

on the basis for exemption determination, please refer to section IV of the August 29, 2016 notice (81 FR 59266). Deb Carlson stated that the state of Minnesota has no concerns with issuing George R. Morehouse an exemption. Additionally, Ms. Carlson noted that Curtis L. Shannon has held a CDL since April 25, 2015. FMCSA does not require drivers to hold a CDL and instead looks at each individual's experience driving CMVs, as defined in part FR 390.5 in the Federal Motor Carrier Safety Regulations, and any crashes and moving violations in their driving history. For additional information on the basis for exemption determination, please refer to section II, section III, and section IV of the August 29, 2016, notice (81 FR 59266).

IV. Conclusion

Based upon its evaluation of the 18 exemption applications, FMCSA exempts the following drivers from the vision requirement in 49 CFR 391.41(b)(10), subject to the requirements cited above 49 CFR 391.64(b):

Gregory M. Anderson (NY)
 Richard D. Auger (CA)
 Theodore N. Belcher (VA)
 Darrin E. Bogert (NY)
 Michael S. Buck (IN)
 Jose D. Chavez (MD)
 Philip J. Clements (WI)
 Alfonso P. Echevarria (GA)
 Samuel R. Graziano (PA)
 Zagar E. Melvin (GA)
 George R. Morehouse (MN)
 Robert H. Nelson, III (VA)
 Salvador Sanchez (CA)
 Randal J. Shabloski (PA)
 Curtis L. Shannon (MN)
 Ricardo N. Vargas (CA)
 Johnny Watson (GA)
 Harold F. White, Jr. (SC)

In accordance with 49 U.S.C. 31136(e) and 31315, each exemption will be valid for 2 years unless revoked earlier by FMCSA. The exemption will be revoked if: (1) The person fails to comply with the terms and conditions of the exemption; (2) the exemption has resulted in a lower level of safety than was maintained before it was granted; or (3) continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136 and 31315.

If the exemption is still effective at the end of the 2-year period, the person may apply to FMCSA for a renewal under procedures in effect at that time.

Issued on: October 18, 2016.

Larry W. Minor,

Associate Administrator for Policy.

[Docket No. FRA-2016-0002-N-24]

Proposed Agency Information Collection Activities; Comment Request

AGENCY: Federal Railroad Administration (FRA), U.S. Department of Transportation.

ACTION: Notice and request for comments.

SUMMARY: Under the Paperwork Reduction Act of 1995 (PRA) and its implementing regulations, FRA seeks approval of proposed information collection activities listed below. Before submitting these information collection requests (ICRs) to the Office of Management and Budget (OMB) for approval, FRA is soliciting public comment on specific aspects of the activities, which are identified in this notice.

DATES: Comments must be received no later than December 27, 2016.

ADDRESSES: Submit written comments on any or all of the following proposed activities by mail to either: Mr. Robert Brogan, Information Collection Clearance Officer, Office of Railroad Safety, Regulatory Analysis Division, Federal Railroad Administration, RRS-21, 1200 New Jersey Avenue SE., Mail Stop 25, Washington, DC 20590; or Ms. Kim Toone, Information Collection Clearance Officer, Office of Information Technology, RAD-20, Federal Railroad Administration, 1200 New Jersey Avenue SE., Mail Stop 35, Washington, DC 20590. Commenters requesting FRA to acknowledge receipt of their respective comments must include a self-addressed stamped postcard stating, "Comments on OMB Control Number 2130-New." Alternatively, comments may be faxed to (202) 493-6216 or (202) 493-6497, or emailed to Mr. Brogan at Robert.Brogan@dot.gov, or Ms. Toone at Kim.Toone@dot.gov. Please refer to the assigned OMB control number in any correspondence submitted. FRA will summarize comments received in response to this notice in a subsequent notice and include them in its information collection submission to OMB for approval.

FOR FURTHER INFORMATION CONTACT: Mr. Robert Brogan, Information Collection Clearance Officer, Office of Railroad Safety, Regulatory Safety Analysis Division, RRS-21, Federal Railroad Administration, 1200 New Jersey Avenue SE., Mail Stop 25, Washington, DC 20590 (telephone: (202) 493-6292)

or Ms. Kim Toone, Information Collection Clearance Officer, Office of Information Technology, RAD-20, Federal Railroad Administration, 1200 New Jersey Avenue SE., Mail Stop 35, Washington, DC 20590 (telephone: (202) 493-6132). (These telephone numbers are not toll free.)

