

Flood Insurance Act of 1968, 42 U.S.C. 4001 et seq., and with 44 CFR part 65.

For rating purposes, the currently effective community number is shown and must be used for all new policies and renewals.

The modified base flood elevations are the basis for the floodplain management measures that the community is required to either adopt or to show evidence of being already in effect in order to qualify or to remain qualified for participation in the National Flood Insurance Program.

These modified elevations, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own, or pursuant to policies established by other Federal, state or regional entities.

These modified elevations are used to meet the floodplain management requirements of the NFIP and are also used to calculate the appropriate flood insurance premium rates for new

buildings built after these elevations are made final, and for the contents in these buildings.

The changes in base flood elevations are in accordance with 44 CFR 65.4.

National Environmental Policy Act

This rule is categorically excluded from the requirements of 44 CFR Part 10, Environmental Consideration. No environmental impact assessment has been prepared.

Regulatory Flexibility Act

The Acting Associate Director, Mitigation Directorate, certifies that this rule is exempt from the requirements of the Regulatory Flexibility Act because modified base flood elevations are required by the Flood Disaster Protection Act of 1973, 42 U.S.C. 4105, and are required to maintain community eligibility in the National Flood Insurance Program. No regulatory flexibility analysis has been prepared.

Regulatory Classification

This final rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 12612, Federalism

This rule involves no policies that have federalism implications under Executive Order 12612, Federalism, dated October 26, 1987.

Executive Order 12778, Civil Justice Reform

This rule meets the applicable standards of section 2(b)(2) of Executive Order 12778.

List of Subjects in 44 CFR Part 65

Flood insurance, Floodplains, Reporting and recordkeeping requirements. Accordingly, 44 CFR part 65 is amended to read as follows:

PART 65—[AMENDED]

1. The authority citation for part 65 continues to read as follows:

Authority: 42 U.S.C. 4001 et seq.; Reorganization Plan No. 3 of 1978, 3 CFR, 1978 Comp., p. 329; E.O. 12127, 44 FR 19367, 3 CFR, 1979 Comp., p. 376.

§ 65.4 [Amended]

2. The tables published under the authority of § 65.4 are amended as follows:

State and county	Location	Dates and name of newspaper where notice was published	Chief executive officer of community	Effective date of modification	Community No.
Georgia: Effingham County (FEMA Docket No. 7150).	Unincorporated areas .	August 23, 1995, August 30, 1995, The Herald.	Mr. George G. Allen, Chairman of the Effingham County Board of Commissioners, Effingham County Courthouse, P.O. Box 307, Springfield, Georgia.	August 15, 1995	130076
Illinois: Cook (FEMA Docket No. 7158).	Village of Orland Park .	September 28, 1995, October 5, 1995, The Daily Southtown Economist.	The Honorable Daniel McLaughlin, Mayor of the Village of Orland Park, 14700 South Ravinia Drive, Orland Park, Illinois 60462.	September 21, 1995.	170140 B
Ohio: Montgomery (FEMA Docket No. 7158).	City of Trotwood	October 10, 1995, October 17, 1995, Daily Court Reporter.	Mr. Michael Ratcliff, City of Trotwood Manager, 35 North Olive Road, Trotwood, Ohio 45426.	September 19, 1995.	390417 B

BILLING CODE 6718-03-P

44 CFR Part 67

Final Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency (FEMA).

ACTION: Final rule.

SUMMARY: Base (1% annual chance) flood elevations and modified base flood elevations are made final for the communities listed below. The base flood elevations and modified base flood elevations are the basis for the floodplain management measures that each community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

EFFECTIVE DATES: The date of issuance of the Flood Insurance Rate Map (FIRM) showing base flood elevations and

modified base flood elevations for each community. This date may be obtained by contacting the office where the maps are available for inspection as indicated on the table below.

ADDRESSES: The final base flood elevations for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the table below.

FOR FURTHER INFORMATION CONTACT: Michael K. Buckley, P.E., Chief, Hazard Identification Branch, Mitigation Directorate, 500 C Street SW., Washington, DC 20472, (202) 646-2756.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA or Agency) makes final determinations listed below of base flood elevations and modified base flood elevations for each community listed. The proposed base flood elevations and proposed modified base flood elevations were published in newspapers of local circulation and an opportunity for the community or individuals to appeal the proposed determinations to or through the community was provided for a period of ninety (90) days. The proposed base flood elevations and proposed modified base flood elevations were also published in the Federal Register.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR part 67.

The Agency has developed criteria for floodplain management in floodprone areas in accordance with 44 CFR part 60.

Interested lessees and owners of real property are encouraged to review the proof Flood Insurance Study and Flood Insurance Rate Map available at the address cited below for each community.

The base flood elevations and modified base flood elevations are made final in the communities listed below. Elevations at selected locations in each community are shown.

