I. Abstract

The NPS is requesting to reinstate a previously approved collection (OMB Control Number: 1024-0262) needed to survey Alaska residents who customarily and traditionally engage in subsistence uses within a national park, preserve, or monument. In 2012, a survey was conducted in Wrangell-St. Elias National Park and Preserve (WRST) and Gates of the Arctic National Park and Preserve (GAAR) to understand the effects of subsistence harvesting. This collection intended to collect information in additional Alaskan National Parks, Preserves, and Monuments.

Under the provisions of The Alaska National Interest Lands Conservation Act (ANILCA), subsistence harvests by local rural residents are considered to be the priority consumptive use of park resources. This collection will continue to gather information on subsistence harvest patterns and the impact of rural economy from resident zone communities associated with the following parks, preserves, and monuments: 1) Aniakchak National Monument (ANIA), 2) Bering Land Bridge National Preserve (BELA), 3) Cape Krusenstern National Monument (CAKR), 4) Gates of the Arctic National Park and Preserve (GAAR), 5) Kobuk Valley National Park (KOVA), 6) Noatak National Preserve (NOAT), 7) Wrangell-St. Elias National Park and Preserve (WRST) and 8) Yukon-Charley Rivers National Preserve (YUCH).

The information from this collection will be used by the NPS, the Federal Subsistence Board, the State of Alaska, and local/regional advisory councils in making recommendations and making decisions regarding seasons and harvest limits of fish, wildlife, and plants in the region which communities have customarily and traditionally used.

SUPPLEMENTARY INFORMATION:

I. Abstract

The purpose of this information collection is to assist the NPS in submitting suitable trails or trail systems to the Secretary of the Interior for designation as National Recreation Trails (NRTs), and in recommending exemplary water trails to the Secretary of the Interior for designation as National Water Trails (NWTs) to be included in the National Water Trails System (NWTs). The information collected will be used by the NPS, U.S. Fish and Wildlife Service, U.S. Bureau of Land Management, U.S. Bureau of Reclamation, and U.S. Army Corps of Engineers to evaluate the applications

for adherence to NRT requirements and criteria and for NWTs, to determine if additional best management practices have been met.

The NPS administers the NRT program by authority of section 4 of the National Trails System Act (16 U.S.C. 1243). Secretarial Order No. 3319 established National Water Trails as a class of National Recreation Trails and directed that such trails collectively be considered in a National Water Trail System.

Designation as a NRT provides national recognition to local and regional trails or trail systems, acknowledging local and state efforts to build and maintain viable trails and trail systems. This recognition function is shared by the Secretary of Agriculture (for trails on National Forest lands and waters) and the Secretary of the Interior (for all other trails). The Secretary of the Interior has delegated NRT coordination to the NPS, which also maintains the system of record for the almost 1,300 NRTs and the 21 NWTs designated to date.

The NWTs focuses on building a national network of exceptional water trails sustainable by an ever growing and vibrant water trail community. The NWTs connects Americans to the nation's waterways and strengthens the conservation and restoration of those waterways. Best management practices provide high quality water-based outdoor recreational opportunities.
