Proposed Information Collection; Federal Fish and Wildlife Permit Applications and Reports—Law Enforcement

AGENCY: Fish and Wildlife Service,
Interior.

ACTION: Notice; request for comments.

SUMMARY: We (U.S. Fish and Wildlife Service) will ask the Office of Management and Budget (OMB) to approve the information collection (IC) described below. As required by the Paperwork Reduction Act of 1995 and as part of our continuing efforts to reduce paperwork and respondent burden, we invite the general public and other Federal agencies to take this

opportunity to comment on this IC. This IC is scheduled to expire on December 31, 2016. We may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: To ensure that we are able to consider your comments on this IC, we must receive them by November 7, 2016.

ADDRESSES: Send your comments on the IC to the Information Collection Clearance Officer, U.S. Fish and Wildlife Service, MS BPHC, 5275 Leesburg Pike, Falls Church, VA 22041-3803 (mail); or tina_campbell@fws.gov (email). Please include "1018-0092" in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this IC, contact Tina Campbell at tina_campbell@fws.gov (email) or 703-358-2676 (telephone).

SUPPLEMENTARY INFORMATION:

I. Abstract

The Endangered Species Act (ESA) (16 U.S.C. 1531 *et seq.*) makes it unlawful to import or export fish, wildlife, or plants without obtaining prior permission as deemed necessary for enforcing the ESA or upholding the Convention on International Trade in Endangered Species (CITES) (see 16 U.S.C. 1538(e)). This information collection includes the following permit/license application forms:

(1) FWS Form 3-200-2 (Designated Port Exception Permit). Under 50 CFR 14.11, it is unlawful to import or export wildlife or wildlife products at ports

other than those designated in 50 CFR 14.12 unless you qualify for an exception. These exceptions allow qualified individuals, businesses, or scientific organizations to import or export wildlife or wildlife products at a nondesignated port:

- (a) When the wildlife or wildlife products will be used as scientific specimens.
- (b) To minimize deterioration or loss.
- (c) To relieve economic hardship.

To request an import or export of wildlife or wildlife products at nondesignated ports, applicants must complete FWS Form 3-200-2. Designated port exception permits are valid for 2 years. We may require a permittee to file a report on activities conducted under authority of the permit.

(2) FWS Form 3-200-3 (Import/Export License). It is unlawful to import or export wildlife or wildlife products for commercial purposes without first obtaining an import/export license (50 CFR 14.91). Applicants must complete FWS Form 3-200-3 to request this license. We use the information that we collect on the application as an enforcement tool and management aid to (a) monitor the international wildlife market and (b) detect trends and changes in the commercial trade of wildlife and wildlife products. Import/export licenses are valid for 1 year. We may require a licensee to file a report on activities conducted under authority of the import/export license.

Permittees and licensees must maintain records that accurately describe each importation or exportation of wildlife or wildlife

products made under the license, and any additional sale or transfer of the wildlife or wildlife products. In addition, licensees must make these records and the corresponding inventory of wildlife or wildlife products available for our inspection at reasonable times, subject to applicable limitations of law. We believe the burden associated with these recordkeeping requirements is minimal because the records already exist. Importers and exporters must complete FWS Form 3-177 (Declaration for Importation or Exportation of Fish or Wildlife) for all imports or exports of wildlife or wildlife products. This form provides an accurate description of the imports and exports. OMB has approved the information collection for FWS Form 3-177 and assigned OMB Control Number 1018-0012. Normal business practices should produce records (e.g., invoices or bills of sale) needed to document additional sales or transfers of the wildlife or wildlife products.

II. Data

- OMB Control Number:* 1018-0092.
- Title:* Federal Fish and Wildlife Permit Applications and Reports—Law Enforcement, 50 CFR 13 and 14.
- Service Form Number:* 3-200-2 and 3-200-3.
- Type of Request:* Extension of a currently approved collection.
- Description of Respondents:* Individuals, businesses, scientific institutions, and State, local, or tribal governments.
- Respondent's Obligation:* Required to obtain or retain a benefit.
- Frequency of Collection:* On occasion.

Activity	Number of respondents	Number of responses	Completion time per response (hours)	Total annual burden hours*
3-200-2: application and recordkeeping	1,398	1,398	1.25	1,748
3-200-2: report	5	5	1	5
3-200-3: application and recordkeeping	9,351	9,351	1.25	11,689
3-200-3: report	5	5	1	5
Totals	10,759	10,759	13,447

* rounded.

Estimated Annual Nonhour Burden Cost: None.

III. Comments

We invite comments concerning this information collection on:

- Whether or not the collection of information is necessary, including whether or not the information will have practical utility;

- The accuracy of our estimate of the burden for this collection of information;
 - Ways to enhance the quality, utility, and clarity of the information to be collected; and
 - Ways to minimize the burden of the collection of information on respondents.
- Comments that you submit in response to this notice are a matter of

public record. We will include or summarize each comment in our request to OMB to approve this IC. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask us in your comment

to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Dated: August 31, 2016.

Tina A. Campbell,

Chief, Division of Policy, Performance, and Management Programs, U.S. Fish and Wildlife Service.

Low-Effect Habitat Conservation Plan for the Mount Hermon June Beetle, Santa Cruz County, California

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comment.

