Title of Collection: Generic Clearance for Federal Student Aid Customer Satisfaction Surveys and Focus Groups Master Plan.

OMB Control Number: 1845–0045.

Type of Review: An extension of an existing information collection.

Respondents/Affected Public: Individuals or Households.

Total Estimated Number of Annual Responses: 200,000.

Total Estimated Number of Annual Burden Hours: 45,000.

Abstract: The Higher Education Amendments of 1998 established Federal Student Aid (FSA) as the first Performance-Based Organization (PBO). One purpose of the PBO is to improve service to students and other participants in the student financial assistance programs authorized under title IV, including making those programs more understandable to students and their parents. To do that, FSA has committed to ensuring that all people receive service that matches or exceeds the best service available in the private sector. The legislation's requirements establish an ongoing need for FSA to be engaged in an interactive process of collecting information and using it to improve program services and processes.

[Docket No.: ED–2016–ICCD–0064]

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; Experimental Sites Data Collection Instrument

AGENCY: Federal Student Aid (FSA), Department of Education (ED).

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 3501 *et seq.*), ED is proposing a revision of an existing information collection.

DATES: Interested persons are invited to submit comments on or before September 6, 2016.

ADDRESSES: To access and review all the documents related to the information collection listed in this notice, please

use <http://www.regulations.gov> by searching the Docket ID number ED–2016–ICCD–0064. Comments submitted in response to this notice should be submitted electronically through the Federal eRulemaking Portal at <http://www.regulations.gov> by selecting the Docket ID number or via postal mail, commercial delivery, or hand delivery. *Please note that comments submitted by fax or email and those submitted after the comment period will not be accepted.* Written requests for information or comments submitted by postal mail or delivery should be addressed to the Director of the Information Collection Clearance Division, U.S. Department of Education, 400 Maryland Avenue SW., LBJ, Room 2E–347, Washington, DC 20202–4537.

FOR FURTHER INFORMATION CONTACT: For specific questions related to collection activities, please contact Warren Farr, 202–377–4380.

SUPPLEMENTARY INFORMATION: The Department of Education (ED), in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Experimental Sites Data Collection Instrument.

OMB Control Number: 1845–0118.

Type of Review: A revision of an existing information collection.

Respondents/Affected Public: State, Local, and Tribal Governments; Private Sector.

Total Estimated Number of Annual Responses: 28.

Total Estimated Number of Annual Burden Hours: 84.

Abstract: The U.S. Department of Education Secretary selects institutions for voluntary participation in the Experimental Sites Initiative. Institutions volunteer to become an experimental site to provide recommendations on the impact and effectiveness of proposed regulations or new management initiatives. Participants are exempt from specific statutory and regulatory requirements while conducting the experiments.

The experiment for which data is being reported relates to the William D. Ford Federal Direct Loan Program and limiting unsubsidized loan amounts.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP15–93–000; Docket No. CP15–94–000; Docket No. CP15–96–000]

Rover Pipeline, LLC; Panhandle Eastern Pipe Line Company, LP; Trunkline Gas Company, LLC; Notice of Availability of the Final Environmental Impact Statement for the Proposed Rover Pipeline, Panhandle Backhaul, and Trunkline Backhaul Projects

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared a final environmental impact statement (EIS) for the Rover Pipeline, Panhandle Backhaul, and Trunkline Backhaul Projects (Projects), proposed by Rover Pipeline, LLC (Rover), Panhandle Eastern Pipe Line Company, LP (Panhandle), and Trunkline Gas Company, LLC (Trunkline), respectively, in the above-referenced dockets. Rover requests authorization to construct, operate, and maintain certain natural gas pipeline facilities to transport about 3.25 billion cubic feet per day (Bcf/d) of stranded natural gas from Marcellus and Utica production areas in West Virginia, Pennsylvania, and Ohio to markets in the United States and Canada. Panhandle requests authorization to modify existing facilities and install an interconnection

with Rover in Defiance County, Ohio to accommodate 0.75 Bcf/d of east-to-west firm transportation service. Trunkline would modify existing facilities, including piping at the existing Panhandle-Trunkline Interconnect in Douglas County, Illinois to provide 0.75 Bcf/d of north-to-south firm transportation service.

The final EIS assesses the potential environmental effects of the construction and operation of the Projects in accordance with the requirements of the National Environmental Policy Act (NEPA). The FERC staff concludes that approval of the Projects would have some adverse and significant environmental impacts; however, these impacts would be reduced to acceptable levels with the implementation of Rover's, Panhandle's, and Trunkline's proposed mitigation and the additional measures recommended by staff in the final EIS.

The U.S. Environmental Protection Agency (EPA), the U.S. Army Corps of Engineers (COE), the U.S. Fish and Wildlife Service (FWS), the Ohio Environmental Protection Agency (OEPA), and the West Virginia Department of Environmental Protection (WVDEP) participated as cooperating agencies in the preparation of the EIS. Cooperating agencies have jurisdiction by law or special expertise with respect to resources potentially affected by the proposal and participate in the NEPA analysis. Although the cooperating agencies provided input to the conclusions and recommendations presented in the final EIS, the agencies will present their own conclusions and recommendations in their respective Records of Decision for the Projects.

The final EIS addresses the potential environmental effects of the construction and operation of the following project facilities:

- 510.3 miles of new 24- to 42-inch-diameter natural gas pipeline and appurtenant facilities that include 10 new compressor stations, 21 new meter stations, 6 new tie-ins, 78 mainline valves, and 11 pig launcher and receiver facilities.¹
- modifications by Panhandle at four existing compressor stations, one interconnection, and three valve sites; and
- modifications by Trunkline at four existing compressor stations and one meter station.

The FERC staff mailed copies of the final EIS to federal, state, and local government representatives and

agencies; elected officials; environmental and public interest groups; Native American tribes; potentially affected landowners and other interested individuals and groups; newspapers and libraries in the project area; and parties to this proceeding. Paper copy versions of this EIS were mailed to those specifically requesting them; all others received a CD version. In addition, the final EIS is available for public viewing on the FERC's Web site (www.ferc.gov) using the eLibrary link. A limited number of copies are available for distribution and public inspection at: Federal Energy Regulatory Commission, Public Reference Room, 888 First Street NE., Room 2A, Washington, DC 20426, (202) 502-8371.

Questions?

Additional information about the project is available from the Commission's Office of External Affairs, at (866) 208-FERC, or on the FERC Web site (www.ferc.gov) using the eLibrary link.