National Environmental Policy Act

This rule is categorically excluded from the requirements of 44 CFR Part 10, Environmental Consideration. No environmental impact assessment has been prepared.

Regulatory Flexibility Act

The Acting Associate Director, Mitigation Directorate, certifies that this rule is exempt from the requirements of the Regulatory Flexibility Act because final or modified base flood elevations are required by the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and are required to establish and maintain community eligibility in the National Flood Insurance Program. No regulatory flexibility analysis has been prepared.

Regulatory Classification

This final rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 12612, Federalism

This rule involves no policies that have federalism implications under

Executive Order 12612, Federalism, dated October 26, 1987.

Executive Order 12778, Civil Justice Reform

This rule meets the applicable standards of section 2(b)(2) of Executive Order 12778.

Administrative practice and procedure, Flood insurance, Reporting and recordkeeping requirements.

Accordingly, 44 CFR part 67 is amended as follows:

PART 67—[AMENDED]

1. The authority citation for part 67 continues to read as follows:

Authority: 42 U.S.C. 4001 et seq.; Reorganization Plan No. 3 of 1978, 3 CFR, 1978 Comp., p. 329; E.O. 12127, 44 FR 19367, 3 CFR, 1979 Comp., p. 376.

§ 67.11 [Amended]

2. The tables published under the authority of § 67.11 are amended as follows:

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73
[FCC 96-113]

Mass Media: AM Expanded Band Allotment Plan

AGENCY: Federal Communications Commission.

ACTION: Final rule; comments in response to reconsideration.

SUMMARY: In Comments in Response to Reconsideration of Implementation of the AM Expanded Band and Allotment Plan, FCC 96-113, the Federal Communications Commission denied requests raised in response to Reconsideration of Implementation of the AM Expanded Band Allotment Plan (Reconsideration Order) and closed to further changes the official AM database (the June 30, 1993-A AM Engineering Database) which is used for expanded band allotments. The Reconsideration Order had rescinded the initial AM Expanded Band Allotment Plan and provided a period for comments to correct the AM database and comments on the procedures which would be used to generate a new plan based on recalculated ranking factors.

EFFECTIVE DATE: April 18, 1996.

FOR FURTHER INFORMATION CONTACT: Jim Burtle, Audio Services Division, Mass Media Bureau, (202) 418-2670.

SUPPLEMENTARY INFORMATION: The full text of this Commission decision Comments in Response to Reconsideration of Implementation of the AM Expanded Band and Allotment Plan, FCC 96-113, adopted March 15, 1996, and released March 22, 1996 (Comments Order), is available for inspection and copying during normal business hours in the FCC Dockets Branch (Room 230), 1919 M St., N.W. Washington D.C. (See MM Docket 87-267). The complete text of this decision may also be purchased from the Commission's copy contractor, Downtown Copy Center, 1990 M St., N.W., Suite 640, Washington, D.C. 30036.

By the Reconsideration Order, 60 FR 48426 (September 19, 1995), the Commission rescinded the interference improvement factor rankings and the resulting Allotment Plan for AM stations seeking to migrate to the AM expanded band. The Allotment Plan identified those AM stations that were eligible to apply for authorizations for specific allotments for AM expanded band frequencies (1605 kHz-1705 kHz). The Commission provided the public a thirty-day period to submit comments on the procedures and technical standards which were set forth in the Reconsideration Order and which would be used to generate corrected improvement factors and a new allotment plan. Comments were received from four licensees. The FCC rejected the requests raised in the comments.

Concurrent with the release of the Comments Order, the Commission's Mass Media Bureau announced revised expanded AM broadcast band improvement factors and a revised Allotment Plan. See Public Notice DA 96-408, released March 22, 1996. After the Allotment Plan becomes a final Commission action, the FCC will issue a further public notice announcing that each licensee that was allotted a frequency, and thus selected for migration to the expanded band, will be afforded a sixty (60) day period in which to file an application for construction permit authority on the allotted channel. Such licensees will also be notified individually by letter. Applications will be subject to petitions to deny but not to competing applications. Applications are also subject to the provisions of three international agreements (Region 2, Canadian, and Mexican). See Section 73.28 (a) of the Commission's Rules. Application procedures will be set forth in the further public notice.

Final Regulatory Flexibility Analysis

This action is authorized under Sections 4 (i) and 303 (r) of the Communications Act of 1934, as amended, and 303 (r), and Section 553 (b) (3) (A) of the Administrative Procedures Act.

Ordering Clause

Accordingly, *it is ordered* that the requests raised in the comments filed in this proceeding are denied, as set forth above. *It is further ordered* that the June 30, 1993-A database is now closed to further changes and the June 30, 1993-A AM Engineering Database which was placed in the public record and associated with MM Docket 87-267, the Expanded Band rulemaking proceeding, will be used as the official database for further use in the expanded band proceeding.
