

historic properties.⁵ We will define the project-specific Area of Potential Effects (APE) in consultation with the SHPO as the ESU Project develops. For natural gas facility projects, the APE at a minimum encompasses all areas subject to ground disturbance (examples include construction right-of-way, contractor/pipe storage yards, compressor stations, and access roads). Our EA for this project will document our findings on the impacts on historic properties and summarize the status of consultations under section 106.

Environmental Mailing List

The environmental mailing list includes federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American Tribes; other interested parties; and local libraries and newspapers. This list also includes all affected landowners (as defined in the Commission's regulations) who are potential right-of-way grantors, whose property may be used temporarily for project purposes, or who own homes within certain distances of aboveground facilities, and anyone who submits comments on the ESU Project. We will update the environmental mailing list as the analysis proceeds to ensure that we send the information related to this environmental review to all individuals, organizations, and government entities interested in and/or potentially affected by the planned project.

Copies of the EA will be sent to the environmental mailing list for public review and comment. If you would prefer to receive a paper copy of the document instead of the CD version or would like to remove your name from the mailing list, please return the attached Information Request (see appendix 2).

Becoming an Intervenor

Once Millennium files its application with the Commission, you may want to become an "intervenor" which is an official party to the Commission's proceeding. Intervenor status is a more formal role in the process and are able to file briefs, appear at hearings, and be heard by the courts if they choose to appeal the Commission's final ruling. An intervenor formally participates in the proceeding by filing a request to intervene. Instructions for becoming an

intervenor are in the User's Guide under the "e-filing" link on the Commission's Web site. Please note that the Commission will not accept requests for intervenor status at this time. You must wait until the Commission receives a formal application for the ESU Project.

Additional Information

Additional information about the ESU Project is available from the Commission's Office of External Affairs, at (866) 208-FERC, or on the FERC Web site (www.ferc.gov) using the eLibrary link. Click on the eLibrary link, click on "General Search" and enter the docket number, excluding the last three digits in the Docket Number field (*i.e.*, PF16-3). Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at FercOnlineSupport@ferc.gov or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659. The eLibrary link also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to www.ferc.gov/docs-filing/esubscription.asp. Finally, public meetings or site visits will be posted on the Commission's calendar located at www.ferc.gov/EventCalendar/EventsList.aspx along with other related information.

Kimberly D. Bose,
Secretary.

FFP Missouri 16, LLC; FFP Missouri 15, LLC; FFP Missouri 13, LLC; Solia 5 Hydroelectric, LLC ; Solia 4 Hydroelectric, LLC ; Solia 8 Hydroelectric, LLC ; Notice of Technical Conference

On Wednesday, June 1, 2016, Federal Energy Regulatory Commission staff will hold a technical conference to

discuss cultural resources related to the following six proposed hydroelectric projects to be located on the Monongahela River: Opekiska Lock and Dam Hydroelectric Project No. 13753, Morgantown Lock and Dam Hydroelectric Project No. 13762, Gray's Landing Lock and Dam Hydroelectric Project No. 13763, Maxwell Lock and Dam Hydroelectric Project No. 13766, Monongahela Lock and Dam Number Four Hydroelectric Project No. 13767, and Point Marion Lock and Dam Hydroelectric Project No. 13771.

The technical conference will begin at 1:00 p.m. Eastern Daylight Time. The conference will be held at the Federal Energy Regulatory Commission headquarters building located at 888 1st Street NE., Washington, DC, and will include teleconference capabilities.

All local, state, and federal agencies, Indian tribes, and other interested parties are invited to participate. There will be no transcript of the conference, but a summary of the meeting will be prepared for the project record. If you are interested in participating in the meeting you must contact Allyson Conner at (202) 502-6082 or allyson.conner@ferc.gov by May 31, 2016 to receive specific instructions on how to participate.

Commission conferences are accessible under section 508 of the Rehabilitation Act of 1973. For accessibility accommodations, please send an email to accessibility@ferc.gov or call toll free 1-866-208-3372 (voice) or 202-502-8659 (TTY), or send a FAX to 202-208-2106 with the required accommodations.

For more information about this technical conference, please contact: Sarah McKinley, Office of External Affairs, Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, (202) 502-8368, sarah.mckinley@ferc.gov.

Dated: May 12, 2016.

