

ADDRESSES: Commenters can submit remarks electronically at www.regulations.gov by entering the title of this Notice into the search field and following the prompts. The Department will accept comments by mail at the following address: Borrego Project Manager, Office of Environmental Quality and Transboundary Issues (OES/EQT), Room 2726, U.S. Department of State, 2201 C Street NW., Washington, DC 20520. All comments from agencies or organizations should indicate a contact person for the agency or organization.

SUPPLEMENTARY INFORMATION:

Project Description

Borrego submitted an application on August 12, 2016 for a new Presidential Permit under E.O. 13337 to authorize the construction, connection, operation, and maintenance of pipeline facilities at the United States-Mexico border for the export of refined petroleum products, including but not limited to gasoline, ultra-low sulfur diesel (ULSD), and jet fuel. The requested Presidential Permit, if issued, would authorize an approximately 0.25-mile segment of 20-inch pipeline from the first check meter station near 27°38'42.28" N., 99°36'13.62" W. to the United States-Mexico border at a location approximately 9.2 miles northwest of Laredo, Texas. However, consistent with NEPA, the Department's EA will analyze environmental effects associated with the entire U.S. portion of the proposed pipeline. In the United States, the Borrego Pipeline would consist of approximately 13 miles of new pipeline (0.25 miles of 20-inch pipeline at the border segment and 12.9 miles of 16-inch pipeline from a terminal in Laredo, Texas to the border segment). The Borrego Pipeline would have the design capacity to transport approximately 150,000 barrels per day (bpd) of refined petroleum products.

Environmental Effects

The environmental review will describe the potential environmental impacts of the proposed action; any adverse environmental impacts that cannot be avoided should the proposal be implemented; the reasonable alternatives to the proposed action and a no action alternative; comparison between short-term and long-term impacts on the environment; any irreversible and irretrievable commitments of natural, physical or other resources that would occur if the proposed action is implemented; and any proposed mitigation measures if needed. The analysis will focus on air quality, biological resources, cultural

resources, geology and soils, greenhouse gas emissions, hazards and hazardous materials, potential accidents and spills, hydrology and water quality, noise, socioeconomic, environmental justice, transportation, and any other relevant topics that arise during scoping.

Scoping Period

The Department invites the public, governmental agencies, tribal governments and all other interested parties to comment on the scope of the EA. All such comments should be provided in writing, within thirty (30) days of the publication of this notice, at the **ADDRESSES** listed above.

FOR FURTHER INFORMATION CONTACT: For information contact the Borrego Project Manager at the address listed in **ADDRESSES**, by email at BorregoReview@state.gov or by fax at (202) 647-5947. Information on the proposed project details, Presidential Permit application, status of the environmental review, etc. may be found at: <http://www.state.gov/e/enr/applicant/applicants/borregopipeline/index.htm>.

Dated: October 3, 2016.

Barton Putney,

Director, Office of Environmental Quality and Transboundary Issues, Department of State.

SURFACE TRANSPORTATION BOARD

30-Day Notice of Intent To Seek Extension of Approval: System Diagram Maps

ACTION: Notice and request for comments.

AGENCY: Surface Transportation Board.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995, 44 U.S.C. 3501-3521 (PRA), the Surface Transportation Board (STB or Board) gives notice that it is requesting from the Office of Management and Budget (OMB) approval of an extension for the collection of system diagram maps, which is further described below. The Board previously published a notice about this collection in the **Federal Register**. 81 FR 26,304 (May 2, 2016). That notice allowed for a 60-day public review and comment period. No comments were received.

DATES: Comments on this information collection should be submitted by November 14, 2016.

ADDRESSES: Written comments should be identified as "Paperwork Reduction

Act Comments, Surface Transportation Board: System Diagram Maps." These comments should be directed to the Office of Management and Budget, Office of Information and Regulatory Affairs, Attention: Chandana L. Achanta, Surface Transportation Board Desk Officer, by email at OIRA.SUBMISSION@OMB.EOP.GOV; by fax at (202) 395-6974; or by mail to Room 10235, 725 17th Street NW., Washington, DC 20503. Please also direct comments to Chris Oehrle, Surface Transportation Board, 395 E Street SW., Washington, DC 20423-0001, or to PRA@stb.gov.

FOR FURTHER INFORMATION CONTACT: For further information regarding this collection, contact Pedro Ramirez at (202) 245-0333 or at pedro.ramirez@stb.gov. [Assistance for the hearing impaired is available through the Federal Information Relay Service (FIRS) at 1-800-877-8339.]

SUPPLEMENTARY INFORMATION: Comments are requested concerning: (1) The accuracy of the Board's burden estimates; (2) ways to enhance the quality, utility, and clarity of the information collected; (3) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology, when appropriate; and (4) whether the collection of information is necessary for the proper performance of the functions of the Board, including whether the collection has practical utility. Submitted comments will be summarized and included in the Board's request for OMB approval.

Description of Collection

Title: System Diagram Maps (or, in the case of Class III carriers, an alternative narrative description of their rail systems).

OMB Control Number: 2140-0003.

Form Number: None.

Type of Review: Extension without change.

Respondents: Common carrier freight railroads that are either new or reporting changes in the status of one or more of their rail lines.

Number of Respondents: One.

Estimated Time per Response: 7.1 hours, based on average time reported in informal survey of respondents (less than 10).

Frequency of Response: On occasion.

Total Annual Burden Hours: 7.1 hours.

Total "Non-hour Burden" Cost: None identified. Filings are submitted electronically to the Board.

