Type of Request: Revision of a currently approved information collection.

Respondent Obligation: Required to obtain or retain benefits.

Frequency of Collection: Annually and monthly.

Description of Respondents: State, Local, Tribal Government; and Private Industry.

Estimated Total Number of Annual Responses: We estimate 280 responses will be covered under this collection that includes the initial responses, the monthly, and final reports from the awarded. 75 of these reports will come from Private Industry and 205 reports from State, Local and Tribal Governments.

Estimated Time per Response: The U.S. Geological Survey (USGS) foresees 61 hours of time will be needed to complete the necessary submissions which will include the narrative and supporting documentation. We believe that reading the requirements as well as development, proposal writing, reviewing and submission of the proposal application via *Grants.gov* will require 61 hours per applicant. Monthly and final project reports must be submitted by the award recipient. The prior month's progress must be submitted within the report 7 days following the start of the new month. The monthly report will take at least 1 hour to prepare. The final report must be submitted within 90 calendar days of the end of the project period. USGS estimates that approximately 20 hours will be needed to complete the final report.

Estimated Annual Burden Hours: When calculating the total number of hours that will be used including State, local, tribal and private respondents 3060 hours will be needed.