[Docket No. CP16-27-000]

Paulsboro Natural Gas Pipeline Company, LLC; Notice of Schedule for Environmental Review of the Delaware River Pipeline Relocation Project

On December 1, 2015, Paulsboro Natural Gas Pipeline Company, LLC (Paulsboro) filed an application in Docket No. CP16-27-000 requesting authorization and a Certificate of Public Convenience and Necessity pursuant to Section 7(b) and 7(c) of the Natural Gas Act (NGA) to abandon, construct, and operate certain natural gas pipeline facilities. The proposed project is known as the Delaware River Pipeline Relocation Project (Project).

On December 11, 2015, the Federal Energy Regulatory Commission (Commission or FERC) issued its Notice of Application for the Project. Among other things, that notice alerted agencies issuing federal authorizations of the requirement to complete all necessary reviews and to reach a final decision on a request for a federal authorization within 90 days of the date of issuance of the Commission staff's Environmental Assessment (EA) for the Project. This instant notice identifies the FERC staff's planned schedule for the completion of the EA for the Project.

Schedule for Environmental Review

Issuance of EA—July 18, 2016

90-day Federal Authorization Decision Deadline—October 16, 2016

If a schedule change becomes necessary, additional notice will be provided so that the relevant agencies are kept informed of the Project's progress.

Project Description

Paulsboro proposes to abandon about 2.4 miles of 6- and 8-inch-diameter natural gas pipeline extending across the Delaware River between Delaware County, Pennsylvania and Gloucester County, New Jersey. Paulsboro would replace the abandoned pipeline with 2.6 miles of 12- and 24-inch-diameter pipeline installed under the Delaware River using the horizontal directional drill method. The purpose of the Project is to facilitate the United States Army Corps of Engineers' dredging activities for the Delaware River Main Channel Deepening Project (45-Foot Project). The Project would increase natural gas transportation capacity from 38 million standard cubic feet per day (MMScf/d) to 57.7 MMScf/d to the sole customer served by the pipeline, Paulsboro Refining Company, LLC.

Background

On January 19, 2016, the Commission issued a *Notice of Intent to Prepare an Environmental Assessment for the Proposed Delaware River Pipeline Relocation Project and Request for Comments on Environmental Issues* (NOI). The NOI was published in the **Federal Register** and mailed to affected landowners; federal, state, and local government agencies; elected officials; environmental and public interest groups; Native American tribes; other interested parties; and local libraries and newspapers.

In response to the NOI, the Commission received comments from Consolidated Rail Corporation, Delaware Riverkeeper Network, New Jersey Department of Environmental Protection, New Jersey State Historic Preservation Office, and Pennsylvania State Historic Preservation Office. The primary issues raised by the commentors included state permit requirements and environmental compliance; potential impacts on cultural and natural resources; cumulative impacts; pipeline safety; future upgrades of Paulsboro's facilities and systems; and natural gas production methods.

The Federal Aviation Administration, U.S. Coast Guard, and U.S. Army Corps of Engineers, Philadelphia District are cooperating agencies in the preparation of the EA.

Additional Information

In order to receive notification of the issuance of the EA and to keep track of all formal issuances and submittals in specific dockets, the Commission offers a free service called eSubscription. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to www.ferc.gov/docs-filing/esubscription.asp.

Additional information about the Project is available from the Commission's Office of External Affairs at (866) 208-FERC or on the FERC Web site (www.ferc.gov). Using the "eLibrary" link, select "General Search" from the eLibrary menu, enter the selected date range and "Docket Number" excluding the last three digits (*i.e.*, CP16-27), and follow the instructions. For assistance with access to eLibrary, the helpline can be reached at (866) 208-3676, TTY (202) 502-8659, or at FERCOnlineSupport@ferc.gov. The eLibrary link on the FERC Web site also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rule makings.

Dated: May 11, 2016.

Tricon Energy Ltd. and Rockbriar Partners Inc. v. Colonial Pipeline Company; Notice of Complaint

Take notice that on May 9, 2016, Tricon Energy Ltd. (Tricon) and Rockbriar Partners Inc. (Rockbriar) (collectively, Complainants) filed a protest, complaint, and motion to intervene in response to Colonial Pipeline Company's (Colonial or Respondent) tariff filing in Docket No. IS16-259-000. The motion to intervene and protest portion of Tricon's and Rockbriar's pleading was placed in the IS16-259-000 docket. The complaint portion of Tricon's and Rockbriar's pleading is being separately docketed in the proceeding captioned above.

Tricon and Rockbriar assert that Colonial is attempting to enforce a shipper history transfer policy that is not in the tariff that locks out New
