

review. The Department intends to issue assessment instructions to CBP 15 days after the publication date of the final results of this review.

For any individually examined respondent whose weighted-average dumping margin is above the *de minimis* threshold (*i.e.*, 0.50 percent), the Department will calculate importer-specific *ad valorem* assessment rates on the basis of the ratio of the total amount of dumping calculated for the importer's examined sales and the total entered value of sales. Where either the respondent's weighted-average dumping margin is zero or *de minimis*, or an importer-specific *ad valorem* assessment rate is zero or *de minimis*, we will instruct CBP to liquidate the appropriate entries without regard to antidumping duties.

In these preliminary results, the Department applied the assessment rate calculation method adopted in *Final Modification for Reviews*, *i.e.*, on the basis of monthly average-to-average comparisons using only the transactions associated with that importer with offsets being provided for non-dumped comparisons.<sup>23</sup>

Pursuant to a refinement in the Department's NME practice, for sales that were not reported in the U.S. sales data submitted by companies individually examined during this review, the Department will instruct CBP to liquidate entries associated with those sales at the rate for the PRC-wide entity. In addition, if the Department determines that an exporter under review had no shipments of the subject merchandise, any suspended entries that entered under that exporter's case number (*i.e.*, at that exporter's cash deposit rate) will be liquidated at the rate for the PRC-wide entity.<sup>24</sup>

### Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of the final results of this administrative review for all shipments of the subject merchandise from the PRC entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided by section 751(a)(2)(C) of the Act: (1) For the company listed above, the cash deposit rate will be established in the final results of this review (except, if the rate

is zero or *de minimis*, then zero cash deposit will be required); (2) for previously investigated or reviewed PRC and non-PRC exporters not listed above that have separate rates, the cash deposit rate will continue to be the exporter-specific rate published for the most recently completed segment of this proceeding in which they were reviewed; (3) for all PRC exporters of subject merchandise that have not been found to be entitled to a separate rate, the cash deposit rate will be equal to the weighted-average dumping margin for the PRC-wide entity (*i.e.*, 187.25 percent); and (4) for all non-PRC exporters of subject merchandise which have not received their own separate rate, the cash deposit rate will be the rate applicable to the PRC exporter(s) that supplied that non-PRC exporter. These cash deposit requirements, when imposed, shall remain in effect until further notice.

### Notification to Importers

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Department's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

### Notification to Interested Parties

This administrative review and notice is issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act, and 19 CFR 351.221(b)(4) and 19 CFR 351.213.

### Certain Carbon and Alloy Steel Cut-To-Length Plate From France: Preliminary Determination of Sales at Less Than Fair Value and Postponement of Final Determination

**AGENCY:** Enforcement and Compliance, International Trade Administration, Department of Commerce.

**SUMMARY:** The Department of Commerce (the Department) preliminarily determines that certain carbon and alloy steel cut-to-length plate (CTL plate) from France is being, or is likely to be, sold in the United States at less than fair value (LTFV). The period of investigation (POI) is April 1, 2015, through March 31, 2016. The estimated weighted-average dumping margins of sales at LTFV are shown in the "Preliminary Determination" section of this notice. Interested parties are invited to comment on this preliminary determination.

**DATES:** Effective November 14, 2016.

### SUPPLEMENTARY INFORMATION:

#### Background

The Department initiated this investigation on April 28, 2016.<sup>1</sup> We selected two mandatory respondents in this investigation, Dillinger France S.A. (Dillinger) and Industeel France S.A. (Industeel). For a complete description of the events that followed the initiation of this investigation, see the memorandum that is dated concurrently

with this determination, and hereby adopted by, this notice.<sup>2</sup> A list of topics in the Preliminary Decision Memorandum is included as Appendix II to this notice.

The Preliminary Decision Memorandum is a public document and is made available to the public via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>, and is available to all parties in the Department's Central Records Unit, Room B8024 of the main Department of Commerce building. In addition, a complete version of the Preliminary Decision Memorandum can be accessed directly on the Internet at <http://enforcement.trade.gov/frn/>. The signed Preliminary Decision Memorandum and the electronic version of the Preliminary Decision Memorandum are identical in content.

