

U.S.C. 47(a)(2) and 41 CFR 51-2.3. Its purpose is to provide interested persons an opportunity to submit comments on the possible impact of the proposed actions.

If the Committee approves the proposed additions, all entities of the Federal Government (except as otherwise indicated) will be required to procure the commodities and services listed below from nonprofit agencies employing persons who are blind or have other severe disabilities.

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will furnish the commodities and services to the Government.

2. The action does not appear to have a severe economic impact on current contractors for the commodities and services.

3. The action will result in authorizing small entities to furnish the commodities and services to the Government.

4. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46-48c) in connection with the commodities and services proposed for addition to the Procurement List.

Comments on this certification are invited. Commenters should identify the statement(s) underlying the certification on which they are providing additional information.

CONSUMER PRODUCT SAFETY COMMISSION**Request for Comments Concerning Proposed Extension of Approval of a Collection of Information—Children's Sleepwear**

AGENCY: Consumer Product Safety Commission.

ACTION: Notice.

SUMMARY: As required by the Paperwork Reduction Act (44 U.S.C. Chapter 35), the Consumer Product Safety Commission requests comments on a proposed extension of approval of a collection of information from manufacturers and importers of children's sleepwear. This collection of information is in the Standard for the Flammability of Children's Sleepwear: Sizes 0 through 6X and the Standard for the Flammability of Children's Sleepwear: Sizes 7 through 14 and regulations implementing those standards. See 16 CFR Parts 1615 and 1616. The children's sleepwear standards and implementing regulations establish requirements for testing and recordkeeping by manufacturers and importers of children's sleepwear. The Commission will consider all comments received in response to this notice before requesting an extension of approval of this collection of information from the Office of Management and Budget.

DATES: Written comments must be received by the Office of the Secretary not later than March 19, 1996.

ADDRESSES: Written comments should be captioned "Children's Sleepwear, Collection of Information" and mailed to the Office of the Secretary, Consumer Product Safety Commission, Washington, D.C. 20207, or delivered to that office, room 502, 4330 East West Highway, Bethesda, Maryland.

FOR FURTHER INFORMATION CONTACT: For information about the proposed extension of the collection of information, or to obtain a copy of 16 CFR Parts 1615 and 1616, call or write Nicholas V. Marchica, Director, Office of Planning and Evaluation, Consumer Product Safety Commission, Washington, D.C. 20207; telephone (301) 504-0416, extension 2243.

SUPPLEMENTARY INFORMATION:**A. The Standards**

Children's sleepwear in sizes 0 through 6X manufactured for sale in or imported into the United States is subject to the Standard for the Flammability of Children's Sleepwear: Sizes 0 through 6X (16 CFR Part 1615).

Children's sleepwear in sizes 7 through 14 is subject to the Standard for the Flammability of Children's Sleepwear: Sizes 7 through 14 (16 CFR Part 1616). The children's sleepwear flammability standards require that fabrics, seams, and trim used in children's sleepwear in sizes 0 through 14 must self-extinguish when exposed to a small open-flame ignition source.

The children's sleepwear standards and implementing regulations also require manufacturers and importers of children's sleepwear in sizes 0 through 14 to perform testing of products and to maintain records of the results of that testing. 16 CFR Part 1615, Subpart B; 16 CFR Part 1616, Subpart B.

The Commission uses the information compiled and maintained by manufacturers and importers of children's sleepwear to help protect the public from risks of death or burn injuries associated with children's sleepwear. More specifically, the Commission reviews this information to determine whether the products produced and imported by the firms comply with the applicable standard. Additionally, the Commission uses this information to arrange corrective actions if items of children's sleepwear fail to comply with the applicable standard in a manner which creates a substantial risk of injury to the public.

The Office of Management and Budget (OMB) approved the collection of information in the children's sleepwear standards and implementing regulations under control number 3041-0027. OMB's most recent extension of approval will expire on March 31, 1996. The Commission proposes to request an extension of approval without change for the collection of information in the children's sleepwear standards and implementing regulations.

B. Estimated Burden

The Commission staff estimates that about 63 firms manufacture or import products subject to the two children's sleepwear flammability standards. The Commission staff estimates that these standards and implementing regulations will impose an average annual burden of about 1,650 hours on each of those firms. That burden will result from conducting the testing required by the standards and maintaining records of the results of that testing required by the implementing regulations. The total annual burden imposed by the standards and regulations on all manufacturers and importers of children's sleepwear will be about 103,950 hours.

The hourly wage for the testing and recordkeeping required by the standards

and regulations is about \$12, for an annual cost to the industry of \$1,247,400.

The Commission will expend approximately one-half month of professional staff time reviewing and evaluating the records maintained by manufacturers and importers of children's sleepwear subject to the standards. The annual cost to the Federal government of the collection of information in the sleepwear standards and implementing regulations is estimated to be \$2,800.

C. Request for Comments

The Commission solicits written comments from all interested persons about the proposed extension of approval of the collection of information in the children's sleepwear flammability standards and implementing regulations. The Commission specifically solicits information about the hourly burden and monetary costs imposed by the collection of information on firms subject to this collection of information. The Commission also seeks information relevant to the following topics:

- Whether the collection of information is necessary for the proper performance of the Commission's functions;
- Whether the information will have practical utility for the Commission;
- Whether the quality, utility, and clarity of the information to be collected could be enhanced; and
- Whether the burden imposed by the collection of information could be minimized by use of automated, electronic or other technological collection techniques, or other form of information technology.

Dated: December 18, 1995.

Sadye E. Dunn,

Secretary, Consumer Product Safety Commission.
