

schedules varies. The line number on the paper version, therefore, has no special connotation. Conversely, the line number in the electronic filing identifies the type of data being entered. For example line number 1 always refers to sales data and line 7, Gathering-Firm. Since the transportation and storage data may require any number of lines, associating that data with specific line numbers is not feasible. In the electronic filing, the headings at lines 2, Transportation of Gas for Others, and 4, Storage, are not reported, making some other means of identifying the rate schedules as either transportation or storage necessary. Adopting the sequential numbering 2.001, 2.002, 2.003, *etc.*, identifies all items with the prefix 2 as related to transportation rate schedules. Similarly, all numbers in the sequence 4.001, 4.002, 4.003, *etc.*, identify these items as related to storage rate schedules. This method of line numbering permits any number of rows of transportation and storage data to be reported without disturbing the rest of the line numbering sequence.

The line numbering on Part II of the paper version of Form No. 11 is modified to be consistent with the line numbering in the electronic filing instructions. A sentence is added to the specific instruction explaining how the lines are to be numbered.

A new specific instruction is added to explain how footnotes are identified on Parts I and II. The new instructions read as follows:

"In Part I, enter a footnote reference for each item footnoted. The reference shall be a concatenation of the letter of the item footnoted and the number of the footnote. Enter the footnote number together with the footnote text in Part III. Enter up to ten footnote references separated by /. Refer to the item footnoted in the first position of the footnote reference (*e.g.*, e2 indicates footnote 2 applies to item e, the company's name. Use x if the footnote applies to the entire table, *e.g.*, x3)."

"In Part II, the footnote reference shall be a concatenation of the column letter and the footnote number. Enter the footnote number together with the footnote text in Part III. Enter up to ten footnote references separated by /. Refer to the item footnoted in the first position of the footnote reference (*e.g.*, c5 indicates footnote 5 applies to the number in column c, the quantity. Use x if the footnote applies to the entire table, *e.g.*, x7)."

Two additional instructions are added to clarify that the pipeline name must be the full legal name of the pipeline, and that the pipeline code is the three-digit FERC pipeline code. The Commission's ultimate goal is to discontinue paper filing. These two data elements will be crucial to identification of the data as

coming from a particular respondent. To ensure consistent reporting between the paper version and electronic version of the form, the pipeline code is added to the identification information on the paper form.

Subsequent to the turn of the century, many software programs will have difficulty processing dates which identify only the last two digits of the year. To avoid this potential difficulty, all dates reported in the form will contain all four digits of the year to be reported. Therefore, the Report Period is clarified to require begin and end dates in the format MM/DD/YYYY. Similarly, the submission date is formatted as MM/DD/YYYY.

The components of the address of the filing company are no longer listed horizontally. They will now be entered vertically with the number and street of the address on one line and the city, state, and zip code on another line. This arrangement allows the information on Part I to be ordered as it appears in the electronic record.

The numbers (1) and (2) appearing before the signature and phone number, respectively, are removed. These numbers do not appear in the electronic record.

A space to enter a footnote designation is added to provide the filing company the opportunity to record a footnote on Part I if appropriate. For example, a company which recently changed its name may wish to enter a footnote to highlight the name change.

Items reported on Part I are no longer designated by a number, but by a letter. This change conforms the paper copy to the electronic copy of the form.

On Part II, Revenue Data, the heading Total Quantities and Revenues is changed to Total Quantities (1000s of Dth) and Revenues (1000s of \$) to clarify the instructions for reporting these items. An instruction is added to indicate that the month reported must be in the format MM/YYYY. The line numbering is changed to incorporate the new line numbering for transportation and storage rate schedules as explained above.

Part III, Footnotes, is modified by replacing the columns entitled Line No. Reference and Column Reference with a single column entitled Footnote Number. As discussed above, this change conforms the method of incorporating footnotes on the paper copy of Form No. 11 to the method adopted in the electronic version of Form No. 11. Since the location of the footnote is no longer dependent on knowing the month reported, this item is eliminated.

The Commission Orders

(A) The specifications for filing the Form No. 11 electronically and on paper are adopted.

(B) The Commission staff is authorized to issue in the future, further electronic and paper filing specifications related to the forms that were modified by Order Nos. 581 and 582.

By the Commission.

Linwood A. Watson, Jr.,

Acting Secretary.

Science Advisory Board Request for Nomination of Members and Consultants

In accordance with its standard operating procedures (SAB-FRL-2657-4 dated August 21, 1984), the Science Advisory Board (SAB), including the Clean Air Scientific Advisory Committee (CASAC) and the Clean Air Act Compliance Advisory Council (CAACAC), of the Environmental Protection Agency (EPA) is soliciting nominations for Members and Consultants (M/Cs). As part of this effort, the Agency is publishing this notice to describe the purpose of the SAB and to invite the public to nominate appropriately qualified candidates of any gender or ethnic background to fill upcoming vacancies. This process supplements other efforts to identify qualified candidates.

The SAB is composed of Non-Federal Government scientists and engineers who are employed on an intermittent basis to provide independent advice directly to the EPA Administrator on technical aspects of public health and environmental issues confronting the Agency. Members of the SAB are appointed by the Administrator—generally in October—to serve two years terms with some possibilities for reappointment. Consultants are appointed throughout the year, as the need arises, by the Staff Director of the Science Advisory Board to serve renewable one-year terms and serve on SAB committees, as needed. Many individuals serve as consultants prior to serving as members.

