

determined that the container parts were distinct articles of commerce that were bought and sold in the trade. CBP also found a second substantial transformation occurred when the container parts were assembled into finished steel storage containers. It was also determined that the container parts were distinct articles of commerce that were bought and sold in the trade. CBP found that the assembly was complex, involving a large number of components and a significant number of different operations, requiring a relatively significant period of time as well as skill, attention to detail and quality control.

In HQ 557607, dated December 18, 1993, CBP determined that steel plates imported into Mexico and used in the production of certain railway freight cars (referred therein as “railcar tanks”) underwent a double substantial transformation. The steel plates were sandblasted to remove any foreign debris and particles; cut to same length and width in varying sizes; rolled and cold-formed into cylindrical or near-cylindrical shape; tack-welded to hold their shape with seams, then permanently welded using a design-specific welding fixture. Thereafter, the rings were permanently welded in place; and holes were cut into the tank shell in accordance with design specifications for the placement of miscellaneous parts that were also permanently welded. The seams were then subject to X-ray analysis to ensure against any defects, followed by painting with rust-resistant paint primer. CBP determined that the welding and complex assembling of the steel container parts resulted in a new, finished and different article of commerce possessing a distinct name, character and use.

We find that the essential character of the container is imparted by the Korean-origin roof, and two side panels, which, as in *National Hand Tool*, are already formed in their final shapes prior to importation. Further, the twenty foot containers are similar to the final goods discussed in HQ 555111 and HQ 567607. While these two decisions pertained to the Generalized System of Preferences (GSP), and the GSP often considers whether the second substantial transformation is not just a “pass-through” operation, we note that in those two decisions it was important that the components were formed and created in the final country of assembly. Similarly, in this case we find that the Sea Box container will mostly be comprised of components from Korea, especially when comparing these components to the container’s finished surface area, such that the origin of the finished container may be considered Korea. As noted in our ruling to you, HQ H267876, dated December 23, 2015, the operations in the United States are not sufficient to result in a substantial transformation; therefore, we find that the country of origin of the finished twenty foot intermodal containers will be Korea for government procurement purposes.

HOLDING:

Based upon the specific facts of this case, we find that the country of origin of the intermodal containers for purposes of U.S. Government procurement is Korea.

Notice of this final determination will be given in the **Federal Register**, as required by 19 CFR 177.29. Any party-at-interest other than the party which requested this final determination may request, pursuant to 19 CFR 177.31, that CBP reexamine the matter anew and issue a new final determination. Pursuant to 19 CFR 177.30, any party-at-interest may, within 30 days of publication of the **Federal Register** Notice referenced above, seek judicial review of this final determination before the Court of International Trade.

Sincerely,

Myles B. Harmon,
Acting Executive Director, Regulations and Rulings, Office of Trade.

Instructions: All submissions received must include the words “Federal Emergency Management Agency” and the docket number for this action. Comments received will be posted without alteration at <http://www.regulations.gov>, including any personal information provided. **Docket:** For docket access to read background documents or comments received by the TMAC, go to <http://www.regulations.gov> and search for the Docket ID FEMA–2014–0022.

A public comment period will be held on June 6, 2016, from 11:00–11:20 a.m. and June 7, 2016 from 11:00–11:20 a.m. EDT. Speakers are requested to limit their comments to no more than two minutes. Each public comment period will not exceed 20 minutes. Please note that the public comment periods may end before the time indicated, following the last call for comments. Contact the individual listed below to register as a speaker by close of business on Thursday, June 2, 2016.

FOR FURTHER INFORMATION CONTACT:

Kathleen Boyer, Designated Federal Officer for the TMAC, FEMA, 1800 South Bell Street Arlington, VA 22202, telephone (202) 646–4023, and email kathleen.boyer@fema.dhs.gov. The TMAC Web site is: <http://www.fema.gov/TMAC>.

SUPPLEMENTARY INFORMATION: Notice of this meeting is given under the Federal Advisory Committee Act, 5 U.S.C. Appendix.

As required by the *Biggert-Waters Flood Insurance Reform Act of 2012*, the TMAC makes recommendations to the FEMA Administrator on: (1) How to improve, in a cost-effective manner, the (a) accuracy, general quality, ease of use, and distribution and dissemination of flood insurance rate maps and risk data; and (b) performance metrics and milestones required to effectively and

efficiently map flood risk areas in the United States; (2) mapping standards and guidelines for (a) flood insurance rate maps, and (b) data accuracy, data quality, data currency, and data eligibility; (3) how to maintain, on an ongoing basis, flood insurance rate maps and flood risk identification; (4) procedures for delegating mapping activities to State and local mapping partners; and (5)(a) methods for improving interagency and intergovernmental coordination on flood mapping and flood risk determination, and (b) a funding strategy to leverage and coordinate budgets and expenditures across Federal agencies. Furthermore, the TMAC is required to submit an Annual Report to the FEMA Administrator that contains: (1) A description of the activities of the Council; (2) an evaluation of the status and performance of flood insurance rate maps and mapping activities to revise and update Flood Insurance Rate Maps; and (3) a summary of recommendations made by the Council to the FEMA Administrator.

Further, in accordance with the *Homeowner Flood Insurance Affordability Act of 2014*, the TMAC must develop a review report related to flood mapping in support of the National Flood Insurance Program (NFIP).

Agenda: On June 6 and 7, 2016, the TMAC will debate and vote on the final content of the 2016 FEMA flood mapping program review report (Review Report). The Review Report evaluates the FEMA National Flood Mapping Program as required by the Homeowner Flood Insurance Affordability Act. In addition, the TMAC will continue to discuss draft recommendations for the required 2016 TMAC Annual Report. A public comment period will take place at the beginning of the meeting at 11:00 a.m. EDT each day, and another brief public comment period will also be offered prior to any Council vote. A more detailed agenda will be posted by May 30, 2016, at <http://www.fema.gov/TMAC>.

Dated: May 16, 2016.

Roy E. Wright,

Deputy Associate Administrator, for Insurance and Mitigation, Federal Emergency Management Agency.
