Abstract: This renewal supports activities to implement the National Oil and Hazardous Substances Pollution Contingency Plan (NCP), subpart J (40 CFR 300.900, "Use of Dispersants and Other Chemicals"). The use of bioremediation agents, dispersants, surface washing agents, surface collecting agents and miscellaneous oil spill control agents in response to oil

spills in U.S. waters or adjoining shorelines is governed by subpart J of the NCP regulation (40 CFR 300.900). Subpart J requirements include criteria for listing oil spill mitigating agents on the NCP Product Schedule. EPA's regulation, which is codified at 40 CFR 300.00, requires that EPA prepare a schedule of "dispersants, other chemicals, and other spill mitigating devices and substances, if any, that may be used in carrying out the NCP." The Schedule is required by section 311(d)(2)(G) of the Clean Water Act (CWA), as amended by the Oil Pollution Act of 1990. The Schedule is used by Federal On-Scene Coordinators (FOSCs), Regional Response Teams (RRTs), and Area Planners to identify spill mitigating agents in preparation for and response to oil spills. Under subpart J, respondents who want to add a product to the Schedule must submit technical product data to EPA as stipulated in 40 CFR 300.915. Specifically, Subpart J requires the manufacturer to conduct specific toxicity and effectiveness tests and submit the corresponding technical product data along with other detailed information to EPA's Office of Emergency Management, Office of Land and Emergency Management.

Form Numbers: None.

Respondents/affected entities: Manufacturers of bioremediation agents, dispersants, surface collecting agents, surface washing agents, and other chemical agents.

Respondent's obligation to respond: Required to obtain or retain benefits (40 CFR 300.900).

Estimated number of respondents: 21.

Frequency of response: Once.

Total estimated burden: 315 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$89,590 (per year), which includes \$72,450 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is no change of hours in the total estimated respondent burden compared with the ICR currently approved by OMB. All regulatory requirements remain the same as in the previous ICRs for the 1994 subpart J Rule.

Director, Regulatory Support Division.
