(iii) In cases where cable system operators offer remote control capability with cable system terminal devices and other customer premises equipment that is provided to subscribers, they shall advise their subscribers that remote control units that are compatible with that equipment may be obtained from other sources, such as retail outlets. Cable system operators shall also provide a representative list of the models of remote control units currently available from retailers that are compatible with the customer premises equipment they employ. Cable system operators are required to make a good faith effort in compiling this list and will not be liable for inadvertent omissions. This list shall be current as of no more than six months before the date the consumer education program is distributed to subscribers. Cable operators are also required to encourage subscribers to contact the cable operator to inquire about whether a particular remote control unit the subscriber might be considering for purchase would be compatible with the subscriber's customer premises equipment.

Note to § 76.630: The provisions of paragraphs (a) and (b) of this section are applicable July 31, 1994, and June 30, 1994, respectively. The provisions of paragraphs (c) and (d) of this section are applicable October 31, 1994, except for the requirement under paragraph (c) of this section for cable system operators to supply cable system terminal devices with dual tuners (as needed), which is applicable October 31, 1995. The initial offer of special equipment to all subscribers, as required under paragraph (c) of this section, shall be made by October 31, 1994.

Pipeline Safety Program Procedures; Update and Corrections

AGENCY: Research and Special Programs Administration (RSPA), DOT.

ACTION: Final rule; correcting amendments.

SUMMARY: In response to the President's Regulatory Reinvention Initiative, this rulemaking updates and corrects pipeline safety program procedures by amending nomenclature, addresses, amendment summaries, typographical errors, and penalty amounts. These editorial amendments impose no new procedural requirements.

EFFECTIVE DATE: April 26, 1996.

FOR FURTHER INFORMATION CONTACT: L.E. Herrick at 202-366-5523 or online at herrickl@rspa.dot.gov.

SUPPLEMENTARY INFORMATION:

Background

In a memorandum dated March 4, 1995, the President provided direction to the heads of Departments and Agencies on carrying out his regulatory reform initiative for reinventing the government. As part of this initiative, RSPA reviewed existing pipeline safety regulations and identified those that are outdated or in need of reform. RSPA

also conducted public outreach meetings to discuss the pipeline safety program. A theme of this process and an issue often raised during the course of the outreach meetings and other recent public contacts is the need to keep existing regulation updated. As a result, RSPA reviewed its pipeline safety program procedures, 49 CFR parts 190-199 and identified numerous instances in which these regulations were not up to date. These discrepancies include titles, addresses, amendment summaries, typographical errors and statutory citations. For example, references to the Natural Gas Pipeline Safety Act and the Hazardous Liquid Pipeline Safety Act have been deleted and replaced with references to Public Law 103-272. Enacted on July 5, 1994, Public Law 103-272 revised, codified, and enacted the provisions of those Acts without substantive change as Chapter 601 of Title 49, United States Code. This amendment makes those corrections.

In addition, unnecessary gender specific terms have been changed to gender neutral terms and other minor corrections have been made. Since these amendments do not impose new requirements, notice and public procedure are unnecessary.

Rulemaking Analysis and Notices

Executive Order 12866 and DOT Regulatory Policies and Procedures

This final rule is not considered a significant regulatory action under section 3(f) of Executive Order 12866 and, therefore, was not subject to review by the Office of Management and Budget. This rule is not significant according to the Regulatory Policies and Procedures of the Department of Transportation (44 FR 11034). This final rule does not require a Regulatory Impact Analysis, or a regulatory evaluation or an environmental assessment or impact statement under the National Environmental Policy Act (42 U.S.C. 4321 *et seq.*).

Executive Order 12612

This final rule has been analyzed in accordance with the principles and criteria in Executive Order 12612 ("Federalism") and does not have sufficient federalism impacts to warrant the preparation of a federalism assessment.

Regulatory Flexibility Act

I certify that this rule will not have a significant economic impact on a substantial number of small entities. This rule makes minor corrections which will not impose any new requirements on persons subject to the

Pipeline Safety Regulations; thus, there are no direct or indirect adverse economic impacts for small units of government, businesses, or other organizations.

Paperwork Reduction Act

There are no new information collection requirements in this final rule.
