SUMMARY: The Department of Labor (DOL) will submit the Employee Benefits Security Administration (EBSA) sponsored information collection request (ICR) titled, "Sale of Securities to Reduce Indebtedness of Party in Interest, Prohibited Transaction Class Exemption 1980-83," to the Office of Management and Budget (OMB) on July 29, 2016, for review and approval for continued use, without change, in accordance with the Paperwork Reduction Act of 1995 (PRA), 44 U.S.C. 3501 *et seq.* Public comments on the ICR are invited.

Authority: 44 U.S.C. 3507(a)(1)(D).

SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Sale of Securities to Reduce Indebtedness of Party in Interest, Prohibited Transaction Class Exemption 1980-83 (PTE 80-83) information collection. This PTE allows an employee benefit plan to purchase securities that may aid the issuer of the securities to reduce or retire indebtedness to a party in interest. Without the relief provided by the class exemption, Employee Retirement Income Security Act of 1974 (ERISA) prohibited transaction provisions would bar a standard type of financial/business transaction between a financial service provider and an employee benefit plan. This exemption also provides relief from Internal Revenue Code section 4975 prohibited transaction provisions.

In order to take advantage of the relief provided by this PTE, an employee benefit plan must comply with all applicable exemption conditions, including keeping records sufficient to establish that exemption conditions have been met for exemption-covered transactions. The records must be maintained for a period of at least six years from a covered transaction and must be made reasonably available for inspection upon request by specified interested persons—including plan fiduciaries, participants and beneficiaries, sponsoring employers, DOL and Internal Revenue Service representatives, and contributing employers. ERISA, section 408(a) authorizes this information collection. See 29 U.S.C. 1108(a).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a

collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1210-0064.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on November 23, 2015 (80 FR 72990).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1210-0064. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
