SUPPLEMENTARY INFORMATION:

This information collection request contains:

(1) *OMB No.:* 1905-0186;

(2) *Information Collection Request Title:* Generic Clearance for

Questionnaire Testing, Evaluation, and Research;

(3) *Type of Request:* Renewal;

(4) *Purpose:* The U.S. Energy Information Administration (EIA) is planning to request a three-year approval from the Office of Management and Budget (OMB) to utilize qualitative and quantitative methodologies to pretest questionnaires and validate the quality of the data collected on EIA forms. This authority would allow EIA to conduct pretest surveys, pilot surveys, respondent debriefings, cognitive interviews, usability interviews, and focus groups. Through the use of these methodologies, EIA will improve the quality of data being collected for measuring market activity and assessing supply conditions in energy markets, reduce or minimize respondent burden, increase agency efficiency, and improve responsiveness to the public. This authority also improves EIA's ability to collect relevant and timely information that meets the data needs of EIA's customers.

(5) *Annual Estimated Number of Respondents:* 2,000;

(6) *Annual Estimated Number of Total Responses:* 2,000;

(7) *Annual Estimated Number of Burden Hours:* 2,000;

(8) *Annual Estimated Reporting and Recordkeeping Cost Burden:* There are no additional costs associated with these survey methods other than the burden hours. The information is maintained in the normal course of business. The cost of burden hours to the respondents is estimated to be \$144,040 (2,000 burden hours times \$72.02 per hour), which represents a reduction of 1,006 burden hours from the prior renewal of this collection. Therefore, other than the cost of burden hours, EIA estimates that there are no additional costs for generating, maintaining and providing the information.

Statutory Authority: Section 13(b) of the Federal Energy Administration Act of 1974, Public Law 93-275, codified at 15 U.S.C. 772(b).
