FOR FURTHER INFORMATION CONTACT:

Joseph C. Polos, by mail at U.S. Fish and Wildlife Service, 1655 Heindon Road, Arcata, CA 95521; by telephone at 707-822-7201; or by email at joe_polos@fws.gov; or Elizabeth W. Hadley, Redding Electric Utility, by mail at 777 Cypress Avenue, Redding, CA 96001; by telephone at 530-339-7308; or by email at ehadley@reupower.com. Individuals with a disability may request an accommodation by sending an email to either point of contact.

SUPPLEMENTARY INFORMATION: In accordance with the requirements of the Federal Advisory Committee Act, 5 U.S.C. App., we announce that the Trinity River Adaptive Management Working Group (TAMWG) will hold a meeting. The TAMWG affords stakeholders the opportunity to give policy, management, and technical input concerning Trinity River (California) restoration efforts to the Trinity Management Council (TMC). The TMC interprets and recommends policy, coordinates and reviews management actions, and provides organizational budget oversight.

Meeting Agenda

- Designated Federal Officer (DFO) update;
- TMC Chair update;
- Trinity River Restoration Program (TRRP) Managers reports;
- Trinity Brown Trout Study;
- TMC Current issues;
- Upper Trinity River Tributary Access Survey;
- FY 17 Budget;
- Water Management/Temperature Management;
- Public comment; and
- Decision Support System.

The final agenda will be posted on the Internet at <http://www.fws.gov/arcata>.

Public Input

Interested members of the public may submit relevant information or questions for the TAMWG to consider during the meeting. Written statements must be received by the date listed in **DATES**, so that the information may be available to the TAMWG for their consideration prior to this meeting. Written statements must be supplied to Elizabeth Hadley in one of the following formats: One hard copy with original signature, one electronic copy with original signature, and one electronic copy via email (acceptable file formats are Adobe Acrobat PDF, MS Word, PowerPoint, or rich text file).

Registered speakers who wish to expand on their oral statements, or those who wished to speak but could not be accommodated on the agenda, may submit written statements to Elizabeth Hadley up to 7 days after the meeting.

Meeting Minutes

Summary minutes of the meeting will be maintained by Elizabeth Hadley (see **FOR FURTHER INFORMATION CONTACT**). The minutes will be available for public inspection within 14 days after the meeting, and will be posted on the TAMWG Web site at <http://www.fws.gov/arcata>.

Dated: May 4, 2016.

Joseph C. Polos,

Supervisory Fish Biologist, Arcata Fish and Wildlife Office, Arcata, California.

Endangered and Threatened Wildlife and Plants; Workshop To Review the Habitat-Based Recovery Criteria for the Grizzly Bear in the Northern Continental Divide Ecosystem

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of public workshop.

SUMMARY: The Fish and Wildlife Service hereby gives notice that a public workshop will be held to review the habitat-based recovery criteria for the grizzly bear in the Northern Continental Divide Ecosystem (NCDE). The workshop will allow scientists and other interested parties the opportunity to submit oral or written comments.

DATES: The public workshop will be held from 1 p.m. to 4 p.m. and 6 p.m. to 8 p.m. on July 7, 2016.

ADDRESSES: The public workshop will be held at the Double Tree Hotel, 100 Madison Street, Missoula, Montana 59812. Comment and materials concerning the workshop should be sent to the Grizzly Bear Recovery Office, U.S. Fish and Wildlife Service, University Hall, Room 309, Missoula, MT 59812. Comments and materials received will be available for inspection, by appointment, during normal business hours at the Service Grizzly Bear Recovery Office address.

FOR FURTHER INFORMATION CONTACT: The Grizzly Bear Recovery Office (see

ADDRESSES), at 406-243-4903 (phone) or 406-329-3212 (fax).

SUPPLEMENTARY INFORMATION: The Fish and Wildlife Service hereby gives notice that a public workshop will be held to review the habitat-based recovery criteria for the grizzly bear (*Ursus arctos horribilis*) in the Northern Continental Divide Ecosystem (NCDE). The workshop will allow scientists and other interested parties the opportunity to submit oral or written comments.

Background

The grizzly bear is listed as a threatened species in the 48 contiguous States. The Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*), requires the development of recovery plans for listed species unless such a plan would not promote the conservation of a particular species. A revised Grizzly Bear Recovery Plan was approved by the Fish and Wildlife Service (Service) on September 10, 1993. The 1993 Recovery Plan identifies distinct Recovery Zones and unique recovery criteria for six different grizzly bear populations, including the NCDE, with the intent that these individual populations would be delisted as they each achieve recovery (U.S. Fish and Wildlife Service 1993, pp. ii, 33-34). One important component of recovery plans is the inclusion of objective, measurable recovery criteria. The habitat-based recovery criteria will be developed in part by taking into account the oral and written comments received at the habitat-based recovery criteria workshop and written comments received. The final habitat-based recovery criteria will be appended to the 1993 Grizzly Bear Recovery Plan for the NCDE and incorporated into the NCDE Grizzly Bear Conservation Strategy. The Recovery Plan sets out guidance for the Service, States, and other partners on methods to minimize threats to grizzly bears and criteria that may be used to measure if recovery has been achieved while the Conservation Strategy is the guide to post-delisting management.

