

rented to entities included within the acquiring person except for the sole purpose of maintaining, managing or supervising the operation of the real property, and will be held solely for rental or investment purposes. In an acquisition that includes investment rental property assets, the transfer of any property or assets that are not investment rental property assets shall be subject to the requirements of the act and these rules as if they were being acquired in a separate transaction. Investment rental property assets include:

- (1) Property currently rented,
- (2) Property held for rent but not currently rented,
- (3) Common areas on the property, and
- (4) Assets incidental to the ownership of property, which may include cash, prepaid taxes or insurance, rental receivables and the like.

*Example:* 1. "X", a corporation, proposes to purchase a sports/entertainment complex which it will rent to professional sports teams and promoters of special events for concerts, ice shows, sporting events and other entertainment activities. "X" will provide office space in the complex for "Y", a management company which will maintain and manage the facility for "X." This acquisition is an exempt acquisition of investment rental property assets since "X" intends to rent the facility to third parties and is providing space within the facility to a management company solely to maintain, manage or supervise the operation of the facility on its behalf. If, however, "X" controls Z, a concert promoter to whom it also intends to rent the complex, the acquisition would not be exempt under § 802.5, since the property would not meet the requirements of § 802.5(b)(1).

2. "X" intends to buy from "Y" a development commonly referred to as an industrial park. The industrial park contains a warehouse/distribution center, a retail tire and automobile parts store, an office building, and a small factory. The industrial park also contains several parcels of vacant land. If "X" intends to acquire this industrial park as investment rental property, the acquisition will be exempt pursuant to § 802.5. If, however, "X" intends to use the factory for its own manufacturing operations, this exemption would be unavailable. The exemptions in § 802.2 for warehouses, rental retail space, office buildings, and undeveloped land may still apply and, if the value of the factory is \$15 million or less, the entire transaction may be exempted by that section.

By direction of the Commission,  
Donald S. Clark,  
*Secretary.*

BILLING CODE 8010-01-M

**SUMMARY:** This interim rule amends the list of exempt chemical preparations set forth in section 1308.24(i) of Title 21 of the Code of Federal Regulations. This action is in response to DEA's periodic review of the exempt chemical preparation list and of new applications for exemptions which have been approved by DEA. This action is being done by interim rule because prior notice is unnecessary. The list contains preparations which have already been exempted from the application of specific provisions of the Comprehensive Drug Abuse Prevention and Control Act of 1970, and from certain Drug Enforcement Administration Regulations.

**EFFECTIVE DATE:** March 28, 1996.

Comments must be submitted on or before May 28, 1996.

**ADDRESSES:** Comments and objections should be submitted to the Deputy Assistant Administrator, Office of Diversion Control, Drug Enforcement Administration, Washington, DC 20537; Attention: Federal Register Representative/CCR.

**FOR FURTHER INFORMATION CONTACT:** Howard McClain, Jr., Chief, Drug & Chemical Evaluation Section, Drug Enforcement Administration, Washington, DC 20537, Telephone: (202) 307-7183.

**SUPPLEMENTARY INFORMATION:** The Controlled Substances Act as amended by the Dangerous Drug Diversion Control Act of 1984 authorizes the Attorney General in accordance with 21, U.S.C. 811 (g)(3)(B) to exempt from specific provisions of the Act, a compound, mixture, or preparation which contains any controlled substance, which is not for administration to a human being or animal and which is packaged in such form or concentration, or with adulterants or denaturants, so that, as packaged, it does not present any significant potential for abuse. This authority has been delegated to the Deputy Assistant Administrator, Office of Diversion Control, Drug Enforcement Administration, 28 CFR 0.104.

The Deputy Assistant Administrator has received applications pursuant to section 1308.23 of Title 21 of the Code of Federal Regulations requesting approval of exempt status provided for in 21 CFR 1308.24. The Deputy Assistant Administrator has found that each of the following preparations and mixtures is intended for laboratory, industrial, educational, or special research purposes, is not intended for general administration to man or animal, and either (a) contains no narcotic controlled substances and is

packaged in such a form or concentration that the packaged quantity does not present any significant potential for abuse, (b) contains either a narcotic or non-narcotic controlled substance and one or more adulterating or denaturing agents in such a manner, combination, quantity, proportion, or concentration that the preparation or mixture does not present any potential for abuse, or (c) the formulation of such preparation or mixture incorporates methods of denaturing or other means so that the controlled substance cannot in practice be removed, and therefore the preparation or mixture does not present any significant potential for abuse. The Deputy Assistant Administrator has found that exemption of the following chemical preparations and mixtures is consistent with the public health and safety as well as the needs of the researchers, chemical analysts, and suppliers of these products.

The listing of products in 21 CFR 1308.24(i) may exempt persons who handle them from application of sections 302, 303, 305, 306, 307, 308, 309, 1002, 1003, and 1004 of the Act

and section 1301.74 of the regulations. The Deputy Assistant Administrator hereby certifies that these matters will have no significant impact upon small businesses or other entities within the meaning and intent of the Regulatory Flexibility Act, 5 U.S.C. 601 et seq. Accordingly, the Deputy Assistant Administrator certifies this action will have no impact on the ability of small businesses to compete and he therefore determines that no regulatory flexibility analysis is required.

This action has been analyzed in accordance with the principles and criteria contained in Executive Order 12612, and it has been determined that this matter does not have sufficient federalism implications to require the preparation of a Federalism Assessment.

The Office of Management and Budget (OMB) has determined that listings of exempt chemical preparations are exempt from centralized review under Executive Order 12866.

