Background: In September 2011, President Barack Obama announced the United States' commitment to participate in the Extractive Industries Transparency Initiative. Implementing EITI is a signature initiative of the U.S. National Action Plans for an Open Government Partnership. EITI offers a voluntary framework for companies and governments to publicly disclose in parallel the revenues paid and received for extraction of oil, gas, and minerals. The design of each framework is country-specific and is developed through a multi-year, consensus-based process by a multi-stakeholder group comprised of government, industry, and civil society representatives. President Obama named the Secretary of the

Interior the U.S. Senior Official responsible for implementing USEITI. The U.S. achieved Candidate Country status on March 14, 2014. USEITI published its First Annual Report on December 16, 2015. For further information on EITI, please visit the USEITI Web page at <http://www.doi.gov/EITI>.
