

with the protection of investors and the public interest, it has become effective pursuant to Section 19(b)(3)(A) of the Act and Rule 19b-4(f)(6) thereunder.¹⁶

A proposed rule change filed under Rule 19b-4(f)(6)¹⁷ normally does not become operative prior to 30 days after the date of the filing. However, pursuant to Rule 19b-4(f)(6)(iii),¹⁸ the Commission may designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has asked the Commission to waive the 30-day operative delay to make ARC risk management protections immediately available to all Members. While IEX has proposed certain clarifying changes to Rule 11.380 that do not materially alter the scope of the rule, the primary material change extends the rule beyond clearing brokers and makes the ARC optionally available to any Member. IEX has represented above that, if an IEX Member elects to use the ARC, IEX will inform that Member if its clearing firm also set ARC limits for the Member, in which case IEX would apply the lower limit. The Commission believes that extending the ARC functionality to all Members will provide them with an additional tool that can be used as part of a Member's approach to risk management, which may promote the maintenance of fair and orderly markets. For this reason, the Commission believes that waiver of the operative delay is consistent with the protection of investors and the public interest. Accordingly, the Commission hereby waives the operative delay and designates the proposed rule change operative upon filing.¹⁹

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings

under Section 19(b)(2)(B)²⁰ of the Act to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include File Number SR-IEX-2016-15 on the subject line.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-78950; File No. SR-MIAX-2016-33]

Self-Regulatory Organizations; Miami International Securities Exchange LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Amend Its Fee Schedule

September 27, 2016.

Pursuant to the provisions of Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”) ¹ and Rule 19b-4 thereunder,² notice is hereby given that on September 15, 2016, Miami International Securities Exchange LLC (“MIAX” or “Exchange”) filed with the Securities and Exchange Commission (“Commission”) a proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit

comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange is filing a proposal to amend the MIAX Options Fee Schedule (the “Fee Schedule”). While changes to the Fee Schedule pursuant to this proposal are effective upon filing, the Exchange has designated these changes to be operative on October 1, 2016.

The text of the proposed rule change is available on the Exchange’s Web site at http://www.miaxoptions.com/filter/wotitle/rule_filing, at MIAX’s principal office, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend the MIAX Options Fee Schedule (the “Fee Schedule”) to offer two (2) additional Limited Service MIAX Express Interface (“MEI”) Ports to Market Makers.

Currently, MIAX assesses monthly MEI Port Fees on Market Makers based upon the number of MIAX matching engines ³ used by the Market Maker. Market Makers are allocated two (2) Full Service MEI Ports ⁴ and two (2) Limited

Service MEI Ports ⁵ per matching engine to which they connect. The Exchange currently assesses the following MEI Port fees: (i) \$5,000 for Market Maker Assignments in up to 5 option classes or up to 10% of option classes by volume; (ii) \$10,000 for Market Maker Assignments in up to 10 option classes or up to 20% of option classes by volume; (iii) \$14,000 for Market Maker Assignments in up to 40 option classes or up to 35% of option classes by volume; (iv) \$17,500 for Market Maker Assignments in up to 100 option classes or up to 50% of option classes by volume; and (v) \$20,500.00 for Market Maker Assignments in over 100 option classes or over 50% of option classes by volume up to all option classes listed on MIAX.⁶ In each of the foregoing categories, the stated fee applies if the less of the two applicable measurements is met. For example, a Market Maker that wishes to make markets in just one symbol would require the two (2) MEI Ports in a single matching engine; a Market Maker wishing to make markets in all symbols traded on MIAX would require the two (2) MEI Ports in each of the Exchange’s matching engines. The Exchange also currently charges \$50 per month for each additional Limited Service MEI Port per matching engine for Market Makers over and above the two (2) Limited Service MEI Ports per matching engine that are allocated with the Full Service MEI Ports. The Full Service MEI Ports, Limited Service MEI Ports, and the additional Limited Service MEI Ports all include access to MIAX’s primary and secondary data centers and its disaster recovery center.

The Exchange originally added the Limited Service MEI Ports to enhance the MEI Port connectivity made available to Market Makers, and subsequently made additional Limited Service MEI Ports available to Market Makers.⁷ Limited Service MEI Ports have been well received by Market Makers since their addition. The Exchange now proposes to offer to Market Makers the ability to purchase an additional two (2) Limited Service MEI Ports per matching engine over and

Makers are limited to two Full Service MEI Ports per matching engine.

⁵ Limited Service MEI Ports provide Market Makers with the ability to send eQuotes and quote purge messages only, but not Market Maker Quotes, to the MIAX System. Limited Service MEI Ports are also capable of receiving administrative information. Market Makers initially receive two Limited Service MEI Ports per matching engine.

⁶ See Securities Exchange Act Release No. 34-77976 (June 2, 2016), 81 FR 36981.

⁷ In Amendment No. 2 the Exchange proposed that Rebroadcasting Users and Transmittal Users would not be charged for their first two Multicast End Users and Unicast End Users, respectively, and offers additional support for the proposal. Amendment No. 2 was noticed in the Commission’s Order Instituting Proceedings and is also available on the Commission’s Web site at <https://www.sec.gov/comments/sr-nyse-2016-11/nyse201611-4.pdf>.

³ A “matching engine” is a part of the MIAX electronic system that processes options quotes and trades on a symbol-by-symbol basis. Some matching engines will process option classes with multiple root symbols, and other matching engines will be dedicated to one single option root symbol (for example, options on SPY will be processed by one single matching engine that is dedicated only to SPY). A particular root symbol may only be assigned to a single designated matching engine. A particular root symbol may not be assigned to multiple matching engines.

⁴ Full Service MEI Ports provide Market Makers with the ability to send Market Maker quotes, eQuotes, and quote purge messages to the MIAX System. Full Service MEI Ports are also capable of receiving administrative information. Market