SUPPLEMENTARY INFORMATION: The PRA, 44 U.S.C. 3501-3520, and its implementing regulations, 5 CFR part 1320, require Federal agencies to provide 60-days' notice to the public to allow comment on information collection activities before seeking OMB approval to implement them. 44 U.S.C. 3506(c)(2)(A); 5 CFR 1320.8(d)(1), 1320.10(e)(1), 1320.12(a). Specifically, FRA invites interested respondents to comment on the following summary of proposed information collection activities regarding: (1) Whether the information collection activities are necessary for FRA to properly execute its functions, including whether the activities will have practical utility; (2) the accuracy of FRA's estimates of the burden of the information collection activities, including the validity of the methodology and assumptions used to determine the estimates; (3) ways for FRA to enhance the quality, utility, and clarity of the information being collected; and (4) ways for FRA to minimize the burden of information collection activities on the public by automated, electronic, mechanical, or other technological collection techniques and other forms of information technology (e.g., permitting electronic submission of responses). See 44 U.S.C. 3506(c)(2)(A)(i)-(iv); 5 CFR 1320.8(d)(1)(i)-(iv).

FRA believes that soliciting public comment will promote its efforts to reduce the administrative and paperwork burdens associated with the collection of information that Federal regulations mandate. In summary, FRA reasons that comments received will advance three objectives: (1) Reduce reporting burdens; (2) ensure that it organizes information collection requirements in a "user-friendly" format to improve the use of such information; and (3) accurately assess the resources expended to retrieve and produce information requested. See 44 U.S.C. 3501.

Below is a brief summary of currently approved information collection activities that FRA will submit for clearance by OMB as required under the PRA:

Title: Accident/Incident Reporting and Recordkeeping.

OMB Control Number: 2130-0500.

Abstract: The collection of information is due to the railroad

accident reporting regulations in 49 CFR part 225 that require railroads to submit monthly reports summarizing collisions, derailments, and certain other accidents/incidents involving damages above a periodically revised dollar threshold, as well as certain injuries to

passengers, employees, and other persons on railroad property. Because the reporting requirements and the information needed regarding each category of accident/incident are unique, a different form is used for each category.

Title: Railroad Communications.

OMB Control Number: 2130–0524.

Abstract: FRA amended its radio standards and procedures to promote compliance by making the regulations

more flexible; to require wireless communications devices, including radios, for specified classifications of railroad operations and roadway workers; and to retitle this part to reflect its coverage of other means of wireless communications such as cellular telephones, data radio terminals, and other forms of wireless communications to convey emergency and need-to-know

information. The new rule establishes safe, uniform procedures covering the use of radio and other wireless communications within the railroad industry.

Title: Safety Integration Plans.

OMB Control Number: 2130–0557.

Abstract: FRA and the Surface Transportation Board, working in

conjunction with each other, have issued joint final rules establishing procedures for the development and implementation of safety integration plans (SIPs) by a Class I railroad proposing to engage in certain specified merger, consolidation, or acquisition of control transactions with another Class I railroad, or a Class II railroad with

which it proposes to amalgamate operations. The scope of the transactions covered under the two rules is the same. FRA uses the information collected (the required SIPs), to maintain and promote a safe rail environment by ensuring that affected railroads (Class Is and some Class IIs) address critical safety issues

unique to the amalgamation of large, complex railroad operations.

Title: Passenger Train Emergency Systems.

OMB Control Number: 2130–0576.

Abstract: The collection of information is due to passenger train emergency regulations in 49 CFR part 238 to further the safety of passenger train occupants through both enhancements and additions to FRA's existing regulations. In its final rule issued on November 29, 2013 (*see* 78 FR

71785), FRA added requirements for emergency passage through vestibule and other interior passageway doors and enhanced emergency egress and rescue signage requirements. FRA also established requirements for low-location emergency exit path markings to assist occupants in reaching and operating emergency exits, particularly under conditions of limited visibility. Moreover, FRA added standards to ensure emergency lighting systems are provided in all passenger cars and enhanced requirements for the survivability of emergency lighting

systems in new passenger cars. The purpose of this part is to prevent collisions, derailments, and other occurrences involving railroad passenger equipment that cause injury or death to railroad employees, railroad passengers, or the general public and to mitigate the consequences of such occurrences to the extent they cannot be prevented.
