

standard of the Eagle Act—providing for stable or increasing breeding populations; (3) the take has been avoided and minimized to the degree achievable through implementation of Advanced Conservation Practices, and the remaining take is unavoidable; and (4) compensatory mitigation will be provided for any remaining take. The Service must determine that the direct and indirect effects of the take and required mitigation, together with the cumulative effects of other permitted take and additional factors affecting eagle populations, are compatible with the preservation of bald eagles and golden eagles.

Decision

The Service's Selected Alternative for our issuance of a programmatic eagle take permit to Alta East contains elements of Alternatives 3, 4 and 5 of the EA. Under the Selected Alternative described in our FONSI, we will issue a 5-year programmatic eagle take permit to Alta X Wind, LLC for take of up to 3 golden eagles requiring implementation of the ECP, curtailment when eagles are detected and additional monitoring and mitigation. The Service has determined that a Finding of No Significant Impact (FONSI) is appropriate for this action. Based on the FONSI and findings prepared associated with the permit application, we intend to issue a permit after 30 days.

Authority

We provide this notice under Section 668a of the Eagle Act (16 U.S.C. 668–668c) and NEPA regulations (40 CFR 1506.6).