### Scope of the Investigation

The product covered by this investigation is CTL plate from France. For a full description of the scope of this investigation, see the "Scope of the Investigation," in Appendix I of this notice.

### Scope Comments

In accordance with the *Preamble* to the Department's regulations,<sup>3</sup> the *Initiation Notice* set aside a period of time for parties to raise issues regarding product coverage, *i.e.*, scope.<sup>4</sup> Certain interested parties commented on the scope of the concurrent CTL plate investigations as it appeared in the *Initiation Notice*. For a summary of the product coverage comments and rebuttal responses submitted to the records of this and the concurrent CTL plate investigations, and a discussion and analysis of all comments timely received, see the Department's Preliminary Scope Decision Memorandum and the Department's Additional Preliminary Scope Decision Memorandum.<sup>5</sup> The Department has

preliminarily modified the scope language as it appeared in the *Initiation Notice* to clarify the exclusion for stainless steel plate, corrected two tariff numbers that were misidentified in the Petitions and in the *Initiation Notice*, and modified language pertaining to existing steel plate and hot-rolled flat-rolled steel orders.<sup>6</sup>

### Methodology

The Department is conducting this investigation in accordance with section 731 of the Act. Export price and, where appropriate, constructed export price are calculated in accordance with section 772 of the Tariff Act of 1930, as amended (the Act). Normal value (NV) is calculated in accordance with section 773 of the Act. For a full description of the methodology underlying our preliminary conclusions, see the Preliminary Decision Memorandum.

### All-Others Rate

Consistent with sections 733(d)(1)(A)(ii) and 735(c)(5) of the Act, the Department also calculated an estimated all-others rate. Section 735(c)(5)(A) of the Act provides that the estimated all-others rate shall be an amount equal to the weighted average of the estimated weighted-average dumping margins established for exporters and producers individually investigated, excluding any zero and *de minimis* margins, and any margins determined entirely under section 776 of the Act.

In this investigation, we cannot apply our normal methodology of calculating a weighted-average margin due to requests to protect business-proprietary information. Therefore, we based our calculation of the all-others rate on the simple average of the margins calculated for Dillinger and Industeel. For further discussion of this calculation, see the

memorandum entitled "Certain Carbon and Alloy Steel Cut-to-Length Plate from France: Calculation of the Preliminary Margin for All Other Companies," dated concurrently with this notice.

### Preliminary Determination

The Department preliminarily determines that CTL plate from France is being, or is likely to be, sold in the United States at LTFV, pursuant to section 733 of the Act, and that the following estimated weighted-average dumping margins exist:

Exporter/Manufacturer	Weighted-average dumping margin (percent)
Dillinger France S.A. ....	12.97
Industeel France S.A. ....	4.26
All Others .....	8.62

### Suspension of Liquidation

In accordance with section 733(d)(2) of the Act, we will direct U.S. Customs and Border Protection (CBP) to suspend liquidation of all entries of subject merchandise from France, as described in Appendix I of this notice, which are entered, or withdrawn from warehouse, for consumption on or after the date of publication of this notice in the **Federal Register**.

Pursuant to section 733(d) of the Act and 19 CFR 351.205(d), we will instruct CBP to require cash deposits<sup>7</sup> equal to the weighted-average amount by which the NV exceeds U.S. price, as indicated in the chart above, as follows: (1) The rate for the mandatory respondents listed above will be the respondent-specific rates we determined in this preliminary determination; (2) if the exporter is not a mandatory respondent identified above, but the producer is, the rate will be the specific rate established for the producer of the subject merchandise; and (3) the rate for all other producers or exporters will be the all-others rate. These suspension of liquidation instructions will remain in effect until further notice.

### Disclosure

We intend to disclose the calculations performed to interested parties in this proceeding within five days of the public announcement of this preliminary determination in accordance with 19 CFR 351.224(b).

