SUPPLEMENTARY INFORMATION:

Background

On April 25, 2016, the Department of Commerce (Department) published a notice of initiation of an antidumping duty investigation on ferrovandium from the Republic of Korea.¹ Section 733(b)(1)(A) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.205(b)(1) state the Department will make a preliminary determination no later than 140 days after the date of the initiation. The current deadline for the preliminary determination of this investigation is no later than September 5, 2016.

Postponement of Preliminary Determination

Section 733(c)(1)(A) of the Act allows the Department to postpone the preliminary determination until no later than 190 days after the date on which the Department initiated the investigation if the petitioner makes a timely request for an extension of the period within which the determination must be made. On August 5, 2016, the Vanadium Producers and Reclaimers Association (VPRA) and VPRA members AMG Vanadium LLC (AMG V), Bear Metallurgical Company (Bear), Gulf Chemical & Metallurgical Corporation (Gulf), and Evraz Stratcor, Inc. (Stratcor) (collectively, Petitioners) made a timely request, pursuant to 19 CFR 351.205(e), for postponement of the preliminary determination, in order to provide the Department with sufficient time to develop the record in this proceeding. SUPPLEMENTARY INFORMATION:

Background

In accordance with sections 735(d) and 777(i)(1) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.210(c), on June 29, 2016, the Department published its affirmative final determination in the less-than-fair-value (LTFV) investigation of hydrofluorocarbon (HFC) blends and components thereof from the PRC.¹ On August 5, 2016, the ITC notified the Department of its affirmative determination that an industry in the United States is materially injured within the meaning of section 735(b)(1)(A)(i) of the Act, by reason of the LTFV imports of HFC blends from the PRC; its negative determination that an industry in the United States is not materially injured or threatened with material injury by reason of imports of HFC components from the PRC; and its determination that critical circumstances do not exist with respect to imports of HFC blends that are subject to the Department's affirmative critical circumstances finding.²
