SUPPLEMENTARY INFORMATION:

I. Advisory Committee Background

The GPAC and LPAC are statutorily
mandated advisory committees that
provide recommendations and advice
on PHMSA's proposed safety standards,
risk assessments, and safety policies for
gas pipelines and for hazardous liquid
pipelines. Both committees were
established in accordance with the
Federal Advisory Committee Act
(FACA) and 49 U.S.C. 60115.

No later than 90 days after receiving
a proposed standard and supporting
analyses, the appropriate committee
prepares and submits a report to the
Secretary of Transportation on the
technical feasibility, reasonableness,
cost-effectiveness, and practicability of
the proposed standard. The Secretary
must publish each report, including any
recommended actions and minority
views. The Secretary is not bound by
the committee's conclusions. However,

if the Secretary rejects them, he must
publish the reasons.

Pursuant to 49 U.S.C. 60115, the
Secretary of Transportation has the
authority to appoint to each committee
(1) five individuals from departments,
agencies, and instrumentalities of the
U.S. Government and of the states; (2)
five individuals from the natural gas or
hazardous liquid industry, selected in
consultation with industry
representatives; and (3) five individuals
selected from the general public. Two of
the individuals selected for each
committee from the government must be
state commissioners.

At least three of the individuals
selected for each committee from the
industry must be currently in the active
operation of natural gas or hazardous
liquid pipelines or pipeline facilities. At
least one individual selected for each
committee serving from the industry
must have education, background, or
experience in risk assessment and cost-
benefit analysis.

Two of the individuals selected for
each committee from the general public
must have education, background, or
experience in environmental protection
or public safety. At least one individual
selected for each committee serving
from the general public must have
education, background, or experience in
risk assessment and cost-benefit
analysis. At least one individual
selected for each committee from the
general public may not have any
financial interest in pipeline, petroleum,
or natural gas industries. No individuals
selected for a committee serving from
the general public may have a
significant financial interest in the
pipeline, petroleum, or gas industry.

II. Criteria for Committee Members

The committee members selected by
the Secretary of Transportation must be
knowledgeable in the safety regulation
of transporting natural gas or hazardous
liquids or operating a natural gas or
hazardous liquid pipeline facility or,
nominees that are technically qualified,
by training, experience or knowledge, in
at least one field of engineering
applicable to transporting gas or
hazardous liquids or operating a gas or
hazardous liquid pipeline facility.
Members must also meet the applicable
criteria mentioned under section I of
this notice. Nominees should represent
a broad constituency whose views the
candidate can represent. Individuals
associated with organizations concerned
with fire safety, pipeline engineering,
risk analysis, emergency response, and
other similar public safety groups as
well as environmental protection groups
may have the knowledge and experience

we are looking for. In addition, experience working in a consensus building environment would be helpful. The Secretary will consult with the national organization of State commissioners before selecting any state commissioner. Additionally, the Secretary will consult with the national organizations representing the owners and operators of pipeline facilities before selecting individuals from the industry.

III. Terms of Service

- Each member serves a three-year term, unless the member becomes unable to serve, resigns, ceases to be qualified to serve, or is removed by the Secretary.

- Members may be reappointed.
- All members serve at their own expense and receive no salary from the Federal Government, although travel reimbursement and per diem may be provided.
- The GPAC and LPAC generally meet in-person in the Washington, DC, Metropolitan area.
- PHMSA will ask potential public candidates to provide detailed information concerning such matters related to financial holdings, employment, and research grants and/or contracts to permit evaluation of possible sources of conflicts of interest.

IV. Nomination Procedures

Any interested person may nominate one or more qualified individuals for membership on the advisory committee. Self-nominations are also accepted.

- Nominations must include a current, complete résumé including current business address and/or home address, telephone number, and email address, education, professional or business experience, present occupation, and membership on other advisory committees (past or present) for each nominee.