The Service will hold a public workshop seeking input and ideas on objective, measurable habitat-based recovery criteria in the Draft NCDE Grizzly Bear Conservation Strategy (U.S. Fish and Wildlife Service 2013, available online at <http://www.fws.gov/mountain-prairie/es/grizzlyBear.php>), and the Draft Environmental Impact Statement for the NCDE National Forests (USDA Forest Service 2016, available online at <http://www.fs.usda.gov/detailfull/flathead/home/?cid=stelprdb5422786&width=full>). We

seek ideas and information about characteristics of habitat necessary to support a recovered population of grizzly bears and habitat parameters that can be measured and directly related to grizzly bear population health. At the workshop, the Service also wants to obtain information and comments on methods for monitoring the habitat-based recovery criteria. Emphasis of this workshop will be on the habitat needs of the NCDE grizzly bear population.

The Service seeks the input of scientists, the public, and interested organizations at the workshop. The workshop will be held in Missoula, Montana, on July 7, 2016 (see **ADDRESSES**). The workshop will be held from 1 p.m. to 8 p.m., with one break (see **DATES**). Participants are invited to present information in oral and written form. All comments presented orally should also be submitted in writing to facilitate review of these comments. Those wishing to present information or comments orally at the workshop are asked to contact the Grizzly Bear Recovery Office (see **FOR FURTHER INFORMATION CONTACT**) so that scheduling of oral presentations can be arranged in advance. Anyone wishing to provide information or comments, but unable to attend the workshop, should send the information or comments to the Grizzly Bear Recovery Office (see **ADDRESSES**) within 15 calendar days of the workshop. All information and comments previously or subsequently received within the applicable submission period will be considered during the development of the habitat-based recovery criteria.

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Authority

The authority for this action is section 4(f) of the Endangered Species Act, 16 U.S.C. 1533(f).

Dated: April 6, 2016.

Matt Hogan,

Deputy Regional Director, Mountain-Prairie Region, Denver, Colorado.

**[NPS-WASO-NAGPRA-20982;
PPWOCRADN0-PCU00RP14.R50000]**

Notice of Inventory Completion: University of Oregon Museum of Natural and Cultural History, Eugene, OR

AGENCY: National Park Service, Interior.
ACTION: Notice.

SUMMARY: The University of Oregon Museum of Natural and Cultural History has completed an inventory of human remains and associated funerary objects, in consultation with the appropriate Indian tribes, and has determined that there is a cultural affiliation between the human remains and associated funerary objects and present-day Indian tribes. Lineal descendants or representatives of any Indian tribe not identified in this notice that wish to request transfer of control of these human remains and associated funerary objects should submit a written request to the University of Oregon Museum of Natural and Cultural History. If no additional requestors come forward, transfer of control of the human remains and associated funerary objects to the lineal descendants or Indian tribes stated in this notice may proceed.

DATES: Lineal descendants or representatives of any Indian tribe not identified in this notice that wish to request transfer of control of these human remains and associated funerary objects should submit a written request with information in support of the request to the University of Oregon Museum of Natural and Cultural History at the address in this notice by June 10, 2016.

ADDRESSES: Dr. Pamela Endzweig, Director of Collections, Museum of Natural and Cultural History, 1224 University of Oregon, Eugene, OR 97403-1224, telephone (541) 346-5120.

SUPPLEMENTARY INFORMATION: Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of human remains and associated funerary objects under the control of the University of Oregon Museum of Natural and Cultural History, Eugene, OR. The human remains and associated funerary objects were removed from the Pistol River sites, 35CU61 and 35CU62, in Curry County, Oregon, at and near the aboriginal village site of Chetlessentun.

This notice is published as part of the National Park Service's administrative

responsibilities under NAGPRA, 25 U.S.C. 3003(d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains and funerary objects. The National Park Service is not responsible for the determinations in this notice.

Consultation

A detailed assessment of the human remains was made by University of Oregon Museum of Natural and Cultural History professional staff in consultation with representatives of the Confederated Tribes of Grand Ronde Community of Oregon; the Confederated Tribes of Siletz Indians of Oregon (previously listed as the Confederated Tribes of the Siletz Reservation); Confederated Tribes of the Coos, Lower Umpqua and Siuslaw Indians, Oregon; the Coquille Indian Tribe (previously listed as the Coquille Tribe of Oregon); Elk Valley Rancheria, California; and the Tolowa Dee-ni' Nation (previously listed as the Smith River Rancheria, California).

History and Description of the Remains

In 1961, human remains representing, at minimum, 15 individuals were removed from the Pistol River site, 35CU61, in Curry County, OR, a location of the aboriginal village site of Chetlessentun, during legally authorized excavations by archeologists from the University of Oregon. No known individuals were identified. The 21 associated funerary objects include three projectile points, four projectile point fragments, one drill fragment, one worked flake, one worked bone, one worked tine, one spoon bowl, 2 glass beads, one piece of glass, one piece of wood, and 5 chipped stone flakes.

At an unknown date, human remains representing, at minimum, one individual were removed from the Raymonds Dune site, 35CU62, about 0.4 km north of Chetlessentun, in Curry County, OR, by a private individual. The human remains were donated to the Museum and accessioned in 1947. No known individual was identified. No associated funerary objects are present.

In 1942, human remains representing, at minimum, one individual, were removed by the private individual referenced above from a location described in donor records as "Pistol River Dune," and "on the slope 75' to 100' east of the central group of shell heaps." No further information is present. The location is assumed to be in the vicinity of the above two sites. The human remains were donated to the Museum and accessioned in 1947. No