Needs and Uses: Under 49 CFR 1152.10–1152.13, all railroads subject to the Board's jurisdiction are required to keep current system diagram maps on file, or alternatively, in the case of a Class III carrier (a carrier with assets of not more than \$38,060,384 in 2014 dollars), to submit the same information in narrative form. The information sought in this collection identifies lines in a particular railroad's system, categorized to indicate the likelihood that service on a particular line will be abandoned and/or whether service on a line is currently provided under the financial assistance provisions of 49 U.S.C. 10904. Carriers are obligated to amend these maps as the need to change the category of any particular line arises.

Under the PRA, a federal agency that conducts or sponsors a collection of information must display a currently valid OMB control number. A collection of information, which is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c), includes agency requirements that persons submit reports, keep records, or provide information to the agency, third parties, or the public. Under section 3507(b) of the PRA, federal agencies are required to provide, prior to an agency's submitting a collection to OMB for approval, a 30-day notice and comment period through publication in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information.

Dated: October 6, 2016.

Brendetta S. Jones,
Clearance Clerk.

SURFACE TRANSPORTATION BOARD

30-Day Notice of Intent To Seek Extension of Approval: Rail Depreciation Studies

ACTION: Notice and request for comments.

AGENCY: Surface Transportation Board.

SUMMARY: As required by the Paperwork Reduction Act of 1995, 44 U.S.C. 3501–3521 (PRA), the Surface Transportation Board (STB or Board) gives notice of its intent to seek approval from the Office of Management and Budget (OMB) for an extension of the collection of Rail Depreciation Studies. This information collection is described in detail below. The Board previously published a notice about this collection in the **Federal Register**, 81 FR 26,304 (May 2, 2016). That notice allowed for a 60-day

public review and comment period. No comments were received.

DATES: Comments on this information collection should be submitted by November 14, 2016.

ADDRESSES: Written comments should be identified as “Paperwork Reduction Act Comments, Surface Transportation Board: Rail Depreciation Studies.” These comments should be directed to the Office of Management and Budget, Office of Information and Regulatory Affairs, Attention: Chandana L. Achanta, Surface Transportation Board Desk Officer, by email at OIRA.SUBMISSION@OMB.EOP.GOV; by fax at (202) 395–6974; or by mail to Room 10235, 725 17th Street NW., Washington, DC 20503. Please also direct comments to Chris Oehrle, Surface Transportation Board, 395 E Street SW., Washington, DC 20423–0001, or to PRA@stb.gov.

FOR FURTHER INFORMATION CONTACT: For further information regarding this collection, contact Michael Higgins, Deputy Director, Office of Public Assistance, Governmental Affairs, and Compliance at (202) 245–0284 or at higginsm@stb.gov. [Assistance for the hearing impaired is available through the Federal Information Relay Service (FIRS) at 1–800–877–8339.]

SUPPLEMENTARY INFORMATION: Comments are requested concerning: (1) The accuracy of the Board's burden estimates; (2) ways to enhance the quality, utility, and clarity of the information collected; (3) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology when appropriate; and (4) whether the collection of information is necessary for the proper performance of the functions of the Board, including whether the collection has practical utility. Submitted comments will be summarized and included in the Board's request for OMB approval.

Description of Collection

Title: Rail Depreciation Studies.

OMB Control Number: 2140–0028.

STB Form Number: None.

Type of Review: Extension with change.

Respondents: Class 1 railroads.

Number of Respondents: Seven.

Frequency: On occasion. (Under 49 CFR part 1201, 4–1 to 4–4, the Board requires all Class 1 (large) carriers to submit rail depreciation studies no less than every three years for equipment property and every six years for road and track property. That means that for

any given six-year period the Class 1 railroads have to submit no less than three depreciation reports or the equivalent of 0.5 depreciation reports per year.)

Total Burden Hours: 3,500 hours (500 hours × 7 Class 1 railroads).

Total Annual “Non-hour Burden” Cost: Approximately \$262,500 per year. Board staff estimates that each study will cost between \$50,000 and \$100,000, which equals a cost of approximately \$25,000–\$50,000 per year. Using an average cost (\$37,500 per year × 7 Class 1 railroads), the non-hour burden cost is estimated to be approximately \$262,500 per year.

Needs and Uses: Under 49 CFR part 1201, 4–1 to 4–4, the Board is required to identify those classes of property for which rail carriers may include depreciation charges under operating expenses, and the Board must also prescribe a rate of depreciation that may be charged to those classes of property. Pursuant to the Board's authority under 49 U.S.C. 11145, Class 1 rail carriers are required to submit Rail Depreciation Studies to the Board. Information in these studies is not available from any other source. The Board uses the information in these studies to prescribe depreciation rates. These depreciation rate prescriptions state the period for which the depreciation rates therein are applicable. Class 1 railroads apply the prescribed depreciation rates to their investment base to determine monthly and annual depreciation expense. This expense is included in the railroads' operating expenses, which are reported in their R–1 reports (OMB Control Number 2140–0009). Operating expenses are used to develop operating costs for application in various proceedings before the Board, such as in rate reasonableness cases and in the determination of railroad revenue adequacy.

Under the PRA, a Federal agency conducting or sponsoring a collection of information must display a currently valid OMB control number. A collection of information, which is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c), includes agency requirements that persons submit reports, keep records, or provide information to the agency, third parties, or the public. Section 3507(b) of the PRA requires, concurrent with an agency's submitting a collection to OMB for approval, a 30-day notice and comment period through publication in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information.
