

how these contaminants would behave in the aquifer and surrounding environments. This supplement provides the information the NRC staff identified in its ADR as necessary. The supplement describes the affected environment with respect to the groundwater flow path for potential contaminant releases from the repository that could be transported beyond the postclosure regulatory compliance location through the alluvial aquifer in Fortymile Wash and the Amargosa Desert, and to the Furnace Creek and Middle Basin areas of Death Valley. The analysis in this supplement considers both radiological and nonradiological contaminants.

Using groundwater modeling, the NRC staff finds that contaminants from the repository would be captured by

groundwater withdrawal along the flow path, such as the current pumping in the Amargosa Farms area, or would continue to Death Valley if there is no or reduced pumping. Therefore, this supplement provides a description of the flow path from the postclosure regulatory compliance location to Death Valley, the locations of current groundwater withdrawal, and locations of potential natural discharge along the groundwater flow path. The supplement evaluates the potential radiological and nonradiological environmental impacts to groundwater and at surface discharge locations over a 1-million-year period following repository closure. The analysis considers the potential impacts on the aquifer environment, soils, ecology, public health, and the potential for disproportionate impacts on

minority and low-income populations. In addition, this supplement assesses the potential for cumulative impacts that may be associated with other past, present, or reasonably foreseeable future actions. The NRC staff finds that all of the impacts on the resources evaluated in this supplement would be SMALL.

The draft supplement notice of availability and public meetings was published in the **Federal Register** on August 21, 2015 (80 FR 50875). A notice of extension to the public comment period was published on September 18, 2015 (80 FR 56501).

Public Company Accounting Oversight Board; Order Granting Approval of Proposed Rules To Require Disclosure of Certain Audit Participants on a New PCAOB Form and Related Amendments to Auditing Standards

May 9, 2016.

I. Introduction

On January 29, 2016, the Public Company Accounting Oversight Board (the “Board” or the “PCAOB”) filed with the Securities and Exchange Commission (the “Commission”), pursuant to Section 107(b)¹ of the Sarbanes-Oxley Act of 2002 (the “Sarbanes-Oxley Act”) and Section 19(b)² of the Securities Exchange Act of 1934 (the “Exchange Act”), a proposal to adopt two new rules, a new form, and amendments to auditing standards to improve transparency regarding the engagement partner and other accounting firms that participate in issuer audits (collectively, the

“Proposed Rules”).³ The Proposed Rules were published for comment in the **Federal Register** on February 16, 2016.⁴ At the time the notice was issued, the Commission extended to May 16, 2016 the date by which the Commission should take action on the Proposed Rules.⁵ The Commission received four comment letters in response to the notice.⁶ This order approves the Proposed Rules.

II. Description of the Proposed Rules

On December 15, 2015, the Board adopted two new rules (“Rules 3210 and 3211”) and Form AP to provide investors and other financial statement users with information about engagement partners and accounting firms that participate in audits of issuers.

A. Changes to PCAOB Rules and Forms

Under the Proposed Rules, for each audit report it issues for an issuer, a registered public accounting firm must file with the Board a report on Form AP that includes the following:

- The name of the engagement partner and Partner ID;⁷

³ The Board originally issued a concept release in 2009. See *Concept Release on Requiring the Engagement Partner to Sign the Audit Report*, PCAOB Release No. 2009–005 (July 28, 2009) (“Concept Release”), available at http://pcaobus.org/Rules/Rulemaking/Docket029/2009-07-28_Release_No_2009-005.pdf. In 2011, the Board issued proposed rules. In 2015, the Board issued a supplemental request for comment, which ultimately formed the framework for these Proposed Rules.
