1. *Agency/Employer Government Pension Offset Questionnaire—20 CFR 404.408(a)—0960-0470*. When an individual is concurrently receiving Social Security spousal, or surviving spousal, benefits and a government pension, the individual may have the amount of Social Security benefits reduced by the government pension amount. This is the Government Pension Offset (GPO). SSA uses Form SSA-L4163 to collect accurate pension information from the Federal or State

government agency paying the pension for purposes of applying the pension offset provision. SSA uses this form only when (1) the claimant does not have the information; and (2) the pension-paying agency has not cooperated with the claimant. Respondents are State government agencies which have information SSA needs to determine if the GPO applies and the amount of offset.

Type of Request: Extension of an OMB-approved information collection.

Modality of completion	Number of respondents	Frequency of response	Average burden per response (minutes)	Estimated total annual burden (hours)
SSA-L4163	1000	1	3	50

2. *Real Property Current Market Value Estimate—0960-0471*. SSA considers an individual's resources when evaluating eligibility for SSI payments. The value of an individual's resources, including non-home real property, is one of the eligibility requirements for SSI payments. SSA obtains current market

value estimates of the claimant's real property through Form SSA-L2794. We allow respondents to use readily available records to complete the form, or we can accept their best estimates. We use this form as part of initial applications and in post-entitlement situations. The respondents are small

business operators in real estate; state and local government employees tasked with assessing real property values; and other individuals knowledgeable about local real estate values.

Type of Request: Revision of an OMB-approved information collection.
