

the number of TPM related surveys to 4 over a number of years:

- National TPM Implementation Review Survey (*Baseline*): 2016
- State-of-the-Practice Questionnaires: 2018
- National TPM Implementation Review Survey (*Follow-up*): 2020
- State-of-the-Practice Questionnaires: 2022

After each survey or questionnaire, FHWA and its stakeholders will explore how to better align the information collection requests with yet-to-be determined performance management reporting processes. The information will be collected from State, metropolitan, regional, local, and/or tribal transportation agencies via internet-based questionnaires or web applications and will be used to help FHWA and its partner organizations do the following:

- Strategically plan to meet ever growing demand for TPM technical assistance needs;
- Develop and refine TPM policy and guidance based on stakeholder feedback;
- Channel resources to meet capacity development and training needs; and
- Identify and prioritize TPM research needs.

Lastly, as part of FHWA's ongoing technical assistance efforts, a TPM Toolbox is being created to help FHWA's partners self-assess and benchmark their TPM implementation progress, capabilities, and gaps. The TPM Toolbox will also help FHWA streamline the integration and administration of all the efforts described above. To maximize the effectiveness and efficiency of the TPM Toolbox, FHWA will collect business contact and organizational demographic (size of organization, location, etc.) information along with the responses submitted as part of the TPM Toolbox's self-assessment applications.

Respondents: The 975 respondents estimate is based on soliciting input from 52 STA, 409 MPOS, and a sampling of other State and local transportation entities. In most cases, only STAs and MPOs will be surveyed.

Frequency: Agencies will be solicited to provide information via a survey 1 time every two years. Additionally, transportation agencies may submit information more frequently by using the TPM Toolbox's self-assessment tool.

Estimated Average Burden per Response: The estimated average annual burden hours is up to 20 hours per response during a year with a survey/questionnaire request.

Estimated Total Annual Burden Hours: The estimated total annual

burden hours for all respondents is estimated to be 19,500 burden hours (975 respondents \times 20 burden hours) per year with survey/questionnaire requests.

Professional Staff Time during a Survey Year:

- 20 hours/respondent \times 975 respondents \times 1 questionnaire during a survey year = 19,500 hours.

Clerical Staff Time during a Survey Year:

- 2 hours/respondent \times 975 respondents \times 1 questionnaire during a survey year = 1,950 hours.

The aggregated associated salary cost to all respondents (975) during a survey year is estimated to be \$1,032,213 based on an average salary of \$38 per hour (approximately \$79,000 per year) for professional staff and \$18 per hour (approximately \$37,000 per year) for clerical staff. Disaggregated, the total average annual cost per respondent during a survey year is estimated to be \$1,058.68. The burden hours and costs are illustrated below.

Professional Staff Cost during a Survey Year:

- All respondents: 19,500 hours \times \$38 per hour = \$741,000.
- Per respondent: (20 \times \$38 = \$760).

Clerical Staff Cost during a Survey Year:

- All respondents: 1,950 hours \times \$18 per hour = \$35,100.
- Per respondent (2 hours \times \$18 per hour = \$36).

Total Annual Cost during a Survey Year:

- Subtotal Direct Salaries (Professional + Clerical) \$776,100.
- Overhead/fringe benefits at 33%: \$256,113.
- Total annual respondents cost during survey year: \$1,032,213.
- Total average annual cost per respondent during survey year: \$1,058.68.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection of information is necessary for the U.S. DOT's performance, including whether the information will have practical utility; (2) the accuracy of the U.S. DOT's estimate of the burden of the proposed information collection; (3) ways to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized, including the use of electronic technology, without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

BILLING CODE 4910-22-P

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Notice of Final Federal Agency Actions on Transportation Project in Washington State

AGENCY: Federal Highway Administration (FHWA), Department of Transportation (DOT).

ACTION: Notice of Limitation on Claims for Judicial Review of Actions by FHWA and Other Federal Agencies.

SUMMARY: This notice announces actions taken by the FHWA and other Federal agencies that are final within the meaning of 23 U.S.C. 139(l)(1). The actions relate to the I-5 interchange with NW., 319th Street/La Center Road (La Center Interchange Improvements) Project in the State of Washington. The action by FHWA is the Record of Decision (ROD) that selects improvements to the I-5 La Center Interchange as traffic mitigation measures for construction of the Cowlitz Reservation Development. The Cowlitz Reservation Development was the subject of the Bureau of Indian Affairs (BIA) ROD of April 2013. Actions by other Federal agencies include issuing amendments to previously issued permits.

DATES: By this notice, FHWA is advising the public of final Agency actions subject to 23 U.S.C. 139(l)(1). A claim seeking judicial review of the Federal agency actions on the listed highway project will be barred unless the claim is filed on or before September 30, 2016. If the Federal law that authorizes judicial review of a claim provides a time period of less than 150 days for filing such claim, then that shorter time period still applies.

FOR FURTHER INFORMATION CONTACT: For FHWA, contact Liana Liu, Area Engineer, North Central and South Central Region, Federal Highway Administration, 711 South Capital Way, Suite 501, Olympia, WA 98501-0943, telephone at 360-753-9553, or via email at Liana.Liu@dot.gov. Regular office hours are from 8:00 a.m. to 4:30 p.m., p.t., Monday through Friday, except Federal holidays. For Washington State Department of Transportation (WSDOT),

contact Barb Aberle, Environmental Manager, Southwest Region, Washington State Department of Transportation, 11018 NE 51st Circle, Vancouver, WA 98682, telephone at 360-905-2186, or via email at AberleB@wsdot.wa.gov. Regular office hours are from 8:00 a.m. to 4:30 p.m., p.t., Monday through Friday.

SUPPLEMENTARY INFORMATION: Notice is hereby given that the FHWA and other Federal agencies have taken final agency actions related to the I-5 Interchange with NW., 319th Street/La Center Road (La Center Interchange Improvements) Project in the State of Washington. The BIA prepared a Draft Environmental Impact Statement (EIS), released on April 12, 2008, and Final EIS (FEIS) on May 30, 2008, for proposed improvements to the I-5 NW., 319th Street/La Center Road Interchange. The BIA issued an ROD for the project on December 17, 2010, which approved the Cowlitz Reservation Development and adopted mitigation measures recommended within the 2008 FEIS, including the La Center Interchange Improvements. After a challenge in United States District Court, the BIA conducted an evaluation of adequacy of the FEIS and issued a new ROD in April 2013.

Implementation of the La Center Interchange Improvements is subject to discretionary approvals from FHWA and WSDOT. An FHWA National Environmental Policy Act (NEPA) Reevaluation was prepared in May 2015, to identify and document changed environmental conditions and effects associated with the La Center Interchange Improvements. The FHWA issued an ROD which approved the La Center Interchange Improvements and adopted mitigation measures recommended in the 2008 FEIS and May 2015 Reevaluation on July 29, 2015. Since issuance of the FHWA ROD, the design of stormwater facilities has been modified, consistent with applicable management guidelines, and the previously proposed realignment of NW., Paradise Park Road has been refined. An Environmental Reevaluation Report was prepared in February 2016, to identify and document potential effects associated with changes to the La Center Interchange Improvements.
