

for similar work performed by professionals with similar qualifications. If HUD uses this option, how can it manage risk associated with this concept? Should HUD continue to permit all fees to be financed or should it establish a maximum amount that can be financed in the 203(k) loan? If HUD uses this option what should be used to establish the financeable portion of the fee? Would requiring the Borrower to pay the excess fees adversely limit the number of Section 203(k) loan origination? Would this method of setting fees lead to an increase in the number of loans with negative equity? Would this method of setting fees lead to an increase in the number of loans with negative equity and how could HUD protect against this?

3. *Develop a different metric on which to base Consultant fees.* Under this option, Consultants' fees would be based on a metric other than cost of repairs. For example, HUD could set fees based on a straight percentage of the repair amount or a fixed fee plus a percentage of the repair amount. If HUD uses this option, at what level should HUD set the amount? Would this option allow for regional differences in the cost of services or in the variation and complexity of services provided in a specific loan transaction? Are there other metrics upon which HUD could base Consultant fees? If so, what are the pros and cons of each metric?

4. *Index Section 203(k) Consultant fees to another measure.* Under this option, Consultant fees could be tied to Consumer Price Index or the Annual Rate of Inflation. HUD could then revise the fees under such measure and alert the public by Mortgagee Letter or Handbook publication. What are the pros and cons of tying the 203(k) Consultant fee schedule to either of these two measures? Are there other measures that would more accurately establish maximum fees? Would there be any reason for HUD to establish a maximum amount of the fee that can be

financed into the 203(k) mortgage using either of these measures?

SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A.

The **Federal Register** notice that solicited public comment on the information collection for a period of 60 days was published on February 4, 2016 at 81 FR 6036.

A. Overview of Information Collection

Title of Information Collection: ConnectHome Use and Benefits Telephone Survey.
OMB Approval Number: 2528–New.
Type of Request: New collection.
Form Number: Survey.
Description of the need for the information and proposed use: President Barack Obama and Secretary Julián Castro announced ConnectHome on July 15, 2015, as the next step in the Obama Administration's efforts to increase access to high-speed Internet access for all Americans. Through public-private partnerships, nonprofits, businesses, and Internet service providers (ISPs) ConnectHome will offer high-speed Internet service, devices, technical training, and digital literacy programs to residents of HUD assisted housing in 28 pilot communities, including the Choctaw Nation of Oklahoma.
As communities begin to implement ConnectHome in 2016 and connect residents to internet within their homes, this telephone survey will illuminate how families are taking advantage of ConnectHome. The telephone survey will explore ConnectHome subscribers' previous broadband access, current and planned use patterns, and current and anticipated benefits of their at-home high-speed Internet access. The survey will particularly focus on educational Internet use such as completing homework, connecting parents with educators, and applying to college.

SUPPLEMENTARY INFORMATION:

Introduction

Under the Endangered Species Act, as amended (16 U.S.C. 1531 *et seq.*; Act), we, the U.S. Fish and Wildlife Service, invite the public to comment on an incidental take permit (ITP) application for take of the federally listed American burying beetle (*Nicrophorus americanus*) resulting from activities associated with geophysical exploration (seismic) and construction, maintenance, operation, repair, and decommissioning of oil and gas well field infrastructure, as well as construction, maintenance, operation, repair, decommissioning, and reclamation of oil and gas gathering, transmission, and distribution pipeline infrastructure within Oklahoma. If approved, the permit would be issued to the applicant under the *Amended Oil and Gas Industry Conservation Plan Associated with Issuance of Endangered Species Act Section 10(a)(1)(B) Permits for the American Burying Beetle in Oklahoma* (ICP). The original ICP was approved on May 21, 2014 (publication of the FONSI notice was on July 25, 2014; 79 FR 43504). The draft amended ICP was made available for comment on March 8, 2016 (81 FR 12113), and approved on April 13, 2016. The ICP and the associated environmental assessment/finding of no significant impact are available on the Web site at <http://www.fws.gov/southwest/es/oklahoma/ABBICP>. However, we are no longer taking comments on these finalized, approved documents.

Applications Available for Review and Comment

We invite local, State, Tribal, and Federal agencies, and the public to comment on the following application under the ICP, for incidental take of the

federally listed ABB. Please refer to the appropriate permit number (*e.g.*, TE-123456) when requesting application documents and when submitting comments. Documents and other information the applicants have submitted with this application are available for review, subject to the requirements of the Privacy Act (5 U.S.C. 552a) and Freedom of Information Act (5 U.S.C. 552).