## Verification

As provided in section 782(i) of the Act, we intend to verify information relied upon in making our final determination.

## Public Comment

Interested parties are invited to comment on this preliminary determination. Case briefs or other written comments may be submitted to the Assistant Secretary for Enforcement and Compliance no later than seven days after the date on which the final verification report is issued in this proceeding, and rebuttal briefs, limited to issues raised in case briefs, may be submitted no later than five days after the deadline date for case briefs.<sup>8</sup> Pursuant to 19 CFR 351.309(c)(2) and (d)(2), parties who submit case briefs or rebuttal briefs in this proceeding are encouraged to submit with each argument: (1) A statement of the issue; (2) a brief summary of the argument; and (3) a table of authorities.

The Department established separate deadlines for interested parties to provide comments on scope issues.<sup>9</sup> Specifically, case briefs on scope issues were to be submitted no later than October 21, 2016. Scope rebuttal briefs, limited to issues raised in the scope case briefs, were to be submitted no later than November 1, 2016.<sup>10</sup> The Department explained that parties should limit comments on scope issues to their scope case brief and their scope rebuttal brief.<sup>11</sup> Thus, comments on scope issues belong in parties' scope case briefs and scope rebuttal briefs only and not in other case briefs and rebuttal briefs submitted in this investigation. The Department intends to address parties' scope comments in a final scope memorandum.

Pursuant to 19 CFR 351.310(c), interested parties who wish to request a hearing must submit a written request to the Assistant Secretary for Enforcement and Compliance, U.S. Department of Commerce within 30 days after the date of publication of this notice. Requests should contain the party's name, address, and telephone number, the

number of participants, and a list of the issues to be discussed. If a request for a hearing is made, the Department intends to hold the hearing at the U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230, at a time and date to be determined. Parties should confirm by telephone the date, time, and location of the hearing two days before the scheduled date.

All documents must be filed electronically using ACCESS. An electronically-filed request must be received successfully in its entirety by ACCESS by 5:00 p.m. Eastern Standard Time.

## Postponement of Final Determination and Extension of Provisional Measures

Section 735(a)(2) of the Act provides that a final determination may be postponed until not later than 135 days after the date of the publication of the preliminary determination if, in the event of an affirmative preliminary determination, a request for such postponement is made by exporters who account for a significant proportion of exports of the subject merchandise, or in the event of a negative preliminary determination, a request for such postponement is made by the petitioner. 19 CFR 351.210(e)(2) requires that requests by respondents for postponement of a final determination be accompanied by a request for extension of provisional measures from a four-month period to a period not more than six months in duration.

Respondents Dillinger and Industeel have requested that, in the event of an affirmative preliminary determination in this investigation, the Department postpone its final determination by 60 days, *i.e.*, to 135 days after publication of the preliminary determination.<sup>12</sup> Further, Industeel agreed to extend the application of the provisional measures prescribed under section 733(d) of the Act and 19 CFR 351.210(e)(2), from a four-month period to a period not to exceed six months.

In accordance with section 735(a)(2)(A) of the Act and 19 CFR 351.210(b)(2)(ii), because (1) our preliminary determination is affirmative; (2) Industeel accounts for a significant proportion of exports of the subject merchandise; and (3) no compelling reasons for denial exist, we

are postponing the final determination until no later than 135 days after the publication of this notice in the **Federal Register** and extending the provisional measures from a four-month period to a period not greater than six months. Accordingly, we will issue our final determination no later than 135 days after the date of publication of this preliminary determination, pursuant to section 735(a)(2) of the Act.<sup>13</sup>

## International Trade Commission (ITC) Notification

In accordance with section 733(f) of the Act, we are notifying the ITC of our affirmative preliminary determination of sales at LTFV. If our final determination is affirmative, the ITC will determine before the later of 120 days after the date of this preliminary determination or 45 days after our final determination whether these imports are materially injuring, or threaten material injury to, the U.S. industry.

This determination is issued and published in accordance with sections 733(f) and 777(i)(1) of the Act and 19 CFR 351.205(c).

Dated: November 4, 2016.

