Abstract: The Landfill Methane Outreach Program (LMOP), created by EPA as part of the United States' commitment to reduce greenhouse gas emissions under the United Nations Framework Convention on Climate Change, is a voluntary program designed to encourage and facilitate the development of environmentally and economically sound landfill gas (LFG) energy projects across the United States to reduce methane emissions from landfills. LMOP meets these objectives by educating local governments and communities about the benefits of LFG recovery and use; building partnerships between state agencies, industry, energy service providers, local communities, and other stakeholders interested in developing this valuable resources in their community; and providing tools to evaluate LFG energy potential. LMOP signed voluntary Memoranda of Understanding (MOUs) with these organizations to enlist their support in promoting cost-effective LFG utilization.

The information collection includes completion and submission of the MOU, periodic information updates, and annual completion and submission of basic information on landfill methane projects with which the organizations are involved as an effort to update the LMOP Landfill and Landfill Gas Energy Project Database. The information collection is to be utilized to maintain up-to-date data and information about LMOP Partners and LFG energy projects with which they are involved. The data will also be used by the public to access LFG energy project development opportunities in the United States. In addition, the information collection will assist LMOP in evaluating the reduction of methane emissions from landfills.

Form Numbers: 5900-157, 5900-158, 5900-159, 5900-160, 5900-161, and 5900-162.

Respondents/affected entities: Private companies and municipalities that own or operate landfills; manufacturers and suppliers of equipment/knowledge to capture and utilize LFG; utility companies; end-users of energy from landfills; developers of LFG energy projects; State agencies; and other LFG energy stakeholders.

Respondent's obligation to respond: Voluntary.

Estimated number of respondents: 1,135.

Frequency of response: On occasion.
Total estimated burden: 2,522 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$196,272 (per year), includes \$0 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is a decrease of 1,694 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease is due to revised estimates of respondent participation and attrition.

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-0743]

Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501-3520), the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

DATES: Written PRA comments should be submitted on or before April 12, 2016. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicole Ongele, FCC, via email PRA@fcc.gov and to Nicole.Ongele@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Nicole Ongele at (202) 418-2991.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0743.

Title: Implementation of the Pay Telephone Reclassification and Compensation Provisions of the Telecommunications Act of 1996, CC Docket No. 96-128.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities and state, local and tribal government.

Number of Respondents and Responses: 4,471 respondents; 10,071 responses.

Estimated Time per Response: 11.730414 hours.

Frequency of Response: On occasion, quarterly and monthly reporting requirements, recordkeeping requirement and third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 276 of the Telecommunications Act of 1996, as amended.

Total Annual Burden: 118,137 hours.

Total Annual Cost: No cost.

Privacy Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: The Commission is not requesting that respondents submit confidential information to the FCC. If the Commission requests respondents to submit information which respondents believe is confidential, they may request confidential treatment of such information under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: In CC Docket No. 96–128, the Commission promulgated rules and requirements implementing Section 276 of the Telecommunications Act of 1996. Among other things, the rules (1) Establish fair compensation for every completed intrastate and interstate payphone call; (2) discontinue intrastate and interstate access charge payphone service elements and payments, and intrastate and interstate payphone subsidies from basic exchange services; and (3) adopt guidelines for use by the states in establishing public interest payphones to be located where there would otherwise not be a payphone. The information collected under LEC Provision of Emergency Numbers to Carrier-Payers would be used to ensure that interexchange carriers, payphone service providers (“PSP”) LECs, and the states, comply with their obligations under the 1996 Act.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418–2918.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060–1050.

Title: Section 97.303, Frequency Sharing Requirements.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Individuals or households.

Number of Respondents: 5,000 respondents; 5,000 responses.

Estimated Time per Response: 20 minutes (.33 hours).

Frequency of Response: Recordkeeping requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 151, 154, 301, 302(a) and 303(c), and (f) of the Communications Act of 1934, as amended.

Total Annual Burden: 1,650 hours.

Total Annual Cost: No cost.

Privacy Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: There is no need for confidentiality with this collection.

Needs and Uses: The Commission established a recordkeeping procedure in section 97.303(s) that required that amateur operator licensees using other antennas must maintain in their station records either manufacturer data on the antenna gain or calculations of the antenna gain.

The amateur radio service governed by 47 CFR part 97 of the Commission's rules, provides spectrum for amateur radio service licensees to participate in a voluntary noncommercial communication service which provides emergency communications and allows experimentation with various radio techniques and technologies to further the understanding of radio use and the development of technologies.

The information collection is used to calculate the effective radiated power (ERP) that the station is transmitting to ensure that ERP does not exceed 100 W PEP.
