SUPPLEMENTARY INFORMATION: This ICR seeks approval under the PRA for revisions to the H-1B Technical Skills Training (TST) and Jobs and Innovation Accelerator Challenge (JIAC) Grants information collection. In applying for the H-1B TST, JAIC, and Ready to Work grant programs, grantees agree to submit participant-level data quarterly for individuals who receive services through these programs. The reports include aggregate data on demographic characteristics, types of services received, placements, outcomes, and follow-up status. Specifically, grantees summarize data on employment and training services, placement services, and other services essential to successful unsubsidized employment through H-1B programs. This reporting structure features standardized data collection on program participants and quarterly narrative, performance, and Management Information System report formats. All data collection and reporting will be done by grantee organizations (State or local governments, not-for-profit, or faith-based and community organizations) or their sub-grantees. This information collection has been classified as a revision because of (1) code value formatting changes; (2) additional technical assistance guidance in the *Handbook to Performance Reporting*; (3) reformatting the *Handbook* to improve its readability; (4) removing duplicative data elements listed on Form ETA-9166, Standardized Quarterly Progress Report; (5) changes to an evaluation consent form; (6) the addition of a baseline information form to support data collection; and (7) the removal of information collections related to completed site visit activities. American Competitiveness and Workforce Improvement Act of 1998 section 414(c) authorizes this information collection. See 29 U.S.C. 219(c) note.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number.
