UNITED STATES OF AMERICA NUCLEAR REGULATORY COMMISSION

In the Matter of Plus, LLC; Stamford, Connecticut
Docket Nos. 030–38874 and 030–38780
License Nos. 06–35274–01E and 06–35183–01
EA–13–190

ORDER IMPOSING CIVIL MONETARY PENALTY

I

Plus, LLC (Plus or the Licensee), is the holder of Materials License No.06–35183–01 issued by the U.S. Nuclear Regulatory Commission (NRC) on April 23, 2015, pursuant to Part 30 of Title 10 of the *Code of Federal Regulations* (10 CFR). The license authorizes the licensee to possess material at its facility located in Stamford, Connecticut, in accordance with the conditions specified therein. Under 10 CFR 110.27, the Licensee is granted a general license to import in

accordance with the conditions specified in the regulations. The Licensee is also the holder of Materials License No. 06–35274–01E issued by the NRC on December 2, 2015. The license authorizes the Licensee to distribute material in accordance with the conditions specified therein. At the time of the initiation of the violations, Plus, LLC, did not have any specific licenses issued by the NRC or an Agreement State for activities involving the import, possession, or distribution of byproduct material.

II

Two investigations were initiated by the NRC Office of Investigations (OI), on October 18, 2013, and April 8, 2015. The results of these investigations indicated that Plus was conducting activities that were not in compliance with the NRC's requirements, specifically, without the required licensing for such activities. A written Notice of Violation and Proposed Imposition of Civil Penalty (Notice) was served upon Plus by letter dated May 3, 2016 (ADAMS Accession No. ML16071A111). The Notice states the nature of the violations, the provisions of the NRC's requirements that Plus violated, and the amount of the civil penalty proposed for the violations.

Plus responded to the Notice in a letter dated May 10, 2016 (ADAMS Accession No. ML16215A481). In its response, the Licensee did not deny the facts involving the violations, but did request mitigation of the severity level of the violations and the proposed civil penalty amount.

III

After consideration of the Licensee's response and the statements of fact, explanation, and argument for mitigation contained therein, the NRC staff has determined, as set forth in the Appendix to this Order that these violations occurred, as stated, and that adequate basis does not exist for mitigation of the severity level. The NRC also determined that an adequate basis was provided by the Licensee for mitigation of the proposed civil penalty amount. Consequently, based on the small entity status of the Licensee, a reduced civil penalty in the amount of \$21,000 should be imposed.

IV

In view of the foregoing and pursuant to Section 234 of the Atomic Energy Act of 1954, as amended (Act), 42 U.S.C. 2282, and 10 CFR 2.205, IT IS HEREBY ORDERED THAT:

The Licensee shall pay a civil penalty in the amount of \$21,000 within 30 days of the issuance date of this Order, in accordance with NUREG/BR–0254, “Payment Methods” (see <http://www.nrc.gov/reading-rm/doc-collections/nuregs/brochures/br0254/>). In addition, at the time payment is made, the Licensee shall submit a statement indicating when and by what method payment was made, to the Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852–2738.

V

In accordance with 10 CFR 2.205(d), the Licensee and any other person adversely
