47 CFR 74.787(a)(5)(v) states that an application for an digital to digital replacement translator may be filed by a full power television station that can demonstrate that a portion of its digital service area will not be served by its full, post-incentive auction digital facilities. The service area of the replacement translator shall be limited to only a demonstrated loss area.

However, an applicant for a replacement digital television translator may propose a *de minimis* expansion of its full power pre-transition analog service area upon demonstrating that it is necessary to replace its post-incentive auction digital loss area.