## 21 CFR 1313

[DEA Number 145N]

### Export of Chemicals From the United States to Colombia; Policy Statement

**AGENCY:** Drug Enforcement Administration (DEA), Justice.

**ACTION:** Policy statement.

**SUMMARY:** Notice is hereby given that regular customer status for Colombian customers is being revoked under Section 1018(c)(1) of the Controlled Substance Import Export Act (CSIE) (21 U.S.C. 971(c)(1)). Each U.S. exporter is being informed by letter that they must notify DEA at least 15 days in advance of shipment of certain chemicals listed in 21 CFR 1310.04, if the shipment is from the United States with an ultimate destination of Colombia. Moreover, in view of the danger that chemical shipments may be diverted into the illicit manufacture of cocaine, a heightened review process will be instituted for such exports and for transshipments. The exception under Title 21, Code of Federal Regulations (21 CFR), Section 1313.24, allowing exporters to notify DEA as late as the day of shipment for transactions between a "regulated person" and a "regular customer" will not apply to shipments of certain chemicals to Colombia until further notice.

**EFFECTIVE DATE:** March 28, 1996.

**FOR FURTHER INFORMATION CONTACT:**  
William Wolf, Chief, Chemical Operations Section, Office of Diversion Control, Drug Enforcement Administration, Washington, D.C. 20537, Telephone (202) 307-7204.

**SUPPLEMENTARY INFORMATION:** The following is a statement of policy by the Drug Enforcement Administration (DEA) under the Controlled Substances Act, as amended by the Chemical Diversion and Trafficking Act of 1988 (CDTA), regarding exports of certain listed chemicals from the United States to Colombia.

On March 1, 1996, the President of the United States, under the Annual Certification Procedures Act (22 U.S.C. Section 2291j), moved to decertify Colombia's status as a nation actively cooperating with the United States to stem the clandestine manufacture and

trafficking of illegal drugs. This action was taken in response to overwhelming evidence of rampant drug-related corruption at the highest levels of the Colombian government. In direct contravention of efforts by Colombian law enforcement officials and the judicial sector to root out drug-related corruption, elements of the Colombian government have systematically undermined and publicly attacked these efforts while failing to support the efforts of Colombian law enforcement to strengthen the nation's institutions to combat the destructive effects of narcotics traffickers.

These problems have also adversely affected the ability of the Colombian Government to insure that listed chemicals imported from the U.S. and other sources are not diverted into the illicit manufacture of cocaine.

At a time when the Colombian government's commitment to combating narcotic trafficking has deteriorated, as evidenced by shifting the import permit approvals outside the existing infrastructure for chemical control, DEA data reveals a 57% increase between 1990 and 1995 in the sales to Colombia of List II solvents that are used in the clandestine manufacture of cocaine. These sales by U.S. chemical firms, which were based primarily upon Colombian authorization, are estimated by the Colombian Director of Customs to comprise 59% of the listed chemicals now imported into Colombia and, unfortunately, coincide with continued large scale illicit cocaine production within Colombia. DEA has concluded, therefore, that all shipments to Colombia of certain chemicals may be diverted to the clandestine manufacture of a controlled substance.

The CDTA, the Domestic Chemical Diversion Control Act (DCDCA) and the implementing regulations have established a system of recordkeeping and reporting requirements that provide DEA with a mechanism to track domestic and international movement of listed chemicals in order to prevent their being diverted for use in the clandestine manufacture of controlled substances.

Section 1018(a) of the CSIE (21 U.S.C. 971(a)), as amended by the CDTA, provides that "each regulated person who imports or exports a listed chemical shall notify the Attorney General of the importation or exportation not later than 15 days before the transaction is to take place." In accordance with Section 1018(b) (21 U.S.C. 971(b)), this requirement is modified by 21 CFR 1313.24 where the transaction is between a "regulated person" and a "regular customer."

Under normal circumstances, exporters are allowed to ship listed chemicals to regular customers with notification as late as the day of shipment.

A person located in the United States who is a broker or trader for an international transaction of a listed chemical is subject to all of the notification, reporting, recordkeeping, and other requirements placed upon exporters of listed chemicals. No waiver of the 15-day advance notice is permitted under Section 1313.31 for importations and exportations for transhipment purposes of threshold quantities of listed chemicals.

Regardless of whether the shipment is a direct export or a transhipment, DEA has the obligation to examine the notification in order to determine if the shipment is legitimate and that the chemical will not be diverted to the illicit manufacture of controlled substances. Due to the distribution network within Colombian, where large quantities of the chemicals used in the clandestine manufacture of illegal controlled substances are redistributed by the importing customer, bestowing "regular customer" status on the importer is ineffective in assuring legitimate usage.

As underscored by the President's action to decertify Colombia as a cooperating nation due to widespread corruption, DEA is unable to determine the legitimacy of shipments of the specified chemicals or to rely on import permits and other documentation issued by the Colombian Government that the above chemicals are not being diverted for use in the clandestine manufacture of controlled substances. Although the Colombian National Police have been diligent and constructive in their efforts to monitor the legitimacy of chemicals imported into Colombia, its efforts have been handicapped by inadequate political and resource support. DEA has no confidence that those customers previously submitted as regular customers, nor those who would become regular customers in the future, as specified in 21 CFR 1313.24, are not diverting the above chemicals to the illicit drug traffic. Therefore, in the absence of a way to determine with any reasonable degree of certainty that chemical shipments will not be diverted, pursuant to Section 1018(c)(1) of the CSIE (21 U.S.C. 971(c)(1)), DEA will act to disqualify regular customer status for Colombian importers of MEK, MIBK, acetone, toluene, potassium permanganate, and ethyl ether. Accordingly, each U.S. exporter is being informed by letter that for all shipments of these chemicals to Colombia, the exporter must now file a Chemical
