DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP16–17–000]

Millennium Pipeline Company, L.L.C.; Notice of Availability of the Environmental Assessment for the Proposed Valley Lateral Project

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared this Environmental Assessment (EA) of the Valley Lateral Project (Project) proposed by Millennium Pipeline Company, L.L.C. (Millennium) in the above-referenced docket. Millennium requests authorization to construct, operate, and maintain new natural gas facilities consisting of 7.9 miles of new, 16-inch-diameter natural gas pipeline extending from Millennium's existing mainline to the CPV Valley, LLC (CPV) Valley Energy Center in Orange County, New York. The Project would provide transportation capacity for 130,000 dekatherms per day (130 million cubic feet) of natural gas to serve the new 650 megawatt gas-powered CPV Valley Energy Center.

The EA assesses the potential environmental effects of the construction and operation of the Project in accordance with the National Environmental Policy Act of 1969. The FERC staff concludes that approval of the proposed Project, with appropriate mitigating measures, would not constitute a major federal action significantly affecting the quality of the human environment.

The U.S. Environmental Protection Agency and New York State Department of Agriculture and Markets participated as cooperating agencies in the preparation of the EA. Cooperating agencies have jurisdiction by law or special expertise with respect to resources potentially affected by the proposal and participate in the NEPA analysis.

The FERC staff mailed copies of the EA to federal, state, and local
