508.22).

Dated: April 11, 2016.

Lynn Lewis,

Assistant Regional Director, Ecological Services, Midwest Region.

Information Collection Request Sent to the Office of Management and Budget (OMB) for Approval; Declaration for Importation or Exportation of Fish or Wildlife

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice; request for comments.

SUMMARY: We (U.S. Fish and Wildlife Service) have sent an Information Collection Request (ICR) to OMB for review and approval. We summarize the ICR below and describe the nature of the collection and the estimated burden and cost. This information collection is scheduled to expire on April 30, 2016. We may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. However, under OMB regulations, we may continue to conduct or sponsor this information collection while it is pending at OMB.

DATES: You must submit comments on or before May 31, 2016.

ADDRESSES: Send your comments and suggestions on this information collection to the Desk Officer for the Department of the Interior at OMB–OIRA at (202) 395–5806 (fax) or *OIRA_Submission@omb.eop.gov* (email). Please provide a copy of your comments to the Service Information Collection Clearance Officer, U.S. Fish and Wildlife Service, MS BPHC, 5275 Leesburg Pike, Falls Church, VA 22041–3803 (mail), or *hope_grey@fws.gov* (email). Please include “1018–0012” in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Hope Grey at *hope_grey@fws.gov* (email) or 703–358–2482

(telephone). You may review the ICR online at <http://www.reginfo.gov>. Follow the instructions to review Department of the Interior collections under review by OMB.

SUPPLEMENTARY INFORMATION:

Information Collection Request

OMB Control Number: 1018–0012.

Title: Declaration for Importation or Exportation of Fish or Wildlife, 50 CFR 14.61–14.64 and 14.94.

Service Form Numbers: 3–177 and 3–177a.

Type of Request: Extension of a currently approved collection.

Description of Respondents: Businesses or individuals that import or export fish, wildlife, or wildlife products; scientific institutions that import or export fish or wildlife scientific specimens; and government agencies that import or export fish or wildlife specimens for various purposes.

Respondent's Obligation: Required to obtain or retain a benefit.

Frequency of Collection: On occasion.

Activity	Number of responses	Completion time per response (minutes)	Total annual burden hours
3–177 hard copy submission	16,207	15	4,052
3–177 electronic submission	172,446	10	28,741
Fee waiver certification	190,874	1	3,181
Totals	379,527	35,974

Estimated Annual Nonhour Burden Cost: None.

Abstract: The Endangered Species Act (16 U.S.C. 1531 *et seq.*) makes it unlawful to import or export fish, wildlife, or plants without filing a declaration or report deemed necessary for enforcing the Act or upholding the Convention on International Trade in Endangered Species (CITES) (see 16 U.S.C. 1538(e)). With a few exceptions, businesses, individuals, or government agencies importing into or exporting from the United States any fish, wildlife, or wildlife product must complete and submit to the Service an FWS Form 3–177 (Declaration for Importation or Exportation of Fish or

Wildlife). This form as well as FWS Form 3–177a (Continuation Sheet) and instructions for completion are available for electronic submission at <https://edecs.fws.gov>. These forms are also available in fillable format at <http://www.fws.gov/forms/>.

The information that we collect is unique to each wildlife shipment and enables us to:

- Accurately inspect the contents of the shipment;
- Enforce any regulations that pertain to the fish, wildlife, or wildlife products contained in the shipment; and
- Maintain records of the importation and exportation of these commodities.

Businesses or individuals must file FWS Forms 3–177 and 3–177a with us at the time and port where they request clearance of the import or export of wildlife or wildlife products. Our regulations allow for certain species of wildlife to be imported or exported between the United States and Canada or Mexico at U.S. Customs and Border Protection ports, even though our wildlife inspectors may not be present.

In these instances, importers and exporters may file the forms with U.S. Customs and Border Protection. We collect the following information:

- (1) Name of the importer or exporter and broker.
