II. Discussion

The NRC is issuing for public comment a draft plant-specific Supplement 57 to the GEIS for License Renewal of Nuclear Plants, NUREG–1437, regarding the renewal of operating licenses NPF–11 and NPF–18 for an additional 20 years of operation for LSCS. Supplement 57 to the GEIS includes the preliminary analysis that evaluates the environmental impacts of the proposed action and alternatives to the proposed action. The NRC’s preliminary recommendation is that the adverse environmental impacts of license renewal for LSCS are not great enough to deny the option of license renewal for energy-planning decisionmakers.

III. Public Meeting

The NRC staff will hold a public meeting prior to the close of the public comment period to present an overview of the draft plant-specific supplement to the GEIS and to accept public comment on the document. The meeting will be held at the LaSalle County, Emergency Operations Center, 711 East Etna Road, Ottawa, Illinois 61350, on Tuesday, March 22, 2016. The meeting will convene at 7:00 p.m. and will continue until 9:00 p.m., as necessary. The meeting will be transcribed and will include: (1) A presentation of the contents of the draft plant-specific supplement to the GEIS; and (2) the opportunity for interested government agencies, organizations, and individuals to provide comments on the draft report. To be considered in the final supplement to the GEIS, comments must be provided either at the transcribed public meeting or submitted in writing by the comment deadline identified above. Persons may pre-register to attend or present oral comments at the meeting by contacting Mr. David Drucker, the NRC Project Manager, at 1–800–368–5642, extension 6223, or by email at David.Drucker@nrc.gov no later than Tuesday, March

15, 2016. Members of the public may also register to provide oral comments within 15 minutes before the start of the meeting. Individual oral comments may be limited by the time available, depending on the number of persons who register. If special equipment or accommodations are needed to attend or present information at the public meeting, the need should be brought to Mr. Drucker's attention no later than Tuesday, March 15, 2016, to provide the NRC staff adequate notice to determine whether the request can be accommodated.

Dated at Rockville, Maryland, this 8 day of February, 2016

For The Nuclear Regulatory Commission.