Any interested person or organization may nominate qualified persons to serve on the SAB. Nominees should be qualified by education, training and

experience to evaluate scientific, engineering and/or economics information on issues referred to and addressed by the Board.

Members and Consultants most often serve in association with one of the following standing committees: Clean Air Act Compliance Analysis Council, Clean Air Scientific Advisory Committee, Drinking Water Committee, Ecological Processes and Effects Committee, Environmental Economics Advisory Committee, Environmental Engineering Committee, Environmental Health Committee, Integrated Human Exposure Committee, Radiation Advisory Committee, and Research Strategies Advisory Committee.

Members and Consultants can expect to attend 1-6 meetings per year, based upon the activity of the committee on which they serve. M/Cs generally serve as Special Government Employees (SGEs) (40 CFR part 3, subpart F or EPA Ethics Advisory 88-6 dated 7/6/88) and receive compensation, in addition to reimbursement at the Federal Government rate for travel and per diem expenses while serving on the SAB. SGEs are required to complete an application package, including a Confidential Financial Disclosure Report.

Nominees should be identified by name, occupation, position, address, telephone number, fax number, email address (if available) and SAB committee of primary interest. Nominations should include a current resume that addresses the nominee's background, experience, qualifications, and specific areas of expertise.

Information on the nominees will be entered into the SAB's data base for potential M/Cs which will be consulted whenever vacancies arise and/or when special expertise is needed for particular reviews. This request for nominations does not imply any commitment by the Agency to select individuals to serve as a member of or consultant to the Science Advisory Board from the responses received.

Nominations should be submitted to: Ms. Carolyn Osborne, Project Coordinator, Science Advisory Board, USEPA, 401 M Street, SW, Washington, DC 20460 Tel: (202) 260-8414 no later than June 14, 1996. Additional information concerning the Science Advisory Board, its structure, function, and composition, may be found in the Annual Report of the Staff Director which is available by calling (202) 260-8414 or by way on Internet at BARNES.DON@EPAMAIL.GOV.

Dated: March 29, 1996.
Donald G. Barnes,
Staff Director Science Advisory Board.

Access to Confidential Business Information by a New Team Subcontractor to TechLaw, Inc.

AGENCY: U.S. Environmental Protection Agency.

ACTION: Notice.

SUMMARY: TechLaw, Inc. the prime contractor on the Region I Enforcement Support Services (ESS) Contract 68-W4-0019 has added Northbridge Environmental Management Consultants as a team subcontractor.

In Federal Register notice, vol. 60, No. 67, EPA informed that TechLaw, Inc. and its team subcontractors required access to information in Region I Superfund files to perform work under the ESS contract. This information, some of which may be claimed or determined to be confidential business information (CBI), has been submitted to EPA under environmental statutes administered by the Agency. This access authorization now applies to Northbridge Environmental Management Consultants.

DATES: Comments should be submitted to EPA on or before April 15, 1996.

FOR FURTHER INFORMATION CONTACT: Mary H. Grealish, Project Officer, U.S. Environmental Protection Agency, (HBS), JFK Federal Building, Boston, MA 02203-2211. Telephone (617) 223-5507.

Dated: March 26, 1996.
Patricia L. Meaney,
Acting Regional Administrator.

National Environmental Justice Advisory Council; Notification of Meeting and Public Comment Period(s) Open Meeting

Pursuant to the Federal Advisory Committee Act (FACA), Public Law 92-463, notice is hereby given that the National Environmental Justice Advisory Council (NEJAC) along with the subcommittees will meet on the dates and times described below. All times noted are Eastern Daylight Time. All meetings are open to the public. Due to limited space, seating at the NEJAC

meeting will be on a first-come basis. Documents that are the subject of NEJAC reviews are normally available from the originating EPA office and are not available from the NEJAC. The meetings will occur at the Westin Hotel in the Renaissance Center in Detroit, MI. Phone: (313) 568-8000.

The full NEJAC will convene on Wednesday, May 29 from 8 a.m. to 8:30 a.m. and from 6:15 p.m. to 8:30 p.m., on Thursday, May 30 from 11:45 a.m. to 6:00 p.m., and on Friday, May 31 from 8:30 a.m. to 3:00 p.m. to discuss the NEPA environmental justice guidance update, relocation roundtables, follow-up on pending items from the December meeting, and various NEJAC new business interest items. A public comment period is scheduled from 6:30-8:30 p.m. on Wednesday, May 29 and from 12:00 p.m.-1:00 p.m. on Thursday, May 30.

The six subcommittees will meet on Wednesday, May 29, from 8:30 a.m. to 6:00 p.m. and on Thursday, May 30, from 8:00 a.m. to 11:00 a.m. Any member of the public wishing further information on the subcommittee meetings should contact the specific Designated Federal Official at the telephone number listed below.

Members of the public who wish to make a brief oral presentation should contact Lena Schaye of PRC Environmental Management, Inc. no later than May 20, 1996 in order to have time reserved on the agenda. In general, each individual or group making an oral presentation will be limited to a total time of five minutes. Written comments of any length (at least 35 copies) should be received no later than May 20, comments received after that date will be provided to the Council as logistics allow. They should be sent to PRC Environmental Management, Inc., 1593 Spring Hill Road, Suite 300, Vienna, VA 221882. Telephone number is 703/287-8880 or FAX: 703/287-8910. Internet e-mail address is schayel@prcemi.com.