SUMMARY: We, the U.S. Fish and Wildlife Service, have received an application from the County of Santa Cruz for an 11-year incidental take permit under the Endangered Species Act of 1973, as amended (Act). The application addresses the potential for “take” of the federally endangered Mount Hermon June beetle likely to occur incidental to the construction of a multi-use facility and associated infrastructure at the existing juvenile detention center in Felton, Santa Cruz County, California. We invite comments from the public on the application package, which includes a Low-Effect Habitat Conservation Plan for the Mount Hermon June Beetle.

DATES: To ensure consideration, please send your written comments by October 6, 2016.

ADDRESSES: You may download a copy of the Habitat Conservation Plan, draft Environmental Action Statement and Low-Effect Screening Form, and related documents on the Internet at <http://www.fws.gov/ventura/>, or you may request copies of the documents by U.S. mail to our Ventura office or by phone (see **FOR FURTHER INFORMATION CONTACT**). Please address written comments to Stephen P. Henry, Field Supervisor, Ventura Fish and Wildlife Office, U.S. Fish and Wildlife Service, 2493 Portola Road, Suite B, Ventura, CA 93003. You may alternatively send comments by facsimile to (805) 644-3958.

FOR FURTHER INFORMATION CONTACT: Chad Mitcham, Fish and Wildlife Biologist, by U.S. mail to the Ventura

office, or by telephone at (831) 768-7794.

SUPPLEMENTARY INFORMATION: We have received an application from the County of Santa Cruz for an 11-year incidental take permit under the Act. The application addresses the potential for “take” of the federally endangered Mount Hermon June beetle (*Polyphylla barbata*) likely to occur incidental to the construction of a multi-use facility and associated infrastructure at the existing juvenile detention center, at the County of Santa Cruz Juvenile Hall, 3650 Graham Hill Road (APN: 061-371-16), Felton, Santa Cruz County, California. We invite comments from the public on the application package, which includes the Low-Effect Habitat Conservation Plan for the Mount Hermon June Beetle. This proposed action has been determined to be eligible for a Categorical Exclusion under the National Environmental Policy Act of 1969, as amended.

Background

The U.S. Fish and Wildlife Service (Service) listed the Mount Hermon June beetle as endangered on January 24, 1997 (62 FR 3616). Section 9 of the Act (16 U.S.C. 1531 *et seq.*) and its implementing regulations prohibit the take of fish or wildlife species listed as endangered or threatened. “Take” is defined under the Act to include the following activities: “to harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct” (16 U.S.C. 1532); however, under section 10(a)(1)(B) of the Act, we may issue permits to authorize incidental take of listed species. The Act defines “Incidental Take” as take that is not the purpose of carrying out of an otherwise lawful activity. Regulations governing incidental take permits for threatened and endangered species are provided at 50 CFR 17.32 and 17.22, respectively. Issuance of an incidental take permit must not jeopardize the existence of federally listed fish, wildlife, or plant species.

Take of listed plants is not prohibited under the Act unless such take would violate State law. As such, take of plants cannot be authorized under an incidental take permit. Plant species may be included on a permit in recognition of the conservation benefits provided them under a habitat conservation plan. All species, including plants, covered by the incidental take permit receive assurances under our “No Surprises” regulations (50 CFR 17.22(b)(5) and 17.32(b)(5)). In addition to meeting

other specific criteria, actions undertaken through implementation of the Habitat Conservation Plan (HCP) must not jeopardize the continued existence of federally listed animal or plant species.

Applicant’s Proposal

The County of Santa Cruz (hereafter, the applicant) has submitted a Low-Effect HCP in support of their application for an incidental take permit (ITP) to address take of the Mount Hermon June beetle that is likely to occur as the result of direct impacts on up to 0.189-acre (ac) (8,225 square feet (sf)) of degraded sandhills habitat occupied by the species. Take would be associated with the construction of a multi-use facility on an existing parcel legally described as Assessor Parcel Number: 061-371-16. The current site address is 3650 Graham Hill Road in Felton, Santa Cruz County, California. The applicant is requesting a permit for take of Mount Hermon June beetle that would result from “covered activities” that are related to the construction of the multi-use facility and associated infrastructure.

The applicant proposes to avoid, minimize, and mitigate take of Mount Hermon June beetle associated with the covered activities by fully implementing the HCP. The following measures will be implemented: (1) Temporary fencing and signs will be installed to clearly delineate the boundaries of the project; (2) if construction occurs during the flight season (considered to be between May and October, annually), exposed soils will be covered with erosion control fabric or other impervious materials to prevent any dispersing Mount Hermon June beetles from burrowing into exposed soil at the construction site; (3) employment of a Service-approved entomologist to capture and relocate into suitable habitat and out of harm’s way any Mount Hermon June beetle larvae unearthed during construction activities; (4) all new outdoor night lighting will use light bulbs certified not to attract nocturnally active insects, in order to minimize disruption of Mount Hermon June beetle breeding behavior during the adult flight season; and (5) Option 1: Enhance 4.3 ac (187,308 sf) of habitat on site for a 10-year period; or, Option 2: Secure off-site mitigation at a ratio of 1:1 to mitigate for permanent habitat impacts through the acquisition of 0.189 ac (8,225 sf) of conservation credits at the Zayante Sandhills Conservation Bank. The applicant will fund up to \$81,995 to ensure implementation of all minimization
