

paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) (44 U.S.C. Sec. 3506(c)(2)(A)). This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed.

Currently, CNCS is soliciting comments concerning its proposed renewal of the National Service Trust Voucher and Payment Request Form/National Service Trust Manual Payment Request Form (OMB #3045-0014); which is used to make payments to repay qualified student loans and to pay for the cost of attending eligible post-secondary educational institutions and approved School-to-Work programs. Prior to making the payments, CNCS will review information from the forms and compare it to information taken from the AmeriCorps members' education award account(s) to ensure that the payments meet the requirements of the law. This information collection is not required to be considered for obtaining grant funding support.

Copies of the information collection request can be obtained by contacting the office listed in the **ADDRESSES** section of this Notice.

**DATES:** Written comments must be submitted to the individual and office listed in the **ADDRESSES** section by April 12, 2016.

**SUPPLEMENTARY INFORMATION:** CNCS is particularly interested in comments that:

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are expected to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g., permitting electronic submissions of responses).

**Background**

CNCS supports programs that provide opportunities for individuals who want to become involved in national service. The service opportunities cover a wide range of activities over varying periods of time. Upon successfully completing an agreed-upon term of service in an approved AmeriCorps program, an AmeriCorps member receives an education award.

The National Service Trust is the office within CNCS that administers the education award program. This involves tracking the service for all AmeriCorps members, ensuring that certain requirements of CNCS enabling legislation are met, and processing school and loan payments that the members authorize both manually and electronically through the MyAmeriCorps portal. With this form AmeriCorps members request Segal Education Award payments, schools and lenders certify their eligibility, and both parties certify certain legal requirements.

**Current Action**

CNCS seeks to renew the current information collection request.

After an AmeriCorps member completes a period of national service, the individual receives an education award that can be used to pay against qualified student loans or pay for

current post-secondary educational expenses. The *National Service Trust Voucher and Payment Request Form/National Service Trust Manual Payment Request Form* is the document that a member uses to access his or her account in the National Service Trust.

The information collection will otherwise be used in the same manner as the existing application. CNCS also seeks to continue using the current application until the revised application is approved by OMB. The current application is due to expire on 03/31/2016.

Transmittal No. 16-05

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology*:

1. Purchaser currently has forty-two (42) MK 15 Phalanx Close-In Weapon Systems (CIWS) Guns of various configurations, including Block 0, Block 1 (Baselines 0, 1 and 2), Block 1A, and Block 1B Baseline 0. Purchaser will be upgrading eight (8) of its lower

configurations as well as procuring thirteen (13) additional systems, all of which will have an end configuration of Block 1B Baseline 2 configuration. The main characteristics of the MK 15 Phalanx Block 1 B Baseline 2 CIWS Gun are:

a. A Radar Upgrade that provides increased sensitivity on sea-skimming threats and improved low-observable performance.

b. A stabilized thermal imager and an automatic acquisition video tracker that were introduced with the Block 1B Baseline 0 configuration. These components provide the capability to engage small, high speed, maneuvering surface craft and low, slow aircraft and helicopters. The thermal imager also improves performance against Anti-Ship Cruise Missiles by carrying out more accurate angle tracking information to the fire control computer. Purchaser has already been provided this capability with the Block 1B Baseline 0 previously procured via an FMS case.

c. The Optimized Gun Barrel that was also introduced with the Block 1 B Baseline 0 and provides improved dispersion performance of the ammunition when the system is fired. This gun barrel also permits use of the MK 244 ammunition, an enhanced lethal cartridge capable of penetrating harder warheads in use today. Purchaser has already been provided this capability with the Block 1 B Baseline 0 previously procured via an FMS case.

2. Although the MK 15 Phalanx Block 1B Baseline 2 CIWS Gun is considered state-of-the-art technology, there is no Critical Program Information associated with the MK 15 Phalanx CIWS hardware, technical documentation, or software. The highest classification of the hardware to be exported is UNCLASSIFIED. The highest classification of the technical documentation to be exported is CONFIDENTIAL; there is only one CONFIDENTIAL technical manual that will be exported, which is required for the operation of the MK 15 Phalanx CIWS. The highest classification of software to be exported is UNCLASSIFIED. The MK 15 Phalanx CIWS meets Anti-Tampering requirements. Only Organizational-Level and Intermediate-Level maintenance capability will be exported. The Maintenance Plan for the MK 15 CIWS limits Intermediate-Level maintenance to the system's Gun and Ammunition Handling System.

3. A determination has been made that the recipient country can provide the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is

necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

4. All defense articles and services listed in this transmittal have been authorized for release and export to the recipient.
