E. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

F. Environment

We have analyzed this rule under Department of Homeland Security Management Directive 023–01 and Commandant Instruction M16475.ID, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (42 U.S.C. 4321–4370f), and have determined that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This rule involves the establishment of a safety zone lasting approximately 6 hours for 3 days and is designed to minimize the impact to vessel traffic on the navigable waters, vessels will be able to transit around the zone in a safe manner. It is categorically excluded from further review under paragraph 34(g) of Figure 2–1 of the Commandant Instruction. An environmental analysis checklist supporting this determination and a Categorical Exclusion Determination will be available in the docket where indicated under **ADDRESSES**. We seek any comments or information that may lead to the discovery of a significant environmental impact from this rule.

G. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

Pesticide Tolerance Crop Grouping Program Amendment IV

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This final rule revises the current pesticide tolerance crop grouping regulations, which allow the establishment of tolerances for multiple related crops based on data from a representative set of crops. This rule creates five new crop groups, three new and two revised commodity definitions and revises the regulations on the interaction of crop group tolerances with processed food, meat, milk, and egg tolerances. These revisions will promote greater use of crop groupings for tolerance-setting purposes, both domestically and in countries that export food to the United States. This is the fourth in a series of planned crop group updates.

DATES: This final rule is effective July 5, 2016.

ADDRESSES: The docket for this action, identified by docket identification (ID) number EPA-HQ-OPP-2006-0766, is available at <http://www.regulations.gov> or at the Office of Pesticide Programs Regulatory Public Docket (OPP Docket) in the Environmental Protection Agency Docket Center (EPA/DC), West William Jefferson Clinton Bldg., Rm. 3334, 1301 Constitution Ave. NW., Washington, DC 20460-0001. SUPPLEMENTARY INFORMATION:

I. Does this action apply to me?

You may be potentially affected by this action if you are an agricultural producer or food manufacturer. The following list of North American Industrial Classification System (NAICS) codes is not intended to be exhaustive, but rather provides a guide to help readers determine whether this

document applies to them. Potentially affected entities may include:

- Crop production (NAICS code 111).
- Animal production (NAICS code 112).
- Food manufacturing (NAICS code 311).
- Pesticide manufacturing (NAICS code 32532).

II. Background

A. What action is the Agency taking?

This final rule revises EPA's regulations governing crop group tolerances for pesticides. Specifically, this rule creates five new crop groups, three new and two revised commodity definitions, and revises the regulations on the interaction of crop group tolerances with processed food, meat, milk, and egg tolerances. This final rule is the fourth in a series of crop group updates expected to be promulgated in the next several years.

B. What is the agency's authority for taking this action?

This rule is issued under the authority of section 408(e)(1)(C) of the Federal Food, Drug and Cosmetic Act (FFDCA), which authorizes EPA to establish "general procedures and requirements to implement (section 408)." 21 U.S.C. 346a(e)(1)(C). Under FFDCA section 408, EPA establishes tolerances for pesticide chemical residues in or on food, where there is a reasonable certainty that no harm will result from aggregate exposure to the pesticide chemical residue. A tolerance is the maximum permissible residue level established for a pesticide in raw agricultural produce and processed foods. The crop group regulations currently in 40 CFR 180.40 and 180.41 enable the establishment of tolerances for a crop group based on residue data for certain crops that are representative of the group.

III. The Proposed Rule

EPA published a notice of proposed rulemaking in the **Federal Register** on November 14, 2014 (79 FR 68153) (FRL-9918-40). Written comments were received from seven parties in response to the proposal: Three private citizens, the University of Hawaii, the Hawaii Farm Bureau Federation, the Minor Crop Farmer Alliance, and the Interregional Research Project Number (IR-4).

IV. Response to Comments

In this unit, EPA describes the major provisions of the proposed rule, the comments received on each provision, EPA's responses to those comments, and
