(a) Financial records are stored at the FCC's facility for two years; then

(b) Financial records are transferred for to an authorized FCC contractor for off-site storage for the duration of the required records retention schedule period, *i.e.*, four years and three months.

2. The records are then transferred to the National Archives and Records Administration's (NARA) Federal Records Center and destroyed by shredding when 6 years and 3 months old. Electronic records are destroyed physically (electronic storage media) or by electronic erasure. Paper records are destroyed by shredding.

3. (a) The match reports from the Drug Debarment database list are retained by the FCC for only as long as it is necessary to obtain the debarment entry information and corresponding application for manual confirmation of the match. Thereafter, the paper match reports are shredded. The electronic data are destroyed by electronic erasure.

- (b) However, periodically, a match report will be randomly retained for a period of an additional 90 to 120 days to provide a quality check of the verification process. Where the verification process establishes that a match does not indicate that the applicant has been denied Federal benefits under section 5301, the debarment entry information used in that determination is retained by the FCC for 30 days after the application has cleared the debarment check.
- (c) The debarment entry information relating to match reports that is retained for quality control purposes is retained until that quality check is completed. Where a match is confirmed by the manual verification process, the debarment entry information is retained for a period of at least 90 days after the date of the letter referred to above. If the

application contests the determination that a section 5301 denial of Federal benefits bars a grant of the application, the debarment entry information is retained until such time as the FCC's action on the application is no longer subject to review in any court.
