

Army Corps of Engineers, Alaska District, CEPOA—RD—Gordon, P.O. Box 6898, JBER, AK, 99506-0898; via email at POA.donlingoldeis@usace.army.mil or; at 907-753-5710. Or, Mr. Alan Bittner, Anchorage Field Manager, U.S. Department of Interior, Bureau of Land Management, 907-267-1285.

SUPPLEMENTARY INFORMATION:

Communities in which public meetings and hearings are scheduled are as follows (all communities are in Alaska):

Aniak—January 20, 2016, Crooked Creek—January 21, 2016, Anchorage—January 28, 2016, Bethel—February 1, 2016, Akiak—February 2, 2016, Nunapitchuk—February 3, 2016, Quinhagak—February 16, 2016, McGrath—February 26, 2016, Holy Cross—March 30, 2016, Tyonek—To be determined, Lower Kalskag—To be determined. Please note that no preliminary 810 finding of potential substantial significant restriction of subsistence has been made for Holy Cross. An 810 Hearing will be held due to its proximity to the proposed project and the existing level of subsistence use information (mapping) available.

Communities in which only public meetings are scheduled, as no preliminary 810 finding of potential substantial significant restriction of subsistence has been made, includes (all communities are in Alaska):

Kipnuk—February 17, 2016, St. Mary's—March 1, 2016, Emmonak—March 2, 2016, Toksook Bay—March 15, 2016, Hooper Bay—March 16, 2016.

Any changes to these dates and locations, as well as specific meeting and hearing locations and times in each community can be found at www.donlingoldeis.com.

Dated: December 30, 2015.

Shelia Newman,

Deputy Division Chief, Regulatory Division.

BILLING CODE 3720-58-P

DEPARTMENT OF DEFENSE

Department of the Army, Corps of Engineers

Intent To Prepare an Integrated Draft Feasibility Report and Environmental Impact Statement for Proposed Reallocation of Flood Storage to Water Supply at Wright Patman Lake on the Sulphur River in Cass and Bowie, Counties in Northeast Texas

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Notice of Intent.

SUMMARY: The study is being conducted under the authority contained in the 1958 Water Supply Act (Pub. L. 85-500), Section 301, as amended in 43 United States Code (U.S.C.) 390b and by the River and Harbor Flood Control Act of 1970 (Pub. L. 91-611), as amended, under Section 216 and under guidance provided in ER 1105-2-100. The U.S. Army Corps of Engineers (USACE) will prepare an integrated Draft Feasibility Report and Draft Environmental Impact Statement (EIS) that describes the results of investigations and analyses used to make determinations as to whether and/or what amount of flood storage might be reallocated to water supply to meet the needs of Region C and Region D. The Sulphur River Basin Authority (SRBA) is the non-federal sponsor to study the feasibility of reallocation (converting flood storage to water supply or raising the pool level) while protecting the City of Texarkana's water rights of 180,000 acre-feet (AF) per year. SRBA's sponsorship is for the study only. If reallocation is determined feasible and is pursued, the USACE will require a non-federal sponsor or sponsors for reallocation.

FOR FURTHER INFORMATION CONTACT: For questions regarding the Wright Patman Lake Reallocation Project Draft Feasibility Report, please contact Mr. Jodie Foster, Planning Lead, U.S. Army Corps of Engineers, Regional Planning & Environmental Center, Plan Formulation Section, 819 Taylor Street, Fort Worth, TX 76102, (817) 886-1679, or via email at jodie.foster@usace.army.mil.

For questions regarding the Wright Patman Lake Reallocation Project Draft EIS, please contact Ms. Melinda Fisher, Environmental Lead, U.S. Army Corps of Engineers, Regional Planning & Environmental Center, NEPA & Cultural Resources Section, 1645 S. 101st E. Avenue, Tulsa, OK 74128, (918) 669-7502, or via email at melinda.fisher@usace.army.mil.

SUPPLEMENTARY INFORMATION:

1. *Background.* Wright Patman Lake is a USACE operated reservoir that encompasses approximately 30,000 surface acres of water and has the primary purposes of flood control and water conservation for the communities downstream of the dam. Wright Patman Lake is also a major water supply source for the cities of Texarkana (Texas and Arkansas) and the surrounding area. The City of Texarkana is the non-Federal sponsor for the existing water supply storage in Wright Patman Lake and holds a State of Texas water right for 180,000 acre-feet (AF) per year of raw water for diversion to municipal

and industrial users. International Paper (IP), the largest single water user in the Sulphur River Basin and one of the region's major employers, has a long term contract with TWU for the provision of 118,000 AF of water for its industrial operations.

Operational changes would be required with a reallocation of flood control storage to water supply and would produce effects on upstream and downstream flood patterns, recreational opportunities, water quality, and fish and wildlife habitat. In determining whether to reallocate storage within the reservoir and change operational regimes, the USACE must comply with requirements including but not limited to the Endangered Species Act, the National Environmental Policy Act (NEPA), the National Historic Preservation Act, and the Clean Water Act.

