- **Email:** WaiverRegulations@SAMHSA.hhs.gov.

Each submission must include the Agency name and the docket number for

this notice. Comments must be received by 5:00 p.m. ET on August 8, 2016.

FOR FURTHER INFORMATION CONTACT: For information concerning the listening session or the live webcast, please contact: Phillip Ames, Special Assistant, SAMHSA, 5600 Fishers Lane, 18E61, Rockville, MD 20857, (240) 276–2129 or email WaiverRegulations@SAMHSA.hhs.gov.

Background

On March 30, 2016 HHS issued a Notice of Proposed Rulemaking (NPRM) entitled “Medication Assisted Treatment for Opioid Use Disorders” in the **Federal Register**. On July 8, 2016, HHS published a final version of this rule with the same title. The final rule increases access to medication-assisted treatment (MAT) with certain medications, including buprenorphine and combination buprenorphine/naloxone (hereinafter referred to as buprenorphine) medications, in office-based setting as authorized under section 303(g)(2) of the Controlled Substances Act (CSA) (21 U.S.C. 823(g)(2)). Section 303(g)(2) of the CSA allows individual practitioners to dispense or prescribe Schedule III, IV, or V controlled substances that have been approved by the Food and Drug Administration (FDA) without obtaining a separate registration to dispense narcotic maintenance and detoxification drugs under section 303(g)(1). Section 303(g)(2)(B)(iii) of the CSA also allows qualified practitioners who file an initial notification of intent (NOI) to treat a maximum of 30 patients at a time with medications covered under section 303(g)(2)(C). After 1 year, the practitioner may file a second NOI indicating his/her intent to treat up to 100 patients at a time. The final rule expands access to MAT by allowing eligible practitioners to request approval to treat up to 275 patients under section 303(g)(2) of the CSA. The final rule includes requirements to help ensure that patients receive the full array of services that comprise evidence-based MAT and minimize the risk that the medications provided for treatment are misused or diverted.

The March 30, 2016 NPRM included a set of reporting requirements for practitioners who were approved to treat patients at the higher patient limit. The purpose of the proposed reporting requirements was to help HHS assess practitioner compliance with the additional responsibilities of practitioners who are authorized to treat up to the higher patient limit. The proposed reporting requirements are as follows:
