In this rulemaking, we are taking final action on revisions to Common Provisions Regulation which include adding compounds to the definition of "negligibly reactive volatile compounds" (NRVOC), clarifying NRVOC and volatile organic compound (VOC) testing methodologies within the definition of "volatile organic compound," and revising the definition of "incinerator" along with minor editorial changes. The revisions also make several miscellaneous changes along with minor editorial changes. The reasons for our approval and taking no action are provided in detail in the proposed rule (80 FR 55055, September 14, 2015).

In this action, EPA is also taking final action to correct a final rule published in the **Federal Register** on April 24, 2014 (79 FR 22772). In this rule, we
