

We estimate the annualized cost to the CPSC of \$954,531 by adding the four categories of work related to the Database summarized in Tables 4 through 7 (Reports of Harm (\$809,243) + MII Claims (\$67,975) + Manufacturer Comments (\$11,835) + Small Batch Identification (\$65,478) = \$954,531).

This information collection renewal request based on an estimated 12,360 burden hours per year for the Database is a decrease of 7,485 hours since this collection of information was last approved by OMB in 2013. The decrease in burden is due primarily to the fact that the number of incoming reports of harm has decreased, and the number of claims based on those reports has decreased as well. While comments did not decline significantly, they did shift to the more efficient online submissions. We note a large increase in small batch manufacturer activity, which has been rising steadily for years. However, this increase was not large enough to offset the decreases in other areas.

Dated: November 3, 2016.

Todd A. Stevenson,

Secretary, Consumer Product Safety Commission.
