SUPPLEMENTARY INFORMATION:

A. Background

For additional information on the TRICARE co-pay waiver demonstration at the Captain James A. Lovell Federal Health Care Center (FHCC) demonstration project, please see 75 FR 59237–59238. Under this demonstration, there would be no deductibles, cost shares, or co-pays for eligible beneficiaries seeking care at the FHCC, under the authority of 10 U.S.C. 1092(a)(1)(B). The original demonstration notice explained that the co-pay waiver demonstration would be used to determine if increased utilization at FHCC actually occurred as a result of eliminated co-payments, which would in turn influence decisions regarding financial integration at future Department of Defense (DoD)/ Department of Veterans Affairs (VA) models of this nature. A report on the demonstration project concluded that utilization increased at FHCC during the time of the co-pay waiver demonstration project. Admission and encounter utilization data from 2010 to 2014 shows that DoD utilization of FHCC increased by 10,295. This demonstration is integral to the success of the integration effort at FHCC; without it, FHCC would see a marked reduction in DoD beneficiaries.

B. Description of Extension of Demonstration Project

Under this demonstration, DoD has waived TRICARE co-payments for DoD beneficiaries seen at the FHCC. The National Defense Authorization Act (NDAA) for fiscal year (FY) 2010 Section 1701 requires a report to Congress evaluating the exercise of authorities in that title at FHCC. That report was delivered on July 26, 2016, and recommends continuation of the FHCC demonstration project. If Congress agrees, it is likely Congress will clarify that access to care under section 1705 should apply to the entire joint facility and not be limited to the DoD assets within the facility. If so, that will negate the requirement for further

extensions to the TRICARE co-pay waiver demonstration project beyond FY17.

In order to allow seamless continuation of services to DoD beneficiaries at FHCC, the TRICARE co-pay waiver is extended through September 30, 2018. This waiver applies to all inpatient, outpatient, and ancillary services, and all outpatient prescription drugs provided at FHCC. This waiver is consistent with current policies and procedures followed at all military treatment facilities. According to an Independent Government Cost Estimate (IGCE), the estimated two-year impact for the co-pay waiver in FY2017 and FY2018 is \$246,499.

C. Evaluation

An independent evaluation was performed and determined that without this waiver, DoD beneficiary utilization of the FHCC in North Chicago would have significantly decreased. Since DoD and VA have recommended to Congress to continue the demonstration project, a permanent solution regarding DoD beneficiary co-pays is expected to be in place for FY18 and will ensure that DoD beneficiaries are not levied cost shares, as FHCC represents the former Naval Hospital Great Lakes.

SUPPLEMENTARY INFORMATION: Section 427A of the HEA, provides formulas for determining the interest rates charged to borrowers on loans made under the Federal Family Education Loan (FFEL) Program, including Federal Subsidized and Unsubsidized Stafford Loans, Federal PLUS Loans, and Federal Consolidation Loans.

The FFEL Program includes loans with variable interest rates and loans with fixed interest rates. Most loans made under the FFEL Program before July 1, 2006, have variable interest rates that change each year. In most cases, the variable interest rate formula that applies to a particular loan depends on the date of the first disbursement of the loan. The variable rates are determined annually and are effective for each 12-month period beginning July 1 of one year and ending June 30 of the following year.

Under section 427A(l) of the HEA, FFEL Program loans first disbursed on or after July 1, 2006, and before July 1, 2010, have a fixed interest rate. The Chief Operating Officer is discontinuing providing the fixed interest rates for FFEL Program loans first disbursed on or after July 1, 2006 and before July 1, 2010. Interest rates for these loans may be found in a **Federal Register** notice published on September 15, 2015 (80 FR 55342).

Federal Consolidation Loans made prior to November 13, 1997, and on or after October 1, 1998, have a fixed interest rate that is based on the weighted average of the loans that are consolidated.

Interest rates for Federal Consolidation Loans made between November 13, 1997 and September 30, 1998 are provided in Chart 3.

FFEL variable interest rates are based on formulas that use the bond equivalent rate of the 91-day Treasury bills auctioned at the final auction held before June 1 of each year plus a statutorily established add-on. These formulas apply to: All Federal Subsidized and Unsubsidized Stafford Loans first disbursed before October 1, 1992, that have been converted to variable rate loans; all Federal

Subsidized and Unsubsidized Stafford Loans first disbursed on or after October 1, 1992, and before July 1, 2006; Federal PLUS Loans first disbursed on or after July 1, 1998, and before July 1, 2006; and Federal Consolidation Loans for which the Federal Consolidation Loan application was received on or after November 13, 1997, and before October 1, 1998. In each case, the calculated rate is capped by a maximum interest rate. The bond equivalent rate of the 91-day Treasury bills auctioned on May 31, 2016, which is used to calculate the interest rates on these loans, is 0.345 rounded up to 0.35 percent.

For Federal PLUS loans first disbursed before July 1, 1998, the interest rate is based on the weekly average of the one-year constant maturity Treasury yield, as published by the Board of Governors of the Federal Reserve System on the last day of the calendar week ending on or before June 26 of each year, plus a statutory add-on percentage. The calculated rate is capped by a maximum interest rate. The weekly average of the one-year constant maturity Treasury yield published on June 27, 2016, which is used to calculate the interest rate on these loans, is 0.55 percent.

This notice includes three charts containing specific information on the calculation of variable interest rates for loans made under the FFEL Program:

Chart 1 contains information on the interest rates for Federal Subsidized and Unsubsidized Stafford Loans that were made as fixed-rate loans, but were subsequently converted to variable-rate loans.

Chart 3 contains information on the interest rates for variable-rate Federal PLUS Loans, certain Federal Consolidation Loans, and Consolidation Loans that include loans made by the U.S. Department of Health and Human Services under subpart I of part A of title VII of the Public Health Service Act.
