### Administration for Children and Families

### Proposed Information Collection Activity; Comment Request; Proposed Projects

*Title:* Refugee Assistance-by-Nationality Report—ORR-10.

OMB No.: 0970-0044.

*Description:* The Office of Refugee Resettlement uses the ORR-10 (Refugee Assistance-by-Nationality Report) to collect information about refugee receipt of public assistance. Section 412(a)(3) of the Immigration and Nationality Act requires ORR to compile and maintain data, by State of residence and nationality, on the number of refugees receiving cash or medical assistance. To satisfy this requirement, ORR requires each State that participates in the Refugee Resettlement program to enumerate, by nationality, its refugee caseload of Refugee Cash Assistance (RCA) and Refugee Medical Assistance (RMA) as of June 30 of each year. ORR then consolidates all responses and reports these data in Appendix A of the annual Report to Congress.

Program managers use data on public assistance utilization by nationality groups to: (1) Plan employment services for refugee populations, (2) gauge the relative need for specialized services of different refugee populations in different areas of the country, and (3) determine whether newly arriving populations have adjusted to the American economy.

*Respondents:* State Governments.

### ANNUAL BURDEN ESTIMATES

Instrument	Number of respondents	Number of responses per respondent	Average burden hours per respondent	Total burden hours
ORR-10 .....	50	1	.417	135.8

Estimated Total Annual Burden Hours: 135.8.

In compliance with the requirements of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Administration for Children and Families is soliciting public comment on the specific aspects of the information collection described above. Copies of the proposed collection of information can be obtained and comments may be forwarded by writing to the Administration for Children and Families, Office of Information Services, Division of Information Resource Management Services, 370 L'Enfant Promenade, S.W., Washington, D.C. 20447, Attn: ACF Reports Clearance Officer. All requests should be identified by title.

In addition, requests for copies may be made and comments forwarded to the Reports Clearance Officer over the Internet by sending a message to [rkatson@acf.dhhs.gov](mailto:rkatson@acf.dhhs.gov). Internet messages must be submitted as an ASCII file

without special characters or encryption.

The Department specifically requests comments on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted within 60 days of this publication.

### Proposed Information Collection Activity; Comment Request; Proposed Projects

*Title:* Refugee State-of-Origin Report.  
 OMB No.: 0970-0043.

*Description:* The information collection of the ORR-11 (Refugee State-of-Origin Report) is designed to satisfy the statutory requirements of the Immigration and Nationality Act. Section 412(a)(3) of the Act requires ORR to compile and maintain data on the secondary migration of refugees within the United States after arrival.

In order to meet this legislative requirement, ORR requires each State participating in the Refugee

Resettlement Program to submit an annual report with a count of the number of refugees receiving cash and medical assistance or social services who were initial resettled in another State. The State does this by counting the number of refugees with social security numbers indicating residence

in another State at the time of arrival in the U.S. (The first three digits of the social security number indicate the State of residence of the applicant.)

Data submitted by the States are compiled and analyzed by the ORR statistician, who then prepares a summary report which is included in ORR's annual Report to Congress. The

primary use of the data is to quantify and analyze refugee secondary migration among the 50 States. ORR uses these data to adjust its refugee arrival totals for each State in order to calculate the social services allocation formula.

*Respondents:* State Governments.