2. *Proposed Action.* The USACE is studying the feasibility of reallocating some flood control storage capacity in Wright Patman Lake for the purpose of water supply. The reallocation is needed to enable the SRBA to provide water to local and regional users for municipal and industrial uses in response to population growth in Region C which includes all or portions of 16 North Central Texas counties and the Dallas-Fort Worth metropolitan area.

3. *Alternatives Considered.* The USACE, working with the SRBA, has identified and conducted preliminary analysis on potential pool increases at Wright Patman Lake for further consideration during the study. These alternatives would consider alternative pool raises above the maximum monthly conservation elevation of Wright Patman Lake operating under the ultimate rule curve. These elevations considered in the preliminary study would be anticipated to have different levels of impacts on upstream and downstream flood patterns, recreational opportunities, water quality, vegetation and fish and wildlife habitat. The USACE's no action alternative would also be considered. Additional alternatives, which could include different storage volumes and varying operational regimes, could also be developed during the scoping and evaluation process.

4. *Scoping/Public Involvement.* The USACE invites all affected Federal, State, and local agencies, affected Native American tribes, and other interested parties to participate in the NEPA process during development of the Draft Feasibility Report/Draft EIS. The public scoping process will provide information about the reallocation study to the public, serve as a mechanism to

solicit agency and public input on alternatives and issues of concern, and ensure full and open participation in scoping and review of the Draft EIS. A public scoping meeting is being planned and will be scheduled in the January–March 2016 timeframe. The specific date and location of the meeting will be announced in news releases issued through the local news media, as well as on the USACE Fort Worth District's Web site under public notices (<http://www.swf.usace.army.mil/>). The meeting will be conducted in an informal setting designed to present information about the reallocation study and to answer questions and accept comments from the public. The USACE invites other Federal agencies, Native American Tribes, State and local agencies and officials, private organizations, and interested individuals to attend the scoping meeting and provide comments. Once completed, the Draft Feasibility Report/Draft EIS will be circulated for public review and comment. The USACE will issue a Notice of Availability in the **Federal Register** announcing the release of the Draft EIS for public comment as well as the date and time of a subsequent public review meeting regarding the Draft EIS through the local news media. Information on the Notice of Intent, Draft Feasibility Report/Draft EIS, public meeting dates and other important information related to the study will be available for review at USACE Web sites.

Eric W. Verwers,

Director, Regional Planning and Environmental Center.

BILLING CODE 3720–58–P

DEPARTMENT OF EDUCATION

[Docket No.: ED–2016–ICCD–0001]

Agency Information Collection Activities; Comment Request; Private School Universe Survey (PSS) June 2016–May 2019

AGENCY: National Center for Education Statistics (NCES), Department of Education (ED).

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 3501 *et seq.*), ED is proposing a revision of an existing information collection.

DATES: Interested persons are invited to submit comments on or before March 7, 2016.

ADDRESSES: To access and review all the documents related to the information

collection listed in this notice, please use <http://www.regulations.gov> by searching the Docket ID number ED–2016–ICCD–0001. Comments submitted in response to this notice should be submitted electronically through the Federal eRulemaking Portal at <http://www.regulations.gov> by selecting the Docket ID number or via postal mail, commercial delivery, or hand delivery. Please note that comments submitted by fax or email and those submitted after the comment period will not be accepted. Written requests for information or comments submitted by postal mail or delivery should be addressed to the Director of the Information Collection Clearance Division, U.S. Department of Education, 400 Maryland Avenue SW., LBJ, Room 2E103, Washington, DC 20202–4537.

FOR FURTHER INFORMATION CONTACT: For specific questions related to collection activities, please contact Kashka Kubzdela at (202) 245–7377.

SUPPLEMENTARY INFORMATION: The Department of Education (ED), in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Private School Universe Survey (PSS) June 2016–May 2019.

OMB Control Number: 1850–0641.

Type of Review: A revision of an existing information collection.

Respondents/Affected Public: Individuals.

Total Estimated Number of Annual Responses: 27,200.

Total Estimated Number of Annual Burden Hours: 10,260.

Abstract: The Private School Universe Survey (PSS) is conducted by the National Center for Education Statistics (NCES) to collect basic information from the universe of private elementary and secondary schools in the United States. The PSS is designed to gather biennial data on the total number of private schools, teachers, and students, along with a variety of related data, including: Religious orientation; grade-levels taught and size of school; length of school year and of school day; total student enrollment by gender (K–12); number of high school graduates; whether a school is single-sexed or coeducational; number of teachers employed; program emphasis; and existence and type of its kindergarten program. The PSS includes all schools that are not supported primarily by public funds, that provide classroom instruction for one or more of grades K–12 or comparable ungraded levels, and that have one or more teachers. No substantive changes have been made to the survey or its procedures since its last approved administration (OMB# 1850–0641 v.6–7). The PSS is also used to create a universe list of private schools for use as a sampling frame for NCES surveys of private schools. This request is to conduct the 2017–18 Private School Universe Survey (PSS) data collection and the 2017–18 and 2019–20 PSS frame-development activities.

Dated: January 4, 2016.

Kate Mullan,

Acting Director, Information Collection Clearance Division, Office of the Chief Privacy Officer, Office of Management.