**Paul Piquado,**

*Assistant Secretary for Enforcement and Compliance.*

## Appendix I—Scope of the Investigation

The products covered by this investigation are certain carbon and alloy steel hot-rolled or forged flat plate products not in coils, whether or not painted, varnished, or coated with plastics or other non-metallic substances (cut-to-length plate). Subject merchandise includes plate that is produced by being cut-to-length from coils or from other discrete length plate and plate that is rolled or forged into a discrete length. The products covered include (1) Universal mill plates (*i.e.*, flat-rolled products rolled on four faces or in a closed box pass, of a width exceeding 150 mm but not exceeding 1250 mm, and of a thickness of not less than 4 mm, which are not in coils and without patterns in relief), and (2) hot-rolled or forged flat steel products of a thickness of 4.75 mm or more and of a width which exceeds 150 mm and measures at least twice the thickness, and which are not in coils, whether or not with patterns in relief. The covered products described above may be rectangular, square, circular or other shapes and include products of either rectangular or non-rectangular cross-section where such non-rectangular cross-section is achieved subsequent to the rolling process, *i.e.*, products which have been "worked after rolling" (*e.g.*, products which have been beveled or rounded at the edges).

For purposes of the width and thickness requirements referenced above, the following rules apply:

<sup>8</sup> See 19 CFR 351.309; see also 19 CFR 351.303 (for general filing requirements).

<sup>9</sup> See Preliminary Scope Decision Memorandum; Additional Preliminary Scope Decision Memorandum; Memorandum to the File, entitled, "Deadlines for Submitting Scope Case Briefs and Scope Rebuttal Briefs," dated October 18, 2016 (Deadline Memo for Scope Briefs); and Memorandum to the File "Extension of Deadline for Submitting Scope Rebuttal Briefs," dated October 28, 2016 (Extension Memo for Scope Rebuttal Briefs).

<sup>10</sup> See Deadline Memo for Scope Briefs and Extension Memo for Scope Rebuttal Briefs.

<sup>11</sup> See, *e.g.*, Deadline Memo for Scope Briefs.

<sup>12</sup> See letter from Dillinger entitled, "Certain Carbon and Alloy Steel Cut-To-Length Plate From France: Request for Extension of Final Determination," dated October 17, 2016; and Letter from Industeel entitled, "Certain Carbon and Alloy Steel Cut-To-Length Plate From France: Request for Postponement of Final Determination," dated October 13, 2016.

<sup>13</sup> See 19 CFR 351.210(b)(2) and (e).

(1) Except where otherwise stated where the nominal and actual thickness or width measurements vary, a product from a given subject country is within the scope if application of either the nominal or actual measurement would place it within the scope based on the definitions set forth above; and

(2) where the width and thickness vary for a specific product (e.g., the thickness of certain products with non-rectangular cross-section, the width of certain products with non-rectangular shape, *etc.*), the measurement at its greatest width or thickness applies.

Steel products included in the scope of this investigation are products in which: (1) Iron predominates, by weight, over each of the other contained elements; and (2) the carbon content is 2 percent or less by weight.

Subject merchandise includes cut-to-length plate that has been further processed in the subject country or a third country, including but not limited to pickling, oiling, levelling, annealing, tempering, temper rolling, skin passing, painting, varnishing, trimming, cutting, punching, beveling, and/or slitting, or any other processing that would not otherwise remove the merchandise from the scope of the investigation if performed in the country of manufacture of the cut-to-length plate.

All products that meet the written physical description, are within the scope of this investigation unless specifically excluded or covered by the scope of an existing order. The following products are outside of, and/or specifically excluded from, the scope of this investigation:

- T9074-BD-GIB-010/0300 Grade

HSLA100, and

- T9074-BD-GIB-010/0300 Mod. Grade HSLA115,

except that any cut-to-length plate certified to one of the above specifications, or to a military grade armor specification that references and incorporates one of the above specifications, will not be excluded from the scope if it is also dual- or multiple-certified to any other non-armor specification that otherwise would fall within the scope of this order;
